HOW TO AVOID PAINT WASTE

Two-thirds of the cost of painting is in the labor of coat. It cost more to put on a poor paint than a good one. Because poor paint won't work so well under the painter's brush--won't spread so easily or evenly. And you can't get as good a job. The poor paint won't cover as many square feet to the gallon as Shumway's Mixed Paint--the good paint--will cover. And won't last anything like as long. You buy it at the

SHORT and SNAPPY

The secret of the success of our Want Ads. is that they are short and snappy. People like a plain business story told in a few words and if they want anything they refer to the place where they will find it with the least trouble, viz., the Classified Want Ads. In your business represented there.

RAPIDITY'S IDENTITY SATISFACTORILY PROVED

Mr. John E. Sullivan has received a communication from the National Trotting Association stating the information furnished by him concerning the pedigree of his horse Rapidty was satisfactory and placed in the year book.
Rapidty's performances this season caused certain horsemen to make a protest that he was not straight. Mr. Sullivan, however, has been able to prove that everything is open and above board.
Rapidty was imported by Ald. H. C. Jewett some time ago, from Detroit where he first came into prominence as a maritime racer.

MR. BORDEN'S VIEWS IN 1904

Addressing the Canadian Manufacturers' Association in Montreal on July 21st, 1904, Mr. R. L. Borden said: "Was there any idea that a reciprocity treaty with the United States would in any way interfere with self-government in Canada? No."
That was only seven years ago. Why has Mr. Borden changed his mind? When the Conservatives wanted reciprocity it was all right. It was only after the Liberals arranged for it that Conservative demagogues began to denounce it as dangerous.

WILL CHEAPER IMPLEMENTS RUIN THE FARMER?

The reciprocity agreement will benefit the farmers of York in two ways. It will give him larger, more accessible and more stable markets. It will give him the benefit of substantial reductions in the duty which he has to pay on the machinery and implements of his calling.

The duty on wagons will be cut from 25 per cent. to 22½ per cent. On plows from 20 per cent. to 15 per cent. On tooth and disc harrows, from 20 per cent. to 15 per cent. On binders from 17½ per cent. to 15 per cent. On drills and planters, from 20 per cent. to 15 per cent. On mowers, from 17½ per cent. to 15 per cent. On horse rakes, from 20 per cent. to 15 per cent. On cultivators, from 20 per cent. to 15 per cent. On threshing machines, from 20 per cent. to 15 per cent. On windstackers, baggers, etc., from 20 per cent. to 15 per cent. On hay loaders, from 25 per cent. to 20 per cent. On potato diggers, from 25 per cent. to 20 per cent. On fodder or feed cutters, from 25 per cent. to 20 per cent. On grain crushers, from 25 per
