THREE KILLED BY BOMB EXPLOSION

Six Story Tenement House in New York Was Completely Demolished---Believed to Have Been the Result of an Anarchist Plot---Victims Were Prominently Identified With the Industrial Workers of the World

New York, July 4.—A bomb of terrific power exploded either on the roof or one of the upper floors of a six-story flat house in Harlem today, wrecked a third of the building, killed at least three persons and injured others.

One of the dead was Arthur Caron, a machinist and a leader of the Industrial Workers of the World. The two other known dead were women.

The explosion was at first attributed to dynamiting in a nearby subway excavation and in the excitement attendant upon the collapse of the building estimates of the dead ran as high as fifty. Inspector Egan of the police bureau of combustibles said that the bomb was powerful enough to have wrecked the entire neighborhood if properly placed.

Persons across the street were blown from their beds and window glass was shattered for blocks. Caron was found dead on a fire escape. Whether any occupants of the building were buried in the ruins it was at first impossible to determine. The police were inclined to believe, however, that three would cover the total dead. The building, a brick structure, was inhabited almost exclusively by Jewish families.

THINK BOMB FACTORY BLEW UP. New York, July 5.—In the ruins of the Lexington Ave tenement house, wrecked yesterday by the premature combustion of a powerful explosive, which killed Arthur Caron and three other people, the authorities today found inflammatory literature, which was printed here and that at the time of the explosion it was apparently a bomb factory, filled with the ingredients of death-dealing missiles. A small printing press, revolutionary pamphlets and circulars, an electric dynamo, two electric batteries, cartridges, and bits of steel were among the things uncovered in the

search, which ends, in the opinion of the police, to show an anarchistic plot at assassination. That a demonstration, halted by the bungling of some one preparing an infernal machine for its mission, was planned against the Rockefeller family in Tarrytown is the theory upon which the police are working.

I. W. W. Agitators Victims. Two of those killed in the wrecked apartment were prominent agitators who were to be placed on trial in Tarrytown tomorrow on charges of disorderly conduct in connection with the campaign of demonstration inaugurated against John D. Rockefeller, Jr., as a protest against his attitude in the Colorado coal mine strike.

The body of the fourth victim of the explosion was found today. It was that of Charles Berg, known in I. W. W. circles as the "Big Swede," an associate of Arthur Zaron, who was also killed. The other victims were Charles Hanson and Mary Cleves. The woman lived in an apartment next to the one occupied by Caron and his associates.

Equally interesting with the discovery by the police of anarchistic literature and electrical machinery in the ruins of Caron's room, was the assertion by I. W. W. leaders that Caron was not a member of that organization, having been recently refused admission. They declared that the I. W. W. had nothing to do with the explosion.

A gruesome but suggestive piece of evidence uncovered, was a severed hand which clutched two small bits of wire made ready for connection. The authorities believe that the owner of this hand was in the act of making an electric connection for one of the bombs and a battery when the explosion occurred, and he was blown to pieces.

ST. JOHN POLICEMAN FATALY WOUNDED

Policeman O'Leary Shot While Rounding up a Gang of Boy Thieves---A Lad Sixteen Years Old Said to Have Fired Fatal Shot

A special despatch from St. John this morning states that Special Constable O'Leary, who was recently discharged from the St. John police force by Chief Clark and reinstated at the authority of Commissioner McLellan, was shot and it is thought fatally wounded at eleven o'clock last night by a sixteen-year-old boy, member of a gang, he was rounding up.

Policeman O'Leary is now in the hospital and it is not expected that

he will live. The case on which he was engaged was that of a gang of boy thieves, who had made their headquarters under Courtenay street wharf. They had been routed out once by Policeman O'Leary and he was responding to a complaint of theft from a store on Brussels street when he was shot and wounded fatally it is thought, by a member of the young gang of beachcombers.

The latest reports do not hold out much hope of the recovery of the wounded man.

