THE TRADE AGREEMENT MAY NOT PASS SENATE

Washington, D. C., Jan. 31.—The reciprocity agreement will probably be reported favorably from the ways and means committee to the house of representatives and pass that body. Many members who fervidly opposed it, thinking their constituents would object to Canadian competition of food products, now find their constituents rather favor it and are left in an embarrassing position.

The senate is the difficult problem. A tentative poll, already taken, shows the senate almost evenly divided. The low tariff and high tariff Republicans in the agricultural sections are opposed to the agreement.

An effort will be made to dodge the vote by retaining the bill in the finance committee of the senate. On the other hand, President Taft threatens to call an extra session, when the Democrats with an increased membership after March 4, would probably pass it with the aid of a few Republicans. The political effort of such a development makes some senators pause before actually going on record against their administration. The chances favor action by the house, but it is about an even bet that there will be no action in the senate.

The acuteness of the situation can only be appreciated when the bitter feeling of the conservative Republican protectionists against the almost free trade proposal is weighed against the political consequence of burying the agreement this session and leaving the Democrats to reap the benefit either at an extra session or the regular session in December.

TACT HOPEFUL

Washington, D. C., Jan. 31.—President Taft refuses to discuss "extra

session" in connection with the reciprocity agreement between the United States and Canada. He hopes that the present session will act favorably on the question.

In conversation today he emphasized his belief that reciprocity would be a good thing for both countries, declaring that it would establish currents of commerce which would benefit both the United States and Canada. The fears which were being expressed in some quarters, he said, were ghosts which would melt away as soon as the agreement went into effect.

Many letters have been received at the White House, congratulating the president on the decided stand he has taken on the matter. He has been told, also, that he would have the backing of many influential associations throughout the country. While a few missives have reached the president criticising the proposed reciprocity, these have been by far in the minority.

The president called attention to the fact that on the day his message went to Congress, when its influence on the market might have been supposed to be felt, there was a difference of only a cent in the price of wheat at Winnipeg and Minnesota. This was in spite of the argument that reciprocity would affect unfavorably prices of articles included in the agreement in either country.

He declared he had not talked to any one about the possibility of an extra session, in case the present congress fails to ratify the agreement. He said he had not and did not intend to hold out any threats but that he was placing confidence in the present session. "Sufficient unto the day is the 'good' thereof," is the motto he has adopted in the case.

MONCTON CIVIC CONTEST PRODUCED SURPRISES

Moncton, Jan. 31.—Much interest was taken today in the civic elections and there were some surprises. The majority contest looked upon as likely to be close, resulted in the return of Mayor E. A. Reilly by 114 majority, eight more than last year. Three of the old aldermen seeking reelection, W. G. Jones, alderman at large; E. A. Fryers, Ward 2; F. E. Whelpley, Ward 3, were defeated. There are three new men at the board. Ald. F. C. Robinson, who has sat at the board several terms, led the poll for aldermen at large. The vote in detail follows:

CALLS MINERS' DELEGATE A SPY

Sensational Charge in U. M. W. Convention at Columbus Against a Nova Scotian.

Columbus, Ohio, Jan. 30.—The sensational announcement was made just before the adjournment of the miners' convention today that there was a spy sitting in the convention as a delegate, and when his name was demanded the delegate making the charge named J. M. McSweeney, representing a local Nova Scotia whose home, however, is said to be in New York State. He was said to be in the convention in the interest of coal operators of Nova Scotia, and for the purpose of discouraging the delegates from that district from continuing their alliance with the United Mine Workers. For this purpose it was charged, he maintained quarters at a local hotel, where he entertained delegates in furthering his object.

McSweeney is the delegate who is charging crooked dealings on the part of the international officers. He said it was the intention of President Lewis to call off the strike in the Irwin, Pennsylvania field before he retires in April, and also to gain influence in his campaign for reelection. Lewis has been extravagant in paying benefits to the striking miners in the Nova Scotia fields, even paying benefits to fishermen and other craftsmen outside the organization. Continuing, he said that the money for these benefits might have been paid by coal operators in the United States who are interested in maintaining the strike in Canada.

Regarding the statements that he would call the Irwin strike off and that the international officers had been paying illegal benefits in Nova Scotia, President Lewis branded them as false.

CANADA CAPTURES GRAIN EXPORT TRADE

New York, Jan. 31.—Shippers and exporters, at the Interstate Commerce Commission rate hearing today, testified that not only was New York losing its export business in grain because of the higher rail rates but that every port in the United States was likewise affected.

Vice-President B. D. Caldwell of the Delaware, Lackawanna & Western Railroad Company, one of the witnesses who gave the railroad viewpoint, said he thought a lower rate would not bring more freight to eastern ports. Experience in trying to meet competition by reducing rates had failed before. A reduced rate on grain now, he asserted would involve a rate war with Canada. "If the lower rate should be ordered by the commission," he predicted, "the Canadian railways, which look upon this matter with much jealousy, will make a still lower rate in the effort to retain this export business."

Commissioner Froudy closed the hearing after counsel for railways represented had promised to furnish a statement showing the shipments of grain. Arguments will be heard Mar. 8 in Washington.
