THE WHEELER BROS. SHOWS SOME EXCITING RACES

During the history of the Wheeler Brothers Shows they have been noted for putting on the most intensely realistic racing in its Hippodrome. Contests that were ever witnessed under canvas, put on in a manner that distinguishes them from the farces of racing seen with other shows. Among the races put on are: Flat Races, running races, Man against horse, Hurdle Races, Elephant, Camel and Pony Races. Also the ever exciting Chariot Races.

During the racing an exhibition of daring ride will be given by a troupe of genuine Cossack Riders, who without doubt accomplish more difficult and death-defying feats than any riders that have ever visited this country.

By means of cash prizes to the lady or gentlemen winning the most of the races during the week, the show has caused a real rivalry to exist between the contestants, and though the racing is good natured, yet it is always for blood and testing the nerve and ingenuity of the riders and the speed of the horses to the entire satisfaction of the spectators. "Oh, let's go before the racing begins," is a remark frequently heard at circuses, but the knowing ones never make such a suggestion when attending the exhibition of the Wheeler Brothers Shows, which will be in this city for one day on Saturday June 27th.

Their Mistake

Two men touring Italy for the first time stopped one night at Pisa, where they fell in with a convivial party at a café. Going hilariously home, one pushed the other against a building and held him there.

"Great Heavens!" cried the man next the wall, suddenly glancing up at the structure above him. "Se what we're doing!"

Both roysters fled. They left the town by an early train, not thinking it safe to stay in case they were discovered. They did not know that the building they imagined they were pushing over was the famous Leaning Tower!

A Case For Him

Passing through the village the vicar met the doctor.

"I'm just going to read to old Giles," he remarked.

"I've just come from him," answered the medico.

The doctor shook his head gravely.

"I'm afraid he is in more need of your help than mine."

"Dear, dear!" exclaimed the worthy vicar, in shocked tones. "Is he as bad as that?"

"Yes," replied the doctor, with a twinkle in his eyes. "He suffers from insomnia."

"Kid" Williams, the new bantam-weight champion, is going across pond to take a fling at the talent in England and France.

DURING SCHOOL LIFE

The Most Important Period, Says Dr. Mott

Dr. J. R. Mott said that after twenty-five years spent travelling over the entire world, he could state with assurance that five-sixths of the world's criminals were such because of misdirection during their school lives. On the other hand, 557 in every 1,000 people joining the Church did so during school age or at least before the age of twenty.

"That is the decisive period in the man's life," declared the speaker. "Its high school students are the greatest single asset of any nation, because they have the largest power to let That is the period of vision-forming when ideals laid take permanent hold. To cultivate the preparatory school students is the highest strategy," the speaker continued. "I believe that nine-tenths of the world's ministers received their vision of service during school life. The time to get men for leaders is when they are schoolboys. When we consider that the majority of schoolboys never go to college, we begin to realize what we must do for them now."

S. P. DODGE, WRESTLER

The "beautiful young lady" in the picture is not a young lady at all, but the champion lightweight wrestler of Yale University. He is S. P. Dodge, as he appears in the role of Agnes in the one-act play, "Fritschen," which the Yale dramatic association presented on its annual holiday tour. It is a traditional custom of this organization for the feminine parts to be taken by men.

WHAT QUEEN MARY DISLIKES

The ultra-smart set has no friend in Queen Mary. With the freak fashions and the eccentric pleasures of a certain section of society Her Majesty has no sympathy. It has been known for some time that Her Majesty considered that the latest dances are quite unsuitable for the ballroom, and neither at Buckingham Palace nor at houses which Her Majesty visits will they figure on the programmes. Not that the queen objects to dancing. Indeed, she is very fond of the waltz, schottische, polka, and other graceful dances. It is quite an open secret, too, that their Majesties have expressed their disapproval of the manner in which society nowadays makes Sunday a day of pleasure. The day, by many, is given over to motor-ing, golf, tennis, and drinking. They have also been heard to express the opinion that the habit of going away for the week-end is rapidly destroying the domesticity of the English home. It might also be mentioned that Her Majesty is very particular regarding the manner in which her maids of honor dress, and has said that certain loose fashions in hairdressing do not, in her opinion, add to the attractiveness or dignity of her court ladies.

Telephones in China

The Chinese government, which owns the country's telegraph system, has extended it until more than 33,000 miles of land lines and about 1,000 miles of cables are now in use.

Boys' New Sled

A new sled for boys has a third runner, longer than the others, in front to facilitate steering.

Vacuum Cleaner

A new English portable vacuum cleaner can be used as a seat, table, cabinet, music stool or pedestal.

Pure Turpentine

Pure turpentine will evaporate from white paper, leaving no trace; if adulterated, it will leave a spot.
