## A Word With Subscribers

It is a popular misconception that in times of War a newspaper makes money. As a matter of fact, any newspaper which tries to do its duty by its subscribers, loses money during war time. This is true of The Daily and Semi-Weekly Mail. Both of these papers, in spite of their tremendous increase in circulation, are not making any profit out of the war. This being the case, we have to ask our subscribers who are in arrears to be good enough to REMIT. If we are properly doing our duty toward you as a subscriber, we have to ask that you will carry out your duty to us by remitting promptly any amount that may be owing to us.

If you want to help us make our paper better, send us your subscription in advance. We assure you that we will spend it in improving our news service.

Accounts are now being sent out, and we will be very much indebted to you if you will give the same your prompt

in going straight to the weak spot in treating disease? If so, you will never use anything but Peps for coughs, colds, bronchitis, and throat and lung troubles. Listen why!

Peps are tiny tablets, which contain rich medicinal ingredients, so prepared that they turn into vapour in the mouth, and are breathed down to the throat, the breathing tubes and lungs

direct.
Cough mixtures go—not to the lungs and chest at all, but to the stomach. Tuere is absolutely no direct connection between stomach and lungs.

when stomach and lungs.

When you have a had cold, your digestion is weakened. You lose appetite, and if a man, your usual smoke does not "taste good." In other words, your digestive system is lacking tone. All cough mixtures make this condition worse.

Don't rain your stomach to heal your gs. Take a remedy that goes right to

lungs. Take a remedy that goes right to the spot—Peps.
Surprising how they end coughs, estarrh, bronchitis, sore-throat, "clergy-man's throat," asthma, and all lung troubles. Contain no poison, and are best for children.

Dr. Gordon Stables says:—"If you wish to ease and end a cough, if you desire to loosen tickling phlegm, and clear the throat and the breathing tubes, use Peps. The pine fumes and balsamic fumes, so beneficial in throat and lung trouble, which are liberated when a Pep is put into the mouth, also serve another good purpose. They are strongly germicidal, and germs of disease in the mouth, on the palate, in the throat, and in the breathing tubes, are at once destroyed by their action."
