## D.R.A. MATCHES ARE NOW ON

Marksmen Suffered Last Night from a Scarcity of Blankets

Udsteady Wind Made it Difficult to Put on Fancy Scores--Many Complaints

Ottawa, Aug. 22.—The big match of the Dominion Rifle Association commenced today when shooting commenced for the Governor General's prize. This match stretches over the entire meet.

There was a scarcity of blankets last night, and in the chill air scores of the rifle men slept without as much covering as might have been desirable.

The D.R.A. usually gets its blanket supply from the militia department but this year, so many were sent to Parcupine to relieve the fire sufferers and have not yet been returned, that there is a scarcity for the rifle men camping on the ranges.

The very unsteady wind was hard to negotiate, at the matches yesterday. With the exception of the Tyro match when the conditions were fairly good. On the day's shooting, the scores were low, and all blame the wind for it. Bad as it was, it was not so difficult however, to gauge, as were the breezes at the Toronto matches the week before.

The scores yesterday were decidedly lower than they were for the same day last year. Both McDougall and bankers matches count in the aggregate and accordingly many of the crack shots were anything but cheerful. Nevertheless, there is a long way to go yet, and there are more scores to count in the aggregate this year than last, giving a better opportunity to pick up from any break. There is a great deal of complaining about the ammunition which seems to be nickeling the barrels badly.

## LIBERALS OF YORK WILL PUT UP WHIRLWIND CAMPAIGN

The Liberals are planning a whirlwind campaign for York and there will be lively times in the county during the next few weeks. Men who have never hitherto taken an active part in politics are rallying to the support of Dr. Atherton, the Liberal candidate. W. McLellan, N. W. Brown, S. B. Hatheway and C. W. Goodspeed. Prominent speakers from outside points will also take a hand in the canvass. ## TO PROSECUTE PERJURERS

King's Procurators Made Announcement at Camorrist Trial

Objection Made to the Testimony of an Important Witness--Was Not Sincere

Viterbo, Italy, Aug. 22.—After much contradictory testimony had been given at the Camorra trial today, Calvaier Tulli, the King's procurator announced that all witnesses suspected of perjury and of bearing false witness would be prosecuted when the Cuocolo trial was concluded. Particular objection had been made to the testimony of Barbella, who swore that he had seen Giuseppe Salvi, one of the defendants leave the Cuocolo home after the assassination of Maria Cuocolo, whose murder followed that of her husband. The jury cross examined the witness closely and he became confused. His written deposition was carefully examined and when the jurors noted many discrepancies between that and his verbal testimony, they decided that he was not sincere and that the evidence given by him could not be depended upon.

Judge Parone testified that he was satisfied from private information that Lucia Anastasi one of the state's witnesses was a confident of the carabinieri. Capt. Abroni denied that this was true.

## LIBERAL PROSPECTS ARE BRIGHT EVERYWHERE

Dr. Pearson, a Former Conservative, Addressed a Grand Rally at Sussex in the Interests of the Liberal Candidate--Planning a Great Welcome for Sir Wilfrid Laurier in St. John--Will be Excursions from all Points on Monday--H. J. Logan Putting up Great Campaign

Sussex, N. B., Aug. 21.—There was an enthusiastic meeting of the Liberal workers of Sussex town and parish in the party's headquarters tonight and splendid addresses were made by Dr. G. N. Pearson, Hon. Frank Sweeney and others.

There was no doubt of the favor in which reciprocity was held by those present. The speech of Dr. Pearson was remarkable for its practical common sense flavor, and he was cheered again and again as he showed how false the arguments of J. D. O'Connell were, and how much he attempted to deceive the electors by his protestations that he was speaking as a Liberal against reciprocity.

One of O'Connell's favorite arguments was the low price of eggs in the American market as against the favorable prices in Canada. O'Connell had told the people that he had bought hundreds of thousands of eggs in the United States for six and eight cents per dozen, but what he did not tell them was that the eggs were intended for the manufacture of his shoe polish, which required rotten eggs for that purpose.

Dr. Pearson showed this up amid the cheers and laughter of the audience, and he said if O'Connell had been alive to his business interests he could have bought thousands of dozens of condemned cold storage eggs that had been condemned by the Montreal health authorities.

