

**YOUR'RE CONSTIPATED,
BILIOUS!—CASCARETS**

To-night! Clean Your Bowels and end
Headaches, Colds, and Sour
Stomach.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels: how much your head aches, how miserable or uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to headaches, biliousness, dizziness, nervousness, sick, sour gassy stomach, backache and other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

QUEER TASTES OF ANIMALS

Some animals and also birds have very extraordinary tastes for different foods and drinks quite apart from those with which Nature has provided them, and it is in the knowledge of these peculiarities that the skill of the trapper lies.

So marked is a monkey's taste for an intoxicating liquor made from the fermented juice of rice that this drink is invariably used for trapping these creatures. Bears are very partial to alcohol, and many of the performing variety find their highest reward in honey and beer, or rum-and-water mixed with sugar.

Canaries delight in eating lettuce, which is well known for its narcotic properties, and they will eat it to such an extent as to leave themselves stupefied for a long time afterwards.

Foxes, ordinarily the most cunning and, consequently, the most difficult to capture of animals, readily succumb to a trap baited with the body of a dead cat.

Crocods, weasels, etc., the bane of the gamekeeper, are seldom proof against a trap sprinkled with oil from fish.

Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, 2, 3. No. 3, \$5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet on Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor)

ENGLAND'S KING AS A BUSINESS MAN

His Majesty a Methodical and Industrious Worker

The King has impressed everybody at St. James' Palace both by his industry and the businesslike way in which he gets through his work. The amount of correspondence which his Majesty must personally deal with tends ever to increase, and though Lord Stamfordham relieves the King of as much work as possible, there remains after the most exhaustive sifting sufficient to keep the monarch occupied for several hours a day. It is possible that the King, if he liked could deputize most of his work, but like his father, the late King Edward he takes the perfectly correct view that it would be injudicious to put his name or give his assent to any document or plan which he had not himself carefully studied. Besides, to one of his Majesty's clearly defined views, tacit agreement on some matters would be highly repugnant. The "Wake-up-England" King believes in looking into things himself.

His Majesty is an early riser. Generally breakfast is served upstairs a light meal over which very few moments are spent. Then, if the King has not a morning engagement, he attends to his private correspondence which often means dealing with a score of letters daily. Some letters he dictates, others he writes himself, autographed letters mostly being to royal relatives. Then comes the business of dealing with State correspondence, an ordeal which keeps Lord Stamfordham and his staff occupied the whole day.

No letter directed to the King, excepting it be from a crank or a madman, who frequently pick out royalties for their effusions, goes unanswered. It may be a mere formal acknowledgment or it may contain an expression of the King's feelings. What ever the case the courtesy of an early reply may always be expected from the Palace.

Developing Australia

The Australian states concerned and the commonwealth have agreed on a locking and storage system for the Murray river that will open a navigable waterway 1,000 miles into the heart of producing Australia.

Protecting the Roads

Italy is drafting and will enforce a series of regulations covering the width of wheel rims to be allowed on highways.

Dentists Cannot Advertise

In Tasmania dentists are forbidden by law from any form of advertising.

New Shoe Device

Ball and socket fasteners have been patented to hold tongues of shoes in place.

Telephones in Canada

There is a telephone for every 15.2 persons in Canada, according to official figures.

Oil Wells For Spain

Promising surface indications of petroleum deposits in Spain have led the government to investigate the discoveries.

It is quite possible for a man to sow wild oats until they become tame. The Kaiser has forbidden his officers to deal with marriage brokers.

Portugal makes ability to read and write a requirement for suffrage.

Most of the cocoa imported into the United States is produced in the West Indies and Central and South America.

Only seven weddings have taken place in Gloucester Cathedral in fifty-two years.

Business Farming

Farming is always a business, but the average farmer keeps no books. He pays a bill, makes no record of it, loses the receipt, or keeps it in one of a dozen cluttered boxes where it cannot be found.

In order to protect themselves in case of sudden death the wife and children should be made familiar with every detail of the business. There is recorded the case of a rich man who deposited his money in several banks was killed in an accident, and his family are living in absolute want because they cannot ascertain where the money was banked. Another instance is that of a man who placed thirty thousand dollars in a bank for the assistance of his family, died far away, and his folks cannot find where the money is placed. One of my most valued books is a large blank book in which I record every detail of farm work with date of day, month and year. If we begin to plant or sow a piece of ground I put down date, how much seed it took, cost, kind of fertilizer used, name of variety, etc. If a debt is paid, down goes the date, amount paid, what for, and if I got

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Your Hair Gets Soft,
Fluffy and Luxuriant at
Once.

If you care for heavy hair, that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair besides it immediately dissolves every particle of dandruff; you cannot have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say that this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now!

A VOLCANO IN ERUPTION.

The twelfth chapter of the great Selig wild animal melodrama, "The Adventures of Kathlyn," which is being shown at the Safety Theatre today is startling beyond description. One of the most vivid and thrilling scenes is the eruption of a big volcano, which is portrayed in all its splendor, truly one of the most spectacular cinematographed events of the age. A slap stick farce comedy by the Vitagraph company, "The Band Leader," with Wallie Van in the title role, is a big laugh producer and will also be shown at today's show.

Mrs. Peter Duffy and son left this morning for Halifax, where they will make their home in future.

Mr. E. S. Brann of Waterville, Me., is visiting relatives at Waasis.

Indeed the best way to make Rainbow flour biscuits is to bake twice the number you'd make of ordinary flour.

Put two thirds of the biscuit on the table. When they're gone and the folks still look wistful, see them smile when you go to the

kitchen and bring in some more.

Rainbow Flour makes whiter, tastier biscuit or bread than any other flour produced—and you can prove it in one trial!

In using Rainbow Flour for pastry, less flour is required and more water (added slowly).
