

## WHAT RECIPROCITY MEANS TO THE CANADIAN PEOPLE

(Toronto Globe)

Reciprocity has now passed at Washington. Whether it becomes law or not rests with the Canadian Parliament and people. It is worth recalling the terms of the agreement and pointing out in a general way its meeting to the two countries affected. The bill is a tariff amendment, divided into three scheduled, embodying a large free list on natural products, and reduced duties on food products and certain manufactures.

For farmers there will be distinct advantage in free access to the United States market for the following, among other articles, upon which duty is now levied:—

|                  |             |
|------------------|-------------|
| Cattle           | Onions      |
| Horses and Mules | Apples      |
| Swine            | Pears       |
| Sheep and Lambs  | Peaches     |
| Poultry          | Grapes      |
| Wheat            | Butter      |
| Rye              | Cheese      |
| Oats             | Fresh Milk  |
| Barley           | Fresh Cream |
| Beans            | Eggs        |
| Potatoes         | Hay         |
| Corn             | Straw       |

Canadian fishermen will be rewarded by free access to the United States market for the following products of the rich waters of the Dominion:—

|          |          |
|----------|----------|
| Mackerel | Herrings |
| Halibut  | Salmon   |
| Cod      | Oysters  |

Lobsters

Canadian lumbermen will gain by the free admission to the United States of the following standard products:—

Timber, hewn, sided or squared  
Sawn boards, planks, deals  
Paving posts, railroad ties and poles  
Wooden staves  
Pickets and palings;

The mining man will find better sale for his goods by free access to United States markets for:—

Feldspar, Mica, Talc, Salt, Asbestos

Consumers on both sides will thank the negotiators of this agreement for reduced duties on many articles now bearing varying taxes, and among them:—

Meats, fresh or refrigerated; bacon and hams; beef and pork, salted; canned meats and poultry; lard, tomatoes and other vegetables, wheat flour and oatmeal; prepared cereal food; bran, middlings and other offals of grain; macaroni and vermicelli; biscuits, wafers and cakes; canned fruits; agricultural implements; cutlery; paving stones; clocks and watches; canoes; motor vehicles.

Canada is now the third best customer of the United States. Under reciprocity we will sell more to the United States than we do now, and which the United States does need; and we will buy more of what they have to sell and what we want to buy. We will continue to buy from Great Britain the fabrics and other articles with which she can best supply us. But instead of free access only to the British market for natural products we will have also the increasing demands of the United States.

Laurier and the larger markets is the policy for Canada.