He reminded them that up to three and a half years ago he had been a life-long Conservative, and with others of his party staunch supporters of reciprocity. He was inclined in view of the present dishonest, insincere and inconsistent attitude of the present Conservative leaders to be ashamed of the fact that he had been ever once of that party.

He ridiculed the cry of disloyalty which sounded ill from the lips of those who had striven against a Canadian navy, built and manned by Canadians.

Amid cheers, he reminded the audience that Borden had allied himself with Monk and Bourassa, who had opposed the sending of troops to South Africa, and who were opposing Canada assisting in the defence of her own trade and her own coast. As a contrast he read the utterances of loyalty at Three Rivers made by Dr. Beland, the new minister, as reported by the Tory Montreal Star.

Hon. Frank Sweeney, in his striking speech of half an hour, held the audience for every minute clinching argument after argument in favor of reciprocity. He asked the people if they wanted to go forward losing representation every decade, as at present, or whether they would return to the good old days of reciprocity when trade was splendid and money plentiful.

Mr. Sweeney's speech was of too comprehensive a character to be condensed in a few paragraphs, but he aroused his hearers to a pitch of enthusiasm seldom equaled.

Sussex Liberals are out in force every night doing splendid work for the cause of reciprocity and for the victory of Dr. McAlister on election day.

## LOGAN CAMPAIGN.

Amherst, N. S., Aug. 21.—The campaign in Cumberland is getting hot. The Liberal party is thoroughly organized and in splendid fighting shape. Last week Mr. Logan made a tour of the Parrabore shore and wound up his trip at River Hebert on Saturday night, where, in conjunction with R. S. Carter, M.P. P., and Hon. H. R. Emmerson, he addressed a mass meeting in the drill shed. The meeting was of the most enthusiastic character, all the speak-

ers receiving magnificent receptions. Hon. Mr. Emerson referred to the fact that he had spent his boyhood days in River Hebert, and drew a vivid word picture of the prosperity that existed under the old reciprocity treaty, when hundreds of vessels ploughed the headwaters of Cumberland Basin, carrying the products of the farm, the forest, the mines and the quarries to the American market.

Mr. Logan dealt forcibly with the reciprocity issue. He showed that the people of River Hebert, and that particular section, had three things to export, hay, lumber and its by-products and coal. The reciprocity pact had settled the coal question inasmuch, as it had defined what slack coal was and which under the old regulations had frequently to pay the maximum rate of duty.

The reciprocity pact removed that duty on laths and boards and was a decided advantage to all lumber operators as the American market and the American market alone took such products of the mill.

He pointed to the fact that hundreds of tons of last year's hay was stored in the barns on account of the excessive duty charged by the United States.

He drove his argument home with telling force and received a splendid reception when he closed with an eloquent appeal for support.

Tonight he addressed the Liberal Club in Amherst. The meeting was held for the Liberal headquarters, but the rooms proved altogether too small and an adjournment was made to the parish hall. Mr. Logan spoke for nearly two hours and held the close attention of the audience throughout his address. It is a safe statement to make that every man in the hall left the building an earnest advocate of this great measure.

The hearts of the Cumberland Liberals were further cheered by the announcement that Sir Wilfrid Laurier would include Amherst in his itinerary, and would speak in Amherst on Saturday afternoon, Sept. 2nd, going to Moncton from this town. He will cross from Charlottetown to Pughwash, then to Amherst and then to Moncton.

## PREMIER SIFTON ON RECIPROCITY.

Edmonton, Aug. 19.—In direct conflict with the views of his distinguished brother, Hon. Clifford Sifton, Premier Arthur Sifton made a public statement yesterday, after several months silence, strongly favoring reciprocity. Prior to his trip abroad, he refused to make a declaration on reciprocity, but yesterday he came out strongly in its favor.

He said: "I am an advocate of reciprocity chiefly because I think it is going to be a good thing for Alberta. I would stand behind any policy which would be of real benefit to our province." The premier intimated that he would be prepared to take a hand in the campaign for Liberalism and reciprocity in Alberta when he has the executive work of his government well in hand. He will also come out for Mr. Oliver's re-election.

## NOTICE TO VOTERS

All electors favorable to reciprocity should see that their names are on the electoral lists and if they are not there they should communicate with the Reciprocity Committee rooms, York street, telephone 294, or write to

WALTER LIMERICK,  
Secretary.
