Don't Starve Your Hair

Many a Head of Hair, Apparently Healthy, is Slowly Starving to Death

Hair must have sulphur or die. When the blood fails to supply sulphur in sufficient quantities, the hair loses its color, dies and falls out.

When this condition begins, do not delay. In order to live, the hair must have sulphur, and the only combination containing sulphur that the hair roots will absorb is

**WYETH'S
SAGE AND SULPHUR
HAIR REMEDY**

It is the finest Hair Dressing made, and keeps the hair soft, glossy and beautiful. It removes dandruff, stops the hair from coming out, and promotes hair growth.

It Restores Gray Hair to Natural Color
PRICE 50c. AND \$1.00 AT ALL DRUGGISTS

If your druggist does not keep it send 50c. in stamps and we will send you a large bottle, express prepaid.

Wyeth Chemical Company, 74 CORTLANDT STREET
NEW YORK, N. Y.

FREE A 25c Cake of Wyeth's Sage and Sulphur Toilet Soap Free to anyone who will send us this advertisement with 10c in stamps to cover cost of wrapping and mailing the soap.

STRAY TOPICS FROM
LITTLE OLD NEW YORK

New York, July 6—Strangers visiting New York City for the first time and even many who have visited the city on several occasions, do not, as a rule, realize that the importance of its financial and commercial business and to its favorable geographical location as a sea port, but that the city is also a great manufacturing centre, in fact, the greatest in the world.

Statistics just given out by the Federal Census Bureau show that the aggregate value of the products manufactured in New York City during the year 1909 reached the staggering total of \$2,029,622,576. In the same year there were twenty-one industries in this city, having each an annual output of products valued at more than \$20,000,000. First in importance among the industries of the city is the manufacture of men's and women's clothing. The 5,521 establishments engaged in that manufacture in 1909, gave employment to about 161,400 wage earners and produced goods valued at \$484,888,000.

The printing and publishing industry was next in importance, with 2,883 establishments, employing 48,322 persons and turning out products valued at \$183,509,000. The list of other important industries in the city includes slaughtering and meat packing; foundry and machine shop products; tobacco manufacture;

bread and bakery products; malt liquors; millinery and lace goods; fur goods; gas, illuminating and heating; paint and varnish; musical instruments; men's furnishing goods; druggists' preparations; lumber and timber; copper, tin and sheet iron; artificial flowers and feathers, and confectionery.

The Chinese are undoubtedly making rapid strides toward civilization in a western sense. There was a time, not so very long ago, when the Chinese Tong men in New York City, in their bloody feuds considered that-

chets as the only approved weapon for manufacturing ancestors. After a while they became Americanized and the revolver became their favorite weapon of execution. The revolver-period lasted several years but it seems that the regime of the "bulldog" is approaching its end so far as Chinatown is concerned. The Chinese have taken another step forward and have advanced to the most up-to-date method of using time bombs in their warfare. The first of its kind ever used by the Chinese Tong men in this city was exploded the other day in one of their temples, but it went off prematurely and nobody was killed. The Chinese learn quickly and it is safe to predict that the next bomb will be better timed.

A Jewish woman came to one of the police stations of the lower East Side the other day in a great state of excitement and informed the lieutenant in charge that her boy was lost or had been abducted. Crying and gesticulating she begged that a general alarm be sent out for the boy. The lieutenant was sympathetic and asked the frantic mother for a description of the boy. He nearly collapsed when the woman informed him that the "boy" was five feet, ten inches tall and weighed 185 pounds.

William Hammerstein is proving himself indeed a "chip off the old block." He has shown himself quite as resourceful as his father and quite as skillful in inventing advertising dodgers. The patrons of the Victoria Theatre roof-garden seem to be a trifle careless with their money and after every performance the employees cleaning up pick up several dollars in change, carelessly dropped by patrons. With quite remarkable honesty the sweepers invariably turned over the money found by them to Mr. Hammerstein, who held the money in case it should be claimed. Of course nobody came to claim it and gradually the accumulation of

There was a man in Windsor Town,

Of that there is no question,

He dined not wisely but too well

Till he got indigestion,

And finding his digestion spoilt,

With all his might and main

He ate POST TOASTIES right along

Till he got well again.

