G. W. HARRISON, MANAGER

FREDERICTON BRANCH

## MORE HOT STUFF FROM PEN OF JOHN T. KAY

Norton Dale, June 1 1914  
To the Editor of The Mail  
Fredericton N. B.

Dear Sir:—  
I received a little advice from one of the Gleaner crowd the other day. He told me I had better mind my own business. I told him that was just what I was doing, and that I intended to keep on doing it. He also told me that the Gleaner had driven every man it ever got after out of business and that they would drive Mr. Mitchell and Mr. Pinder out too, that Mr. Mitchell was nothing but a liberal and that Pinder was a meddling old fool.

I told him he was mistaken and that Mr. Pinder and Mr. Mitchell were decent and honorable citizens. I told him that Mat Tennant was, too, and that if Matt was appointed police magistrate, Mr. Mitchell and the police commission would clean Fredericton up, so that it would be a fit place for a decent person to live in. He said that Fredericton was all right as it was.

I told him that the coroner, this spring did not think so, when he recommended that houses of ill-fame be closed.

He replied that if the houses of ill-fame were closed, a decent woman wouldn't be safe to walk the streets of Fredericton.

Now, Mr. Editor, when a mind is corrupt as that when its owner opposes the appointment of Mat Tennant to the position of police magistrate it is time that all honorable citizens should wake up and see to it that Mat Tennant is appointed police magistrate and that Mr. Mitchell gets support from all decent men, regardless of creed or party, politics. It is not a squabble now between the Conservatives and the Liberals but it is a struggle between the decent citizens and the Gleaner aided by the Tammany gang.

There is a gang in Fredericton that has long controlled the city affairs for their own selfish evil ends, and I know just who they are and how merciless and unscrupulous they are to any decent citizen who crosses their track.

I intend to deal fully with all these questions of corruption greed and selfishness in future letters and will tell the public who they are and

how they do their dirty work. The reason why I have kept silent so long, is, that strange though it may seem some of the chief actors in the dark dirty work of Fredericton's villainous gang, have respectable relatives, who naturally would feel ashamed of their kinsmen. As they have showed no regard for the feelings of our most respected and honorable citizens, I intend to show them up, in their true colors.

Yours respectfully  
JOHN T. KAY,  
Norton Dale,  
York Co. N. B.

### DRILL AT THEIR OWN EXPENSE

London, June 2—Dealing, in the Sunday Freeman of Dublin, with the Nationalist volunteer movement, T. P. O'Connor says: "These men have drilled at their own expense. That is the essential difference between them and those taking part in the Orange movement. The latter is largely the creation of boundless money sent to Ireland by the rich Tories of England; but the Irish movement has been financed by itself."

"The fever is now spreading into the ranks of the higher officers of the British army, who are retired from active work, but are ready to stand by their own people if the lawless Tory officers embarrass the law. The names are mentioned of men of European reputation who have signed that they are willing to take their share in organizing the Irish volunteers and give the benefit of their military experience. The movement owes much to Col. Moor, a brother of George Moore, the celebrated Irish novelist."

### CIGARETTE FOES IN SESSION, AT MOHONK LAKE, N. Y.

Mohonk, Lake N. Y., June 2—The annual meeting of the Anti-Cigarette League of America began here today and will continue in session until Friday. Representatives of organization in many States are in attendance. In addition to receiving reports and discussing plans for future work the league will listen to addresses by physicians and business men and others as to the ill effects of tobacco on the national efficiency. The conservation of human resources by the abolition of the cigarette habit is the keynote of the convention.

"He took his pen in hand"

#### A New Disease

A farmer, wearing a long coat, entered a chemist's shop and remarked, "I seem to have something queer in my stomach, and I would like you to prescribe something for it." "What are your symptoms?" the chemist asked.

"Every little while something seems to rise up and then settle back again and by and by it rises up again."

The chemist put his chin in the palm of his hand and meditated. "Look here," he said gravely; "you haven't gone and swallowed a lift, have you?"

#### Explained

Owner: "How did you come to puncture the tire?"

Chauffeur: "Ran over a bottle."

Owner: "Didn't you see it in time?"

Chauffeur: "No! The kid had it under his coat."

#### Ten Cents Wasted

Jock: "You've won the first prize in the raffle and yet you're miserable."

Sandy: "Yes; it were just ma luck buying two tickets when one wad h done. It were jist a saxpence wasted."

#### Familiarity Breeds Contempt

"Have you been long in the service of the family?"

"Yes, indeed; I am now serving the third generation."

THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

### Terribly Afflicted With Lame Back.

#### Could Not Sweep The Floor.

When the back aches and pains it is almost impossible for women to do their housework, for every move and every turn means an ache or a pain.

Women are beginning to understand that weak, lame, and aching backs from which they suffer so much are due to wrong action of the kidneys, and should be attended to at once so as to avoid years of suffering from kidney trouble.

On the first sign of anything wrong with the back Doan's Kidney Pills should be taken.

They go right to the seat of the trouble.

Mrs. Wilfrid Jolicoeur, Nouvelle, Que., writes:—"I take pleasure in writing you stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not sweep my own floor. I was advised to try Doan's Kidney Pills. I only used three boxes, and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Toronto, Ont.

If ordering direct specify "Doan's."

### HUMAN OPERATION PERFORMED ON CAT

Veterinary Makes Unique Experiment to Save Tail of Feline

A unique operation was performed in Toronto when the fractured bones in the tail of a cat were sewn together with silver wire and the tendons caught and rejoined with reindeer tendons. The operation was carried out in the same manner as if human bones were being treated, and the experiment is believed to be successful. The operation is the first of its kind to be made in Canada, so far as is known. The cat, known as Prince, was caught in a swinging door. The feline's tail was broken at the third joint and was set in splints. In some manner these became loosened and the setting was broken. Owing to the second accident it was almost impossible to save the tail, and it was then decided to operate upon the animal, treating the break in the same manner as human bones. Dr. Morphy placed the feline under the X-rays and, locating the position of the break, laid bare the tail bone and drilled through the joints in two places stitching the fracture together with silver wire. The tendons were caught and knotted with reindeer tendons and the opening restitched again. The flesh and fur were then sewn over the wound. The cat was placed under an anæsthetic for the operation, which lasted about an hour.

#### CENSUS OF EMPIRE

An Interesting Analysis as to Race and Color

The British Empire has now a population of 419,000,000, of whom 57,000,000 live in the United Kingdom. Of the 362,000,000 who live outside the British Isles, the great majority is composed of the population of India. From comparative figures recently published some statistics of the population of the Empire outside the United Kingdom are here given showing the totals for race and color for the 362,000,000 people involved:

Brown	306,614,000
Black	23,819,000
Yellow	14,516,000
White	14,081,000
Malay	1,629,000
Mixed	1,013,000
Polynesian	217,200
Red	108,600

Total ..... 362,000,000

#### EDISON'S FIRST INVENTION

Electrical Apparatus to Kill off the Hungry Cockroaches

It is stated that when Edison was a telegraph operator much annoyance was caused by cockroaches getting into the tin cans in which the boys carried their lunches. Various methods of getting rid of them were tried, but without success, and then Edison made a bet that he would exterminate the foe. The next day the dinner cans were piled in a heap, and the wizard surrounded them with a circle of tinfoil ribbon about one inch wide. About a quarter of an inch away he placed a similar circle, both ribbons being upright, and then connected them with a battery. Along came the cockroaches. To surmount the obstacles they had to place their hind legs on the outer ribbon and their forelegs on the inner one. The moment they did so the circuit was completed and they toppled over dead.
