FASHIONABLE WEDDING AT CHATHAM HEAD

Chatham, Aug. 26—A very pretty and fashionable wedding took place at high noon today, in the historic St. Paul's Church, Chatham Head, when Miss Alice M., eldest daughter of Hon. and Mrs. J. P. Burchill of Hon., became the bride of Mr. J. Archibald Haviland, son of the late John Haviland and a former resident of Chatham, but now a rising young citizen of Vancouver.

The church had been beautifully decorated and artistically decorated for the occasion, yellow and green furnishing the color scheme; an arch of golden glow and green spanned the aisle and formed a canopy for the bridal party. Banks of the same decked the windows and the chancel, while clusters at the end of each pew were caught up with white satin ribbons. The ceremony was performed by Ven. Archdeacon Forsythe, assisted by Rev. W. J. Wilkinson, uncle of the bride.

Preceded by the ushers and bridesmaids, the bride entered the church leaning on the arm of her father and satin trimmed with rose point lace and was very charmingly gowned in white embroidered with seed pearls, and wore a handsome veil, an heirloom of the family, arranged in a coronet and caught up with a spray of orange blossoms. She carried a white prayer book.

The maid of honor, her sister, Miss Edith, looked very pretty in pink pussy willow taffeta with bodice and tunic of shadow lace, wearing a black tulle hat and carrying a large bouquet of yellow marguerites.

The bridesmaid, Miss Mary Burchill, cousin of the bride, wore a very becoming dress of blue pussy willow taffeta with black hat and bouquet of yellow marguerites.

The wedding party drove to the bride's home, Irvside, where a dainty luncheon was served to the immediate relatives and friends.

Mr. and Mrs. Haviland left on the Ocean Limited for the north, the bride's travelling dress being of navy blue moire with hat to match.

Among the out-of-town guests were: Mrs. P. H. Cuthbert, of Guelph, Ont.; Mrs. W. S. Wilkinson, of Gagetown, N. B.; Mrs. Douglas C. Haviland of Woodstock, N. B.; Misses Grimmer of St. Andrews, and Miss Lynch of Fredericton.

DR. DEVAN'S FEMALE PILLS Reliable medicine for all Female Complaints. 25¢ a box, or three for \$1.00, at drug stores. Mailed to any address on receipt of price. THE SCOBELL DRUG CO., St. Catharines, Ontario.

"Too Many Crooks" has passed its 200th performance in New York. Frank Craven, returned from Europe, again heads the cast in his own play.

THE DUKE'S MESSAGE TO LOYAL CANADIANS

(Special to The Mail.)

Ottawa, Aug. 26.—In response to urgent appeals from many parts of the dominion, I inaugurated the Canadian Patriotic Fund, the object of which is to provide for the needs of the wives, families and dependent relatives of those who go to the front to fight the battles of Great Britain and her allies. Unless generous minded citizens come to their aid there will be, during the coming winter, much hardship in many families, owing to the absence of the bread-winners. I have the greatest confidence in those that are in a position to give aid, but the opportunity of doing so and that the response will be widespread and generous. During the past few days the Canadian Patriotic Fund has been duly organized, a strong executive representing the whole dominion has been appointed, and a central bureau established at Ottawa. I sincerely hope that in every city and town throughout the dominion branches of this organization may be formed, full particulars of which can be had by addressing the honorary secretary, Mr. H. B. Ames, M.P., Ottawa.

By co-operation and harmonizing benevolent efforts in this way the danger of over-lapping on the one hand, or neglecting deserving communities on the other hand, may be met and overcome. I am convinced that all Canadian hearts will go out to their brave fellow-citizens who have gone to the front. A prompt and hearty response to this appeal will put all anxiety at rest about those near and dear to them and will also afford to those who cannot go, an opportunity of doing their duty to Canada and the empire. (Signed) ARTHUR, President Canadian Patriotic Fund, Government House, August 26, 1914.

Kidneys Wrong?

