MANY MORTGAGED FARMS

Nearly Half Ontario's Agricultural Land Encumbered But Not Unduly

About 15 per cent. of the total value of the farm property in Ontario is mortgaged, according to a statement appearing in the report of the provincial Minister of Agriculture. This conclusion was arrived at as a result of a canvass undertaken by the district representatives of the Department, who found that 45 per cent. of the farms were mortgaged, and one third would be a fair estimate of the amount of the mortgages.

This financial survey of farm conditions, as it might be called, was ascertained under the following heads: (1) The percentage of farms mortgaged, per cent. of mortgages in value of farms, and whether increasing or decreasing; (2) the extent of deposits by farmers in saving banks; (3) the extent of the demand on the part of farmers for loans; (4) rate of interest paid on both long and short-term loans; (5) whether the loans were on the purchasing of land only or for financing farm operations.

Bankers, business men, lawyer registry office officials and prominent farmers were relied on for the information gathered, and the answer are considered reasonably reliable.

There seems to be a unanimous view that mortgages are decreasing in number. A proportion of the mortgages, it was ascertained, were taken to enable speculation in western real estate.

With regard to deposits, it was stated that these have materially increased in recent years. One county estimated a 20 to 30 per cent. increase; another 70 to 90 per cent.; another 75 per cent. No accurate figures could be given of the total amount of farmers' deposits, but from estimates furnished from the different counties, it is assumed that the farmers of Ontario have one hundred million dollars at their credit and that the farm wealth of the Province is valued at \$1,405,950,940.

Eliminating Scale in Boilers

It is needless to state that the accumulation of scale on boiler heating surfaces resists the transfer of heat, and therefore acts to reduce the efficiency of steam production. Water contains two kinds of scale-forming "hardness"—temporary and permanent. The temporary hardness consists principally of the carbonate of lime and magnesia, and can be largely eliminated by raising the water to a temperature of about 190 degrees in an open vessel to allow the escape of carbonic acid gas. An open type of feed-water heater with ample depositing and filtering arrangements is often the simplest solution. For neutralization of the permanent hardness, implying the presence of sulphates in the water, it is usual to resort to chemical purification. Special apparatus are available which are capable of combining the two operations for both kinds of hardness. Permanent hardness may also be reduced by duplicating a part of the action of the boiler itself, by the use of a closed purifier in which the feed water is subjected to a high temperature under pressure. These are questions involving chemical determination together with the best advice obtainable.—Engineering Magazine.

A Democratic Statesman

M. Giolitti, former Prime Minister of Italy, is a statesman who follows the simple life. He has lived for twenty years in the same modest house, and neither he nor Mme. Giolitti ever goes into society. When Mme. Giolitti needs a change of air she takes a room in an unpretentious country "pension" which charges only \$1.70 a day; and when M. Giolitti joins her for the week-end he never fails to invite the local doctor and the local schoolmaster to join him in a rubber of whist.

IS YOUR BACK FULL OF ACES ALL DAY LONG?

That Stab-like Pain in the Back is Sure Indication of Kidney Trouble

Mrs. Anna Rodriguez, writes as follows from her home in Valencia: "For a long time I suffered with failing strength and nagging headaches. My condition grew steadily worse, my limbs became bloated and shaky. I was sallow and thin, felt rheumatic pains, dizziness and chills. I unfortunately didn't suspect my kidneys and was nearly dead when I wonderful health and strength that comes to all who use Dr. Hamilton's Pills that I felt sure they discovered the true cause of my sufferings. I read so much about the Pills and comfort I got from Dr. Hamilton's Pills I can't describe. They speedily put me right and their steady use keeps me active, energetic and happy. I strongly urge others to regulate and tone their system with Dr. Hamilton's Pills of Mandrake and Butterbur."

No greater medicine exists than Dr. Hamilton's Pills for the cure of indigestion, constipation, flatulence, liver, bladder and kidney trouble. WEDDING PRESENTS BRIDE'S PROPERTY

Buckinghamshire County Court Gives Decision to This Effect

According to a decision just given in a Buckinghamshire County Court wedding presents sent to a bride are her exclusive property, and her husband has no right to regard them as joint possessions.

"The law is quite clear on the point," a well known lawyer informed a Daily Chronicle representative "if the gifts are addressed to the bride personally they are undoubtedly hers, just as gifts addressed to the bridegroom are his."

A society leader, however, pointed out a difficulty. "When a friend of both the bride and bridegroom desires to make the couple a gift she can't very well address it to Mr. and Mrs. A. before they are Mr. and Mrs. A.," she remarked, "so the present is usually addressed to the bride. It is always understood that when the giver is a personal friend of both parties the gift is a joint affair."

"Of course, when the donor is a friend of the bride alone the gift addressed to her is a personal matter. But in all other cases society usage, if not the law, regards wedding presents as the property of the bride and bridegroom jointly."

Footrace Decides Rent

An ancient custom of a race deciding the rent was witnessed at Bourne (Lincolnshire) recently. A race was run by two boys during the letting of the Whitebread Meadow, and upon the return of the winning boy the landlord was returned the tenant for the year. After expenses are paid the rent money is spent in bread, which is distributed to householders in the town.

THE INTER-LAKE REGATTA IS TODAY

Toledo, O., July 11—Put-in-Bay is today the rendezvous for craft of many descriptions from Buffalo, Cleveland, Detroit and other ports on the Great Lakes. The gathering of the boats is preliminary to the opening of the annual regatta week of the Inter-Lake Yachting Association. The officials and members of the association predict that this year's regatta will be one of the most successful in the history of the organization. The program provides for contests for both sailing and power yachts. In addition, the week will be marked by many elaborate features of social entertainment for the visiting yachtsmen and their ladies.
