GERMANS BEING DRIVEN BACK

(Continued from Page One.)
sence of the Russians in East Prussia and Silesia, however, although the latter are only cavalry, it is believed here, will prevent the Germans from sending any more troops to the west, if it does not compel them to withdraw some of their troops from that front.

The roads in Russia are hardening with frost and armies can now be moved more quickly, although the Russians do not possess the strategic railways that the Germans do. Silesia, with better going for the horses offers an excellent field for the cavalry, in which Russia has proved herself to be superior, both in numbers and efficiency, to the other nations at war. The Cossacks are regaining their reputation which they lost in Manchuria, and the raid they have already made into Silesia, it is expected, will be repeated many times. The Austrians have apparently sent stronger forces against Serbia, and have driven the Serbs out of Slavonia. Of what is going on in Bosnia, which the Servians and Montenegrins invaded almost to the capital, nothing has been disclosed for weeks, but the operations against their northern border must have had an effect on the Servian plans in Bosnia.

Nothing of first class moment has occurred up to the present, in the near east, but Turkey is being attacked in isolated spots by the Russians and British, and the Turks are apparently coming very close to war with Greece, the situation having been aggravated by the sinking of a Greek steamer by the Turks, and the threatening of Greeks in Asia Minor. Neither Bulgaria nor Roumania has made any move as yet.

The Union Defence forces continue to round up the rebels in South Africa. Those in the northern part of Cape Province, which have been a worry to the government, have been completely routed, while those in Transvaal, where another four hundred have been captured, are scattering.

In the Orange Free State, however, several small commandos are showing activity, and have been looting the towns and damaging villages.

FRENCH MAKE MARKED GAINS.

Paris, Nov. 8.—The Sunday afternoon French official war statement said:

"Yesterday between the North Sea and the Lys, the fighting was less violent. Some attacks, not general, of the enemy were repulsed in the direction of Dixmude, and to the northeast of Ypres. On almost all of this front we, in turn, took the offensive and advanced, notably in the region to the north of Messines.

"In the neighborhood of Armentieres, the British troops progressed slightly. Between La Bassée and Arras the attacks of the enemy were repulsed.

"From Arras to Soissons nothing of note took place.

"Around Soissons our forces made a marked advance. In the region of Vailly, and equally on the right bank of the Aisne, we strengthened our progress to the north of Chavonne and Soupir. A German attack on Craonne and Huertebze were repulsed.

"In the neighborhood of Verdun, to the northwest and to the southwest of the place, we are establishing the supporting positions recently gained. "A dense fog prevailed all day in the north, as well as in Champagne and Lorraine, hampering the action of the artillery and the aviation corps."

Petrograd, Nov. 8.—The following official communication was issued from general headquarters today:

"On the East Prussian front our troops have dislodged the Germans from the region of Wirballen, which was strongly fortified, and have progressed as far as Stalluponen (sixteen miles east northeast of Gumbinnen.) In the region of Rominten forest and Lyck our troops continue to press on the heels of the rear guards of the enemy.

"On the left bank of the Vistula, our cavalry has penetrated German territory, damaging the railway near Pleschen station, to the northwest of Kalisz.

"On the roads to Cracow, on November 6, we attacked the Austrian rear guards along the Nida river, and the next day were operating on the River Nidzica.

"In Galicia our troops are continuing their offensive movement. In the latest engagements on the San river we captured one hundred and twenty five officers and 12,000 soldiers, as well as rapid fireers and munitions of war. South of Przemyśl, on November 6, we took more than one thousand prisoners."

Pleschen Station, referred to above, is about twenty miles in German territory and one hundred and ninety miles east of Berlin. Posen is about forty miles from Pleschen.

GERMANS MAKE STAND

Petrograd, Nov. 7, via London.—Russian forces are attacking the German position at Sieradz, on the Warthe river, in Russian Poland, southeast of Kalisz and about fifteen miles east of the German border, according to information reaching Petrograd today. This engagement marks the beginning of the Russian advance against the last fortified German position on

Russian soil.

The Germans are heavily entrenched at Sieradz, and appear determined to dispute the crossing of the river Warthe.

RUSSIANS TAKE PRISONERS

Petrograd, Nov. 7.—The left wing of the Russian army, in engagements taking place between Oct. 25 and Nov. 4, on the front in the vicinity of Cracow, took prisoners two hundred and seventy four officers and 13,500 men of the enemy. The information was given out in Petrograd today.

In addition to these prisoners the Russian forces captured three howitzers, forty pieces of artillery, thirty-eight rapid fire guns, and a large quantity of material for the manufacture of cartridges.

KITCHENER SENDS

CONGRATULATIONS

Petrograd, Nov. 8.—Grand Duke Nicholas has received from Earl Kitchener, the British secretary of state for war, a telegram conveying the congratulations of himself, Field Marshal French and the British army on the brilliant termination of the second stage of the Russian operations. Earl Kitchener adds:

"We are convinced that the joint efforts of the Allies will result in the final crushing defeat of the enemy."

KAISER CALLS COUNCIL OF WAR

London, Nov. 9.—A despatch to Reuters' Telegram Company from Rome says:

"German advices received here say that Emperor William, much affected by the Russian victories, has held a council of war which was attended by General Von Hindenburg, the Duke of Wurtemberg and the Austrian chief of staff, Field Marshal Baron Conrad Von Hotzendorfer, to decide on a further plan of campaign."
