CONCRETE ON THE FARM

Not long ago a farmer hardly nnew what concrete was. Now he builds barns, silos, hen-housesi bridges and cellars of it. An article on "Concrete in New Uses," contributed by Feed Telford to The Technical World Magazine (Chicago, June), is taken up entirely with a description of the Valley Railway bridges across the St. John and Kennebecasis Rivers has been passed at Ottawa but it does not look as if any provision has been made for h. Where some years ago, says Tilford, the farmer used a pile and his water-trough, he usually now
