GETTING READY FOR BATTLE

(Continued from page one.)

The besiegers are provided with bundles of wood and mattresses with which to fill up the ditches about the fort, but have been unable to make use of them.

Fort Liars, which is just west of Pontisse, has lent efficacious aid to the latter fortifications.

The object of the Germans obviously is to seize the forts on the left bank of the Meuse, which, in the hands of the Belgians will be terrible weapons against the invading forces, should the Belgian main army march towards Liege. On the other hand, these forts in the hands of the Germans would serve as a base for their action directed against the Belgian centre, or for defence against the Belgian attacks.

CAPTURE IN AFRICA

London, Aug. 14—It is officially announced from Nyassaland, British Central Africa, that the government steamer Gwendolin yesterday surprised and captured the German armed steamer Von Wissener on the eastern shore of Lake Nyassa.

Paris, Aug. 14—Interesting documents and maps are being found on the bodies of some of the Germans killed on the frontier. Letters and notes in diaries told of suffering caused by the terrible heat and the scarcity of food. A corporal's letter, taken from a prisoner captured by peasants at Pont-A-Mousson, in the department Meurthe-et-Moselle, said: "At last the question is settled. We have the war which has been so greatly desired."

Brussels, Aug. 14—Brussels newspapers tonight print rumors, said to be attributable to German prisoners, that General Von Emmich, the commander, whose attempt to take the Liege forts, failed, killed himself, following receipt of rebukes from the general staff.

SHOT AS SPY

Copenhagen, Aug. 13—Word was received here today that Count Schackenberg, of the Danish nobility, who was an officer in the German army, has been shot by the Germans as a spy.

A FRENCH VICTORY

Brussels, Aug. 14—A great battle is impending tonight between the age of Winghe, which is only five Germans and their allies at the village miles from the Belgian headquarters at Louvain and twenty-six miles from Brussels.

The excitement here is at a panic stage in consequence.

London, Aug. 14—It was announced in Paris that Field Marshal Sir John French, the commander of the English army, had joined the French General Joffre at the French headquarters.

It was officially stated in Paris today that the French troops in large numbers have entered Belgium and are proceeding from Charleroi to Gembloux, ten miles from Namur.

A great battle is expected tonight between the Germans and the allies at Village of Winghe, five miles northeast of the Belgian headquarters at Louvain and only twenty-six miles from Brussels, where the excitement has reached a panic stage in consequence.

An entire division of German infantry numbering twelve thousand has been captured by the French in the Vosges mountains as the result of five days' fighting. The location which is given is the western border of Alsace near Muelhausen.

An exchange despatch from Brussels says the Germans transferred their bombardment on the Liege fort from the right to the left bank of the Meuse. At Fort Pontasse the worst assault occurred, the enemy attempting to rush the fort by main force, relying on the siege artillery attack developing great fierceness but it was unsuccessful, the Germans being mowed down.

Anthony Nugent, writing in the London Globe says: "I have been with the silent service, the navy. My location was a naval port, which I shall not name, and there I had experiences which are unforgettable. The swift coming and going of the ships, the readiness in the men and the material displayed were great things to see. It was no surprise to me to read the admiralty announcement yesterday that our trade routes are open, everywhere but for the mines in the North Sea. Fishing trawlers are busy clearing these away and are succeeding well. The

German fleet is bottled up in its port."

KING GEORGE CUTS

COST OF LIVING.

London, Aug. 13.—An issue of the official circular announces:

"By order of the King, plain living is now the rule of the royal table."

It is learned on the highest authority that plain living at court means the cost of the royal table has been reduced from \$2.30 per head a day to \$1.25.

Dinner at Buckingham Palace now consists of four courses, soup, fish, joint and sweets. It used to consist of six courses. All entrees have been abolished. Breakfast consists now of fruit and porridge. Fish is served two days a week and eggs and bacon one.

The cost of living in Servants' Hall has been reduced from \$1.44 a day to 85 cents.

London, Aug. 14—The official press bureau of the British war office and admiralty today issued news of a French success in the Vosges mountains, Alsace, in the following words:

"After a successful resistance lasting five days at the passes of Ste. Marie-Au-Mines and Le Bonhomme, the French troops have occupied the region of the Saale Pass which commands the valley of the Bruche, an affluent of the Rhine."

"At Saale numerous desertions of German troops are noticed. The French have taken many prisoners and captured some machine guns."

CONFIRM NEWS OF SUCCESS

"It is now confirmed that the Belgians were successful in their engagement on August 12 with six regiments of German cavalry supported by 2,500 infantry with machine guns and artillery."

"The Germans were completely disorganized. The six cavalry regiments suffered great loss and the Belgian troops pursued the infantry which gave way."

"This morning towards Eghezee, ten miles north of Namur, a mixed detachment from the garrison surprised some cavalry regiments engaged, threw them into confusion, and fought them towards the east after taking numerous prisoners and capturing cannon and machine guns."

"To the southward of the Meuse, the German cavalry avoids contact with the French."

"News of the fight in the vicinity of Haelen yesterday confirms that the Germans were driven to the eastward and that there is now no German cavalry between Hasselt and Ramillies in the province of Brabant."

"The Liege forts still hold out and have plenty of supplies."

"German cavalry patrols are now reported to be north of Montmeddy, which lies on the Franco-Belgian border, in the department of the Meuse."

FRENCH DOING WELL

Paris, Aug. 14—An official bulletin from the war office says:

"The fighting in the Vosges Mountains showed conclusively that the French offense is better than the Germans. The fighting in the St. Marie and Lebonhomme Passes covered a period of five days in which the Germans several times threatened the French mastery, only to fail at the last moment because of the poor quality of their ammunition for their artillery. Their rapid fire guns frequently became jammed, and as a result, bold French charges which were distinguished by a free use of the bayonet, enabled French to take a number of those guns."

"Today the French hold every pass through the Vosges Mountains, including Salle Pass, and absolutely dominate the Bruche Valley."

"So numerous are the prisoners according to the war office, that General Joffre has been compelled to make special arrangements for their transfer to the concentration camp. One of the remarkable features, in the view of the French officers, is that German soldiers are deserting in large numbers. Most of these are said to be young soldiers, who are discouraged over the vain attempt to carry the French position by storm and were appalled at the terrible loss of life. They complain that their officers have literally driven them into the face of a fire from the French guns that no living thing could withstand."

JAPAN WITH GREAT BRITAIN

London, Aug. 15—The Daily Telegraph learns from a diplomatic correspondent that the Japanese Government intends to carry out to the full its obligations under the Anglo-Japanese treaty.

The correspondent says that the Japanese navy has put to sea and will co-operate against the enemy's ships in the Pacific.

If it should prove correct that Turkey has purchased the German cruisers Goeben and Breslau, war between Greece and Turkey is said to be likely for Greece sees in the move an attempt on the part of Turkey to recover some of her islands taken in the last war. Russia to meet such a contingency, would send

troops to the Rumanian frontier. With the arrival in English ports of many ships there has been a sharp decline in the prices of provisions.

No receipts of Norway mackerel, after arrival of shipments in transit, are looked for during the European struggle. Norway mackerel are taken from the North Shore, the scene of the big naval engagements of the war. The fishing fleets began the season's catch July 15. It ends ordinarily in September. Even though fishing suffers no interruption, it is considered doubtful whether any mackerel from either the North Sea or the coast of Ireland can reach this country. Herring from Holland, Scotland and Norway, and sardines from France, Norway and Portugal, it is predicted, will be as scarce and proportionately high as mackerel.
