THE HACK ORGANS SCORED

The Chatham World, is edited by Commodore Stewart, a Conservative member of the Legislature hands the following to the hack organs of the party:

"Every honest Conservative must hang his head with shame as he reads in the organs of the party, attempts to minimize the shameful acts that have been brought home to the leader of the Provincial Government and excuse them by referring to the bad conduct of former Governments. The sale of lands at \$100 a square mile for the treasury and \$15 for a campaign fund WAS THE MOST CYNICALLY CORRUPT ACT EVER PROVED AGAINST A MINISTER OF THE CROWN, AND IT CANNOT BE MITIGATED BY SAYING THAT THE \$15 WRS GOT BY 'COAXING' AND NOT BY THREATENING OR BARGAINING. THERE IS NOTHING LEFT FOR MR. FLEMING TO DO BUT TO GET OUT, AND MAKE RESTITUTION TO THE TREASURY OF WHAT HAS BEEN STOLEN FROM IT. HE OUGHT TO BE THANKFUL INDEED TO ESCAPE PROSECUTION HIS COLLEAGUES ARE CRAZY, UNLESS THEY ARE EQUALLY GUILTY, TO STAY IN OFFICE AND SHARE RESPONSIBILITY FOR THE PREMIER'S ACTS. It is only a quibble, a play upon words, for Mr. Fleming to protest that he never extorted a dollar from any man. He or his man had got the money, other people's money, and it doesn't matter whether it is called extortion, blackmail or a gift."

And why should the Conservative party shoulder the disgrace by participating the offence? Mr. Fleming as he has himself declared, leads a coalition Government, not a Conservative Government, and so the disgrace is shared by both political parties."

Sir Robert L. Borden, premier of Canada, was born in Grand Pre, Nova Scotia, June 26, 1854, sixty years ago today, and received his education in the Acadia Villa Academy. In 1874 he began the study of law and was called to the bar four years later. He speedily became prominent in his chosen profession and attained an extensive practice in the supreme court of Nova Scotia and the supreme court of Canada. Sir Robert was first elected to the House of Commons in 1896, as member for the city and county of Halifax. In 1901, upon the resignation of Sir Charles Tupper, he was elected leader of the Conservative party. In 1911, as a result of the defeat of the Liberal party in the general elections, he was called upon to succeed Sir Wilfrid Laurier in the premiership.

The employees of the Marysville Cotton Mill, the largest industry in this section of the province, are not getting rich under Borden rule. For weeks past they have been running on two thirds time and now the mill has been shut down for a fortnight. In the meantime most of those who were so generous with their advice to the cotton mill employees at the last election are enjoying fat government jobs.

Chatham World:—"A friend, Woodstock, N.B., \$10,000," appears in the list of contributors to the fund for paying the expenses of Presbyterian clergymen and their wives to the General Assembly at Winnipeg. Was this conscience money, and was it paid out of a 'campaign fund'? It is said that there isn't a Presbyterian in Woodstock with \$10,000 of his own.

The money extorted from the lumbermen by the agents of the Fleming Government, had it gone into the provincial treasury, would have defrayed the cost of repairing a lot of roads and bridges.

Mr. F. B. Carvell, M.P., seems to be hot on the scent of the big Tory hooodle fund which was used in the local elections of 1912.

Wood's Phosphodine
The Great English Remedy.
Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and brain worry, despondency, loss of energy, palpitation of the heart, failing memory. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Whistler)

NEW INDUSTRY

AT ST. MARY'S
HAS BRIGHT FUTURE

Some Interesting Facts About Concrete
As a Building Material---Concrete
Plant Kept Busy

It is not so long ago when the use of concrete for building purposes was looked upon as a fad and uncertain as a practical investment. It is the habit of the average business man to regard any new departure in that light without weighing the economic side of the matter and forming his judgment accordingly. Frequently, subsequent to some such new invention, large industries are revolutionized or new ones established by some far-sighted business man whose judgment is keen and who is not afraid to rely on his own conclusions.

This seems to have been the case in the concrete industry, which is represented in New Brunswick by Concrete Builders' Limited, an aggressive business concern lately established at St. Mary's. This concern was organized and promoted in order to meet the growing demand for concrete building stone; a demand which, due to many reasons, has grown within the last few years to immense proportions. It is not a matter of speculation how this has come about. The advantages of this new building material have become so well known that they hardly need a reference here. However, for the information of those who are not conversant with its nature, it might be of interest to know the specific reasons why this concrete has so largely taken the place of the great variety of building materials which have hitherto held a major place among American builders.

1.—Concrete artificial building stone is produced at a less cost than any natural quarried stone.

2.—From the instant the concrete is placed on the drying rack it begins to harden and this action continues for all time. The ancient pillars of Egypt built of this material have been one of the world's wonders for their thousands of years of perfect preservation.

3.—In contrast to this it is a well known fact that all natural stone begins to decay the moment it is removed from its natural bed.

4.—Concrete stone is moulded to size, not trimmed or cut. It can be put into place at a minimum cost.

