## TO CELEBRATE THE CARTIER CENTENARY

In connection with the movement to erect a memorial to celebrate the centenary of the late Sir George Cartier, a noted Conservative statesman, the following correspondence is published:

To the Editor of The Mail:  
Fredericton, N.B.,

Dear Sir:—I am enclosing you herewith copies of letters which I believe you will be glad to have for publication, as they would certainly be read with great interest. One of them is the copy of a letter addressed by Lord Dufferin, the great English statesman and diplomat, then governor general of Canada, to Sir George-Etienne Cartier, which is of considerable historic importance.

The original of this letter, I may explain, is in the possession of a private collector in this city who was kind enough to furnish me with a copy as he rightly judged that it would be of great interest in connection with the movement to commemorate the centenary of the birth of Sir George E. Cartier. The other is a copy of a letter just received from Lord Strathcona, warmly approving of the movement and announcing a personal contribution of \$2,500 to the Memorial Fund.

We might also mention that among the subscriptions received are those from the federal government for \$20,000, Quebec legislature, \$10,000; Ontario, \$5,000; Manitoba, \$5,000; City of Montreal, \$10,000; Canadian Club of Halifax, \$100; Canadian Club of Victoria, B.C., \$50. Rt. Hon. R. L. Borden, Sir Wilfrid Laurier and Sir Lomer Gouin of Quebec, have also sent their personal subscriptions of \$100 each.

Trusting that you will do us the favor of publishing these letters, in which event I would ask you to be so kind as to forward me marked copies of the paper, I am,

E. W. VILLENEUVE,  
President.

The Citadel, Quebec,  
August 29, 1872.

My Dear Sir George:

Although I am bound by my office to keep aloof from political contention, I am sure I am not guilty of anything unconstitutional if I express to you the deep and extreme regret with which I have learnt of your defeat at Montreal. In common with almost every other man who has attained distinction in parliamentary life, you have been called upon to undergo one of the proverbial vicissitudes incident to the fortunes of popular men, but unlike many of those whose careers have been most brilliant, you can afford to console yourself with the reflection that the distinction you have won has not been merely personal, but that your name is indissolubly incorporated with the most eventful and most glorious epoch of your country's history. Commencing as it does with your entrance into political life, and culminating in that consolidation of the provinces to which your genius, courage and ability so materially contributed.

As to your easily procuring a seat of course, there can be no doubt for I am sure that even your bitterest political opponents would scarcely forgive themselves if their triumph were to involve your exclusion from parliament.

My chief regret is for the tax on your health which the late contest must have entailed. I should be so glad to learn from yourself as soon as you have a little leisure that it has not materially suffered.

We are remaining here until the 23rd September, and though encamped in a barrack, we could still find a bedroom for you as soon as you are able to join us.

I need not say how welcome both to Lady Dufferin and myself your visit would be.

Yours sincerely,  
(Sgd.) DUFFERIN.

28 Grosvenor Square, W.,  
London, 4th May, 1912.

My Dear Sir:

On the 1st November last, in acknowledgement of your cable message of that date, I telegraphed you:

"Your today's cablegram. Gladly accept membership committee for erecting monument to Sir George-Etienne Cartier."

and it now affords me gratification to know from your letters that the memorial to Sir George-Etienne Cartier is being taken up so warmly by the Dominion and Provincial governments and by the people of Canada generally; and I need only here say that I join most cordially with you and those who are acting in the matter.

At the same time it will afford me much pleasure to contribute Twenty-five Hundred Dollars (\$2500) to the fund for the memorial as I not only appreciate most fully all that Sir George Cartier did in the interest of the Dominion but from the fact that it was my privilege to regard him as an intimate personal friend, for whom I entertained the highest esteem.

Believe me,  
Very truly yours,  
STRAETHCONA.

### IN MEMORY OF JEFFERSON DAVIS

Atlanta, Ga., June 3.—The south today celebrated the one hundred and fourth anniversary of the birth of Jefferson Davis, and paid tribute to the memory of the only president of the Confederacy. The day is a legal holiday in South Carolina, Texas, Tennessee, Mississippi, Alabama, Georgia and Florida. In each of these states and in Louisiana and Virginia also the day was observed with appropriate exercises conducted by the public schools and the various patriotic organizations.

Research by French scientists have shown that rain can carry both positive and negative charges of electricity.

### DEGREES FOR THREE BLIND YOUTHS

New York, June 5—Among the graduates who received degrees at the Columbia University commencement today were three young men who are totally blind. The three not only succeeded in completing the college course with as high standing as their more fortunate classmates, but each of the three was obliged during his college career to eke out a slender income by doing private tutoring and other work.

There were 29,353 applications for patents in Great Britain in 1911, fewer than in either of the two preceding years.

# Can't Get Away From It!

## Read This --

The average cup of of tea or coffee contains from 1 1-2 to 2 1-2 grains of "caffeine"----the drug that you read about here

Tea and Coffee drinkers often suffer from headache, nervousness, indigestion, biliousness, heart irritation and other symptoms of ill health--due to "caffeine," the drug in their tea and coffee.

The cause is often not understood until expert medical test shows up the bald facts

One can get relief from the ills caused by tea and coffee by quitting them for 10 days and using

# POSTUM

A pure, palatable food beverage that tastes much like high-grade Java but is absolutely free from Caffeine or any other drug.

If the 10 days' trial shows you some facts, perhaps you may conclude it's worth more to be well than to drink tea or coffee-- it's up to you to decide--

## POISON SQUAD MEMBER COLLAPSES UNDER TEST

Philadelphia Student in Serious Condition for a time, but has Recovered

COMPANIONS ARE SICK

Every Member of Band Suffers Nausea as Result of Caffeine Experiments

Philadelphia, May 11—Serious results have followed the feeding of caffeine, a drug lurking in chocolate as well as coffee, to the eight student members of the "poison squad" of the Hahnemann Medical College here. All have been subject to severe headaches and serious attacks of nausea, while one member of the squad was in such a serious condition after taking the caffeine-laden water for the first twenty days that he had to be placed in a special ward in the hospital. He received constant attention, has recovered and at the college is said to have rejoined the squad.

The "poison squad" at the Hahnemann college was formed very quietly. It came into existence on March 1 and is under the direct supervision of Dr. Edmund T. Nesbit, director of the Hering laboratory of the college.

Dr. Nesbit called for volunteers from among the students. He said he wanted men who were willing to do something for the benefit of humanity at large, even though it might be to their own discomfort. Twenty-five students volunteered. Of these fourteen of the most perfect physically were chosen, eleven as regular members of the squad and three as alternates.

For thirty days the members of the squad were given doses of caffeine while Dr. Nesbit and his assistants made personal observations, taking the pulses and temperature of the members of the squad and making notes on their general physical condition. It was not until within the last few days that one member of the squad weakened under the experiment to such an extent that it was necessary to send him to the hospital. Dr. Nesbit refused to reveal the name of the student who collapsed, but declares that through proper treatment immediately he soon recovered.

The caffeine was administered in a solution and was mixed with the water the squad drank. The students did not know when they were getting the caffeine. There were no stated times for giving it in order to keep the mind of the student free from worry in order that the physical condition might not be changed materially through the action of the brain. Before joining the "poison squad" each student had to sign a release against any action for damages against the college.

The laboratory was organized about fifteen months ago with Dr. Nesbit as director, and almost immediately an exhaustive study was started to ascertain the destructive qualities of caffeine as used in food stuffs.