One of the 25 Jingles for which the Canadian Postum Co., Windsor, Ont., paid \$500.00 in May.

MADE IN CANADA
TRAIN DID WELL

(Canadian Press.)
Montreal, July 6—After a trip of 6,650 miles the "Made in Canada Train," which was run over the C. P. R. system as far as Edmonton, under the auspices of the Canadian Manufacturers' Association has just completed a most successful tour. The train made 104 stops in 48 days, remaining at each place on the schedule from 2 to 36 hours. The ten cars contained 54 individual exhibits all made in Canada. Approximately 8,000 individuals were in view every day. Every one was a Canadian factory producer of some kind.

THIS DATE IN HISTORY

JULY 8

1709—The Russians under Peter the Great defeated the Swedish army under Charles XII at the battle of Poltava.

1773—Thomas Bullitt and party arrived at the falls of the Ohio, and marked off the site of the city of Louisville the next month.

1776—The Declaration of Independence was read from the steps of the State House in Philadelphia and to the American army.

1792—City of Washington selected as the capital of the United States.

1806—Gen. Gideon J. Pillow, noted Confederate commander born in Williamson county, Tenn. Died in Phillips county Arkansas, Oct. 8, 1878.

1896—Sir Charles Tupper resigned the premiership of Canada.

1911—Former President Castro launched an unsuccessful revolution in Venezuela.

NEW YORKER WEDS AT OXFORD

London, July 6—In the famous university of Oxford, Francis Hartman Markoe, son of Mrs. Francis H. Markoe of New York City, was married today to Miss Mariella York-Powell, daughter of the late Professor or Frederick York-Powell of Oxford University. The marriage ceremony was followed by a reception in the hall and quadrangle of All Souls' College.

Province of Quebec championship tennis tournament opens at Montreal.

coins reached a total of more than \$690. Then a great idea came to Mr. Hammerstein—how to get rid of the money which he was too scrupulous to keep, and, at the same time, advertise his roof-garden.

He made out checks varying in amount from 15 cents to \$5 and aggregating \$85 for every afternoon performance, thoroughly shamed them and had the man at the entrance present to every third patron entering the garden one of these checks until all were distributed. In this way he killed two birds with one stone and the increased attendance showed that this advertising dodge was quite successful.

There is a man in Boonton, N. J. who, unless further returns should change the result, may be considered the champion beer drinker of the United States. According to his own statement in court he spent \$725 for beer in 227 days. At 5 cents a glass that would make a total of 14,500 beers, an average of nearly sixty-four glasses a day. It is not surprising that the man did not support his wife and she had to go to court to compel him to contribute toward her maintenance.

The fraternity of the "Black Hand" seems to have terrorized the Italians in this city so effectively, that they do not dare to do anything that might possibly be construed into an act of hostility to the Black Hand. The other day three Italians who had been arrested on a charge of swindling were brought into court. The regular interpreter was not present, and a clerk, being of Italian parentage was pressed into service for the occasion. The young man interpreted the questions and answers faithfully for a while, but after a while he turned to the court and said that he refused to serve as interpreter any longer. He said that the men were members of the Black Hand and he was afraid something might happen to him should he continue to act as interpreter in the case. The case had to be postponed to await the return of the regular interpreter.

A swarm of bees which had settled in a tree at Broadway and Thirty-Third street, Bayonne, caused quite a disturbance and the police department was notified. On of the patrolmen was detailed to stop the trouble and hurried to the place where the bees were settled. In the mean time a man who understood something of apiculture, had procured a box, which he held under the swarm. Then he shook the branch to which the bees were attached and they fell into the box. Everything would have been well had not the apiculturist, who had a stone in the box before the lid was closed, purposely the bees crawled out of the box, attached and stung everyone in the immediate vicinity. The apiculturist then and the patrolman who had just arrived, all out of breath, and then peacefully returned to the box to be taken back to the hive from which they had come.