5.—The use of air spaces in the building stone makes them more sanitary than other material and almost impervious to frost.

6.—Whereas five years ago the use of concrete was almost unheard of except for industrial purposes, our large cities now have whole blocks of their best residential centres built up in concrete for the reason that it admits of a greater variety of color and design than any other stone at a cost which is merely nominal when compared with the cost of the same work done in quarried stone.

In view of these interesting facts, it is not surprising that the new industry has been very favorably received by the building trade of this vicinity. Since opening their plant, scarcely more than six weeks ago the demand for stone has far exceeded the present capacity. It is in view of this and also of the fact that the demand is certain to grow rather than fall off, that it has been decided by the management to enlarge the plant to more than double its present proportions.

The personnel of the directors of the firm of Concrete Builders' Limited, is as follows:

President, T. C. Burpee.
Vice-president, A. J. Gregory, K.C.
Secretary-treasurer, J. McCaffrey.
Manager, H. J. McGrath.
Additional director, Hon. J. P. Burchill.

NEGRO BUSINESS

MEN TO MEET

Huskogee, Okla., June 26—Preparations are being made for the fifteenth annual meeting of the National Business League, which is to be held here in August. The Oklahoma State Negro Business League is making elaborate arrangements for the reception and entertainment of the visitors, who will be here from every section of the country. One of the features of the program will be a mammoth industrial parade to illustrate the progress and industrial achievements of the negroes of this section. Another feature will be an outdoor entertainment by full-blooded Seminole Indians in native costumes. At the conclusion of the sessions in Muskogee the delegates will pay a visit to Boley, Oklahoma, which is famed as the largest and most prosperous negro city in the United States.

WILL RECEIVE.

Mrs. George W. Brown will receive at her home 838 George Street next Tuesday and Wednesday.

Kidneys Wrong?

If they are you are in danger. When through weakness or disease the kidneys fail to filter the impurities from the blood, trouble comes at once. Backache, Rheumatism, Sciatica, Gravel, Diabetes, Gallstones and the deadly Bright's Disease are some of the results of neglected kidneys. Dr. Morse's Indian Root Pills contain a most effective diuretic which strengthens and stimulates the kidneys so that they do their work thoroughly and well. Try

WANTS BETTER TREATMENT

(Continued From Page 1.)

happen to anyone of the prisoners, all that would be at hand would be his much respected wife and when she has the household work to look after during his absence from town it would appear to me that it is too much to be expected of her to have the full care of the gaol and everything, all alone. I have spoken to Mr. Timmins in regard to the slim fare which is served to the prisoners, and he says that he cannot give them any extra fare outside the regular rations, on account of his salary being so small, and of course, the man is right in regard to what he says.

Now, whoever may read this letter in your paper I will ask them not to think me presumptuous in writing said letter, but to urge the powers that be, to make a move and have it said for once that Fredericton and York county will serve proper food to those who may be so unfortunate as to be in their custody for crimes or civil misdemeanors. I would also urge others in our community to write letters in your paper along this line for good ideas are wanted when a matter like this comes before the public.

Yours respectfully,
T. W. RAINSFORD.
Fredericton, N.B., June 24th.

SIR ROBERT L. BORDEN IS 60 YEARS OF AGE

Ottawa, Ont., June 26—Sir Robert L. Borden, the dominion premier, today celebrated his sixtieth birthday anniversary. During the day congratulatory messages were received from members of the ministry and friends throughout Canada. Sir Robert is in excellent health, although it is now nearly twenty years since he first entered the political arena as a member of the House of Commons.

DOMINION EXHIBITION GRANT.

Premier Borden writes Mayor Bligh of Halifax:—"I have placed before the Minister of Agriculture the representations made in your communications of May 5th and 29th respecting the holding of a dominion exhibition in Halifax next year. Mr. Burrill informs me that the grant of \$50,000 will go to Nova Scotia this year. Therefore it may be taken that the same will be available for the exhibition in Halifax." A movement has been on foot throughout Canada to change the system of making this grant—that is to divide the \$50,000 among the principal exhibitions of the country yearly.

A MERRY GO ROUND.

According to the evidence of a witness in the St. John Valley Railway Investigation, there are so many curves in the line between Fredericton and Woodstock that it will be like riding a merry-go-round.

BLAZE ON KING STREET.

A spark from the chimney falling on the dry shingled roof of Mr. Howard Grant's, near Cooper's blacksmith shop on King street, resulted in a blaze this afternoon. The call was rung in at once and the fire was speedily put out by the chemical.

A VETERAN INDIAN

Anthony Sacobie, chief of the St. Marys Indians, claims that he will be 100 years old on July 19th. Sacobie is the oldest living full blooded Micette in the province and was born at St. Marys. He can remember when Queen Street was composed of just a few old wooden houses and says that the City Hall at his earliest remembrance resembled a blacksmith shop. His birthday will be celebrated. His first wife was a white woman named Gill and of the union there were twelve children two sons are now living, Mike and Frank. The ex-chieftain is still enjoying good health although stooped and is still able to make baskets, etc.