If they are you are in danger. When through weakness or disease the kidneys fail to filter the impurities from the blood, trouble comes at once. Backache, Rheumatism, Sciatica, Gravel, Diabetes, Gall Stones and the deadly Bright's Disease are some of the results of neglected kidneys. Dr. Morse's Indian Root Pills contain a most effective diuretic which strengthens and stimulates the kidneys so that they do their work thoroughly and well. Try

WOULD BE A HEAD TO CRACK.

The Irish people managed to get some old-fashioned fun out of the situation in Ulster. At the moment when both bands of volunteers were swarming through an Ulster town a volunteer of some kind, in full panoply of war, was met in the street by a friend.

"So you are going to fight," said the friend.

"Yes."

"Who are you going to fight, the Nationalists?"

"No, we are not going to fight the Nationalists."

"Are you going to fight the police?"

"No, I do not think we are going to fight the police."

"Are you going to fight the English soldiers?"

"No, I don't think we shall fight the English soldiers."

"Then who are you going to fight?"

"The Lord will provide."—London Chronicle.

Joseph Brooks will present Edith Taltalferro, Molly Pearson and Margaret Green in a farcical comedy titled "Tipping the Winner."

CAN FLY WITHOUT BRAINS

Birds' Balance Purely Mechanical, Scientist Demonstrates

One of the most striking features of the meeting at Dresden of the German Scientific Society for Aeronautics and Aviation was a lecture by Prof. Conheim on balance in the air.

Prof. Conheim drew a bold parallel between birds and aeroplanes. He gave a demonstration with living doves and seagulls from which the cerebrum magnum had been extracted and showed that balance with these birds was purely mechanical. Having been deprived of their brain, the birds could exert no will power and maintained their balance simply by reflex movements of the head, tail and wings. Prof. Conheim argued from this analogy that it might be possible in time to invent automatic machinery which would keep an aeroplane stable without requiring any attention from the airman.

Helping Wizard Edison

HELEN KELLER

That Thomas A. Edison is working on an invention that will permit the blind to read ordinary newspapers by the sense of touch is the announcement that comes from the home of the wizard of electricity. Helen Keller, the wonderful blind and deaf girl is assisting in experiments.

Leaders in Scientific Theory

According to a writer in Engineering Magazine mention can be made of but a few names among the many which hold an honorable place in the history of scientific system-making. A man of the very highest genius was Laplace, who enunciated the nebular hypothesis. In geology, Hutton first arranged scattered facts into a coherent account of the geological process by which rocks are worn down and built up. Turning to the biological sciences, we find fine systematizers whose work is closely linked together. The first of these was Linnaeus, who classified living forms on the basis of the conception of a simple scale of ascending complexity. Lamarck rearranged the classification by giving chief weight to differences of organic structure. Cuvier showed that organisms must be conceived as diverging from certain primitive types, as the branches of a tree spread out from the trunk. Darwin overthrew an hypothesis of Lamarck that acquired characteristics are inherited, and showed that evolution proceeds by means of spontaneous variation, and a life struggle in which the unfit are eliminated. And, finally, Herbert Spencer applied the theory of evolution to the institutions of society.

Deserted Town of Blackmailers

Only seven people now live at Dyea which in the days of the Klondike had a population of 20,000. Of the seven, it is said only two are whites. The townsite has been filed on as farming land by three homesteaders, one of whom is an Indian woman and another a young man who is founding a fox ranch. Dyea, whose post office was established in 1896, became the next year the most crowded, lawless settlement in the world. The residents took toll from the men going in to seek gold and those coming out with pouches of the precious stuff. After completion of the White Pass and Yukon Railway, with Skagway as its sea terminus, Dyea collapsed and was abandoned.

An electric flash light contained in a watch case has been patented in Germany.

The War

THE shutting off of imports from continental Europe into Canada, due to the war gives many home industries an unexampled opportunity for immense and immediate development.

Canada will prosper at the expense of Continental Europe. This is not a time in Canada for repining on the part of the business man. We must be careful, even frugal, but we must also be bold.

Victory is to him who has courage
