

IF CONSTIPATED OR BILIOUS "CASCARETS"

For Sick Headache, Sour Stomach,
Sluggish Liver and
Bowels

Get a 10-cent box.

Take a Cascaret tonight to cleanse your Liver, Stomach and Bowels and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver, and carry off the constipated waste matter and poison from the intestines and bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

Halibut in the Pacific

The halibut of British Columbia have an enviable reputation, for they are less overgrown and of finer texture than the Icelandic and North Sea fish; a length of five to six feet and weight of 250 pounds is exceptional for the British Columbia halibut. The waters between Queen Charlotte Island and the mainland, especially off Rhode Spit, and off west shore of Banks Island, were at one time verily overcrowded with halibut. Very large fish were often taken then, some weighing 150 pounds, but the general weight now is only from 25 to 60 pounds.

October 15 the Department at Ottawa directed that Mr. Yeomans be taken on and given a fair trial. On November 8 it was decided that he, (Mr. Yeomans) could not do the work and his services were to be dispensed with in that capacity. Then again on November 28 Mr. Yeomans was given a further three months' trial, it being very desirable that the Fredrickton Tories should be pleased.

IVORY IN THE ARCTIC

Mammoths' Tusks Are Valuable But
Difficult to Reach

One thousand miles north of Yakutsk, the "metropolis" of Central Asiatic Siberia, on the River Lena, is the Lena delta on the Arctic shore, says the Technical World Magazine. East and west of this delta, 1,500 miles each way, and among the islands scattered hundreds of miles to the north of the delta, there lies embedded in the ice and snow, and also in the frozen sands on the shores beneath, ivory that was old ages and ages ago!

Mammoths wandered through this territory when Palestine was a jungle, long before the third great glacial period. These mammoths wore tusks from 10 to 20 feet in length, weighing from 150 to 200 pounds each, and—here's the secret of an annual 1,000 mile expedition north—worth from \$5 to \$10 to the natives! To them \$5 is a wonderful sum to earn in a single year.

A native of the Yaku tribe need make no more than three successful trips to the Lena delta to acquire sufficient wealth for his needs during the remainder of his life. One trip may be made each year. Yet there are hundreds of natives who have made from ten to twenty of these trips before they reaped as much profit as would come from three successful journeys after the fossil ivory. The reasons for this are few, but sufficient: It is the longest and most perilous freighting journey in the world! Many of the disasters that overcome Arctic explorers have to be combated; there is danger of freezing to death, of starving to death, and of perishing in great crevasses.

LOBSTERS IN NOVA SCOTIA

Coves at Canso Yield This Delicacy
Even to Amateur Fishermen

It is estimated that the annual catch of lobsters in the world is \$125,000,000, and of this Nova Scotia supplies 40,000,000, valued at \$2,000,000. The lobster pack that comes from anywhere else than this part of Canada is almost negligible. The lobster fishing has been well maintained of late, thanks to the help of the lobster hatcheries, which are placing in the sea millions of small lobsters yearly. It is still possible at Canso, Nova Scotia, as it is at but few places in the world, for an amateur to watch the lobsters crawling on bottoms of sheltered coves, and fishing them up, carry them home for supper, confident that they will have fresh boiled lobsters. Nova Scotia has a genuine monopoly of the English trade in the supplying of canned lobsters.

Baking Potatoes Quickly

To bake potatoes quickly boil them in salted water for ten minutes, then put them in the oven. The boiling water will heat them through and they will cook in a short time.

PEOPLE SHOULD GUARD AGAINST APPENDICITIS

Fredericton people who have stomach and bowel trouble should guard against appendicitis by taking simple buckthorn bark, glycerine, etc., as compounded in Adler-ika, the German remedy which became famous by curing appendicitis. JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY because this simple mixture draws off such a surprising amount of old foul matter from the body. George Y. Dibblee.

Austria Had First Postcard

The honor of having been the first country to use the postcard belongs to Austria, where it was introduced in 1869 as the result of the suggestions of Dr. Hermann. Its price was rather less than a cent, and at first its users were allowed to write only 20 words upon it. The card appeared in England exactly one year later to this very day. The first picture postcard was apparently one sent from the model of the Eddystone Lighthouse at the Royal Naval Exhibition in 1891.

Greater than Panama's Bridge of Water

The Panama Canal is the logical outcome of the trend of modern commerce—it is monumental evidence of the present-day need for shortening distance—for lessening time and for reducing cost of distribution between maker and consumer.

In point of distance, the Panama will bring the Pacific nearer to the Atlantic by 1,000 miles. In point of time, the sea voyage between Halifax and Vancouver will be shortened by 24 days. In point of cost, the canal will very materially lessen the expense of carrying freight between these places. But there is a stronger factor than even the Panama in shortening distances, lessening cost and saving time between manufacturer and user.

It is Advertising—

It is the quickest—

It is the most direct—

And it is the cheapest—

means of communication between the maker and user of goods.

For instance, Advertising enabled a manufacturer in Nova Scotia to carry a demand for his product

from his factory to the Pacific Coast

— in a few days

— at an insignificant cost

compared with slower and more laborious selling methods.

In one week, thousands learned of his product where it would have taken years for the news to get around without advertising.

To the Manufacturers of Canada:

You will be alert to take advantage of the Panama route for the physical transportation of your goods. Have you considered how quickly, how far, and at what small cost the Advertising Trade Route will carry demand for those goods?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
