FREDERICTON

WON GOOD GAME AT WOODSTOCK

Woodstock, Aug. 22—The locals went under to Fredericton this afternoon in the second of the series of games between them the score being four to three. It was a closely contested game and was in doubt until the last man was out. The pitchers Duval and Warwick broke about even in the hit, five being off the former and four off the latter, the former passed five men and the latter five. It was just an ordinary game of ball with no particularly striking features. Duval struck out five men and Warwick three.

Following is the box score and score by innings:

FREDERICTON		AB.R.H.P.O.A.E.						
Wildes, ss	3	1	1	3	4	0	
Tift, rf	3	0	1	0	0	0	
Duggan, lb	3	1	1	12	0	0	
White, cf	2	1	0	1	0	0

"ROD AND GUN IN CANADA," FOR AUGUST

No better number for a delightful holiday month has been issued than Rod and Gun in Canada for August published by W. J. Taylor, Limited, Woodstock, Ont. In the opening story "From the Log of a Nautical Tramp," the holiday spirit prevails and is prevalent through the two following papers—Luxurious Trout Fishing and Up the Maganetawan, a River of Dams. In addition there is an abundance of other material, articles and stories dealing with fishing, deer, moose and bear hunting while other phases of outdoor life receive recognition and treatment in a manner that must appeal to all sportsmen. This is particularly the case with the little paper on the subject of wounded game and a pioneer's stories while the conclusions of the Commission inquiries into the fisheries of Alberta and Saskatchewan must interest anglers all over the Dominion. The paper on a New Use for the Red Fox may not only create a new interest in fox hunting but also lead to an extension of the fox farms which have proved such a success in Prince Edward Island and in Middlesex County, in Ontario. Altogether it is a number which no sportsman should miss.

CALAIS WON

Calais, Aug. 22—Manager Murchie's heavy hitting nine walloped Manager Cronin's fast St. Stephen team at the St. Stephen diamond this afternoon by a score of 11 to 6.

Dr. de Van's Female Pills

A reliable French regulator never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at \$5 a box, or three for \$10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

for the benefit of those who have to be to work at 9 o'clock

SALE PRICES

49c, 69c and 89c None Higher

These Waists will be sold for Cash Only and None on Approval.

MR. GUTHRIE POINTS TO BUSINESS BENEFITS

Woodbridge, Aug. 20—Addressing a meeting in the Orange Hall here in the interests of the candidate Mr. H. H. Dewart in Centre York, Mr. Hugh Guthrie of Guelph, Liberal candidate in South Wellington presented to the electors of the town of Woodbridge and the township of Vaughan, who filled the hall a closely reasoned business argument showing the advantage to be derived from reciprocity. In particular he answered the statements made by Mr. C. A. Burns on the horse question by quoting from some of the most eminent authorities on horses in the Dominion, including Mr. Robert Beith, breeder of hackneys and on the sheep question he referred to the attitude of Mr. Arkell, breeder of Southdowns of which he shipped sixty fine head to Wisconsin last week. Mr. Guthrie pointed out why the consumer would pay less for his supplies, while the farmer would receive more for his produce and his cattle under reciprocity and he declared his belief that land would become much more valuable because of the bigger and better and nearer markets afforded. In a few words he disposed of the annexation and loyalty objections as ridiculous and insincere. If reciprocity were not made a political question, but regarded purely as a business proposition, he said everyone would be in favor of it, as almost all in the House of Commons were at first, and The News had more than one day editorially commended it.

Mr. Dewart who was cordially received established his claim to represent the riding by reason of his having received his political baptism in it several years ago, and having served the interests of Centre York as well as of the rest of the county. In his twelve years tenure of the office of County Crown Attorney. He said his position on the question at issue was the result of careful study of the agreement and the documents on which it is based. He argued the benefits of reciprocity to the farmer who needed no protection, and submitted that the opposition of manufacturers was from timidity or insincerity or from selfish interests. He quoted market prices from the Canadian Farm, showing that prices ruled higher in Buffalo than in Toronto but declined to take the suggestion of The News to compare the prices during the last six weeks, which, he said, the packers were manipulating at this time in order to defeat reciprocity. "But wait," he said, "till the fall when the farmer will be having his taxes and his implement bills coming due, and see the prices going down then." It was not annexation he declared that the packers feared, but that they would be compelled to pay the farmer a fair, reasonable price for his hogs and his cattle, and to sell the finished product at as low a price to the Canadian consumer as to the consumer in London.

Mr. Thos. Vance for twenty-five years a produce and commission merchant in Toronto took up the question of potatoes, barley, cheese and butter, fruits and eggs, and showed in each case how the trade would be improved by reciprocity, so that both producer and consumer would gain. The chair was occupied by Dr. P. D. McLean, ex-M.P.

THE FARM STANDS FIRST.

(Toronto Globe.)

The amount of misinformation that is being spread abroad throughout the country in connection with the reciprocity discussion is amazing. The blind are leading the blind on a thousand highways. Take the case of The Guelph Herald, which stated the other day that "the one article of farm produce of which there is more than the home market needs is wheat."

The Guelph Herald is a pretty decent paper. The man who wrote that statement probably believes it. He would not feel comfortable were he presenting to the readers of The Herald what he knew to be untrue. But it seems incredible that a man writing in Guelph, in the heart of a stock-raising and dairying region, with a famous Agricultural College library within reach, should know so little of the conditions of farming as to tell his readers that "the one article of farm produce of which there is more than the home market needs is wheat."

Were Canada's exports of farm products confined to wheat the grass would be growing in the streets of Guelph, and the editor of The Herald would be in full flight toward a land of greater opportunity. The very foundation-stone of Canada's prosperity is its export of farm produce. Great Britain has taken over a hundred and ten million dollars' worth of Canadian cheese in the past five years. Of animals and their produce, a classification which has nothing at all to do with wheat, the United States took almost forty million dollars' worth in the same period. Here are the chief items of imports and exports of farm produce in the year ending March 31, 1911, as taken from the Trade and Commerce report. The exports are in each case Canadian produce:

	Exports	Imports
Living animals,	\$12,107,971	\$3,118,217
Grain of all sorts,	56,750,571	17,698,534
Flour and other grain products,	17,897,361	570,619
Fruits, green and ripe,	4,722,157	5,738,789
Hay,	1,805,849	138,423
Provisions, butter, cheese, lard, eggs and meat,	30,806,680	4,406,363
Seeds,	4,602,797	1,181,173
Vegetables,	1,534,228	1,313,631

The Guelph Herald owes an apology to the readers it deceived with the statement that "the one article of farm produce of which there is more than the home market needs is wheat." There is practically not a thing animate or inanimate grown on Canadian soil except Indian corn and tobacco, of which Canada does not export more than she imports.

Canada's exports of farm produce are increasing so fast that the need for larger markets is imperative. It is of the greatest significance that the exports of agricultural produce, which does not include animals and their products, are increasing far more rapidly than any other class of Canadian exports. In 1882 they ran up as high as thirty-one millions, but by the time Mr. Foster had finished his work as Minister of Finance in 1896 they had sunk to fourteen millions. In the fiscal year ending March, 1910, they totalled over ninety millions. In the present year, that of 1911-12, they will total over a hundred millions. Is it any wonder that the Liberal campaign cry is "Laurier and Larger Markets"?
