

## SPLITTING PAINS IN THE MUSCLES DRIVEN OUT QUICKLY BY "NERVILINE"

Rheumatic Pains Go --Suffering  
Ceases---Cure Comes in  
Even Chronic Cases

For aching bones and sore muscles nothing will soothe away the pain like Nerviline.

For nerve-racking twinges in the muscles, for torturing backaches or lumbago, you'll find Nerviline is full of amazing power.

You see, Nerviline has the power—it's about five times stronger than ordinary remedies, and can penetrate very deeply. It contains juices and extracts of certain herbs that give it a strange power to drive out congestion, inflammation or pain.

You are safe in using Nerviline. Just rub it on—it won't blister or burn, and can do nothing but good.

Whenever there is pain or suffering, Nerviline will go and will drive it out. It penetrates to every cell of a sore muscle; it sinks to the heart of every stiff sore joint; it searches out the pain of rheumatism quickly.

Give Nerviline a trial. See how fast it will limber your lame back, how quickly it will cure neuralgic headache, how fast it will break up a cold or ease a sore throat.

The best family pain-remedy ever made in Nerviline. Forty years of great success proves this.

For emergency ills when the doctor isn't handy, there is nothing better than the 50c family size bottle, trial size 25c at all dealers, or the Catarrhzone Co. Kingston, Ont.

## SCHOOL ATTENDANCE IN THE DOMINION

Interesting Figures Showing How  
Young Canada is Being Educated  
From Kindergarten to University

The school attendance of the population of the Dominion, between the ages of five and twenty-four years, is given in a Bulletin issued by Census and Statistics Office. The statistics are based on information collected by the enumerators for the year prior to the taking of the last census, and show that the total number of persons between the ages of six and twenty at that date, was 2,141,909, of whom 1,801,779, or 84.12 per cent., were Canadian-born; 6.65 were British and 9.23 per cent. foreign born. Of this number, only 44.82 per cent. were at school for more than six months in the year, and only 52.51 per cent. attended school for any length of time.

These figures do not seem very creditable or very promising at first sight, but further examination partially accounts for the low percentage at school. The smallest numbers are of children at the age of five, which many people think is too young for beginning school unless a kindergarten is available, and of boys and girls over fifteen, when the public school course is in most cases completed. The largest attendance is between the ages of seven and fourteen, at which period 921,454 children, or 79.83 per cent., attended school, but of these only 69.58 per cent. attended for more than six months in the year.

The proportions of boys and girls attending school in Canada are fairly equal at most age periods, the girls being in the majority between the ages of fifteen and twenty, thus indicating that more girls than boys go on to High Schools. Between the ages of twenty-one and twenty-four, the figures are 4,073 males and 1,749 females. Probably this is due to the fact that more young men enter college for the professions; also in some cases young men who have had their own way to make in the world manage to go to school for a part of the year to obtain a belated education. One notices that the proportions of boys and girls attending school are more nearly equal in the Canadian-born population than in the foreign-born. In the latter, the boys are in excess except at the five-year age period.

Viewing the figures in the negative, the statistics show that of the total number of children between seven and fourteen, the Province of Ontario had 157 children of every 1,000 who were not attending school; Quebec had 190 per 1,000, New Brunswick 200, Nova Scotia 171, and Prince Edward Island 154, whose education had apparently been neglected in the year the census was taken. The numbers not reported as attending school were proportionately larger in the Western Provinces, but this does not by any means indicate that opportunities for education are not valued in those provinces. On the contrary, new schools are opened up every week in the year. But the circumstances of settlement in a new country, particularly when settlers have to take up homesteads in remote districts, make it impossible sometimes to send the children to school, at least for some years until more settlers come in.

As might be expected, the attendance was proportionately larger in the cities and towns than in the country districts. The children of immigrants from foreign countries show the smallest percentage attending school, only 48.19 per cent. for over six months in the year.

## IS YOUR BACK FULL OF ACHES ALL DAY LONG?

That Stab-Like Pain in the Back  
Is Sure Indication of Kidney  
Trouble

Mrs. Anna Rodriguez, writes as follows from her home in Valencia:—"For a long time I suffered with failing strength and nagging headaches. My condition grew steadily worse, my limbs became bloated and shaky, I was slow and thin, felt rheumatic pains, dizziness and chills. I unfortunately didn't suspect my kidneys and was nearly dead when I discovered the true cause of my sufferings. I read so much about the wonderful health and strength that comes to all who use Dr. Hamilton's Pills that I felt sure they would help me. Such blessings of health and comfort I got from Dr. Hamilton's Pills. I can't describe. They speedily put me right and their steady use keeps me active, energetic, strong and happy. I strongly urge others to regulate and tone their system with Dr. Hamilton's Pills of Mandrake and Euterpe." No greater medicine exists than Dr. Hamilton's Pills for the cure of indigestion, constipation, flatulence, liver, bladder and kidney trouble. Refuse substitutes, 25c per box or five boxes for \$1.00, at all druggists and storekeepers, or postpaid by the Catarrhzone Co., Buffalo, N. Y., and Kingston, Ont.

## MEETING OF KENTUCKY BANKERS

Dawson, Springs, Ky. May 29.—Groups 1 and 2 of the Kentucky Bankers' Association began a joint convention here today with many members in attendance. H. B. Gilbert of Murray presided at the morning session. The feature of the session was an address by W. P. Bradshaw of Paducah on "The Bankers' Relation to Agriculture." F. M. Catlett of Louisville, president of the Kentucky Bankers' Association, spoke at the meeting this afternoon. The sessions will conclude tomorrow.

## Cook's Cotton Root Compound
