Give your servants GOLD DUST to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything

ship-shape unless you give her every modern help.
To keep house without GOLD DUST is to do
work by hard, old-fashioned methods. For cleaning everything and anything about the house—
from cellar to attic—GOLD DUST is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of GOLD DUST in all household cleaning.