FOURTEEN CASES ON DIVORCE COURT DOCKET

The court of Divorce and Matrimonial Causes for New Brunswick will open here tomorrow morning with His Honor Judge McKeown presiding. Fourteen cases—a record number—are to come before the court, three for judgment, two to be finished and nine new cases.

The docket is as follows:

CASES STANDING FOR JUDGMENT

1. Edgar Case vs. Eva Case—P. A.

Guthrie.
2. Albert Damery vs. Katie Damery—Baxter & Logan.
3. Edna L. Waring vs. George H. Waring—Francis Kerr.

CASES REMAINING UNFINISHED.

1. Thomas Henry vs. Annie Maria Bulyea—M. L. Hayward.

THE MARKET IS STRONGER

Rate Decision is Looked For by The Street This Week

Canadian Pacific is Strong at 194---The Montreal Market is Holding Up Well

New York, July 6.—While activity was on a comparatively small scale the market preserved a substantial degree of strength to the end of the first hour and stocks in general seemed to be in a strong technical condition. It was generally expected that the rate decision would be delivered this week.

A rise in the United States Express to 81 compared with 79 on Friday resulted from the announcement of the sale of a block of the Companies real estate on Washington Street for \$475,000. It was expected that other parcels of real estate would be sold in the near future and that the liquidation would be above the estimates heretofore.

FINE DISPLAY OF CONCRETE BLOCKS

Exhibit in Board of Trade Windows Is Attracting Much Attention

Perhaps a less elaborate and more significant display has not appeared in any of Fredericton's show windows than that which is now showing in the Board of Trade windows on Queen street. The display has been flattered by greater attention from the public than any other on Queen street. At all hours of the day passersby may be seen, stopping to take a close view of the new building material being turned out by Fredericton's new industrial plant, Concrete Builders' Limited. There is more than the mere local attraction of a few concrete blocks in the window. The variety and attractiveness of each separate stone calls up to the mind of the prospective home-maker how this or that stone would fit into the color scheme or the design of his future home. Then it occurs to him that these concrete blocks are more attractive, more durable and less costly than any other material that he knows of and that new house he has been so long planning seems at last to fall in place within the limit of his means.

Strange! but this is the romance of the new building stone.

Another interesting feature of these blocks is that the various finishes are produced by a veneer of natural stone rendered practically imperishable by being mixed with the cement of which the blocks are made.

At the factory in St. Mary's the finishing sand may be seen in the raw state. Red sand, crushed marble as white as sugar and various shades of granite and limestone.

Mr. P. W. S. Dawson, is acting manager of the Bank of B. N. A., during the absence of Manager Brooks on vacation.

Important Witnesses Are Absent From the Country

MR. GOULD ROUNDED UP AT DEBEC

Woodstock, N.B., July 5.—A. R. Gould, who did not accept the "invitation" given him to appear before the royal commission, was served with a subpoena at Debec Junction yesterday. Mr. Gould was on his way to Maine, having come through by the Montreal express, when an officer from Woodstock met him at Debec and served him with a legal document that calls for his appearance before the commission July 15. He was evidently much surprised but took the matter good-naturedly and told the officer he would be on hand. After the formalities were completed, Mr. Gould boarded the train for Houlton.

As Premier Flemming and the government will not make any move to bring witnesses here, special efforts are being made by Mr. Carvell to get them and the first move resulted in serving Mr. Gould.

TEN THOUSAND DEAD IN FLOODS IN CHINA

Canton, July 3.—Reports received here say that 10,000 persons have been drowned in the West River floods which this year are worse than usual and that deaths from starvation in the affected districts have been numerous.

THIRD TRIAL FOR ROBERT OWEN

Denver, Colo., July 5.—The case of Robert Owen, who is alleged to have led the crowd of men who kidnapped and beat Rev. O. L. Spurgeon here last April, was called in court today for trial. The alleged assault on Spurgeon occurred after he had delivered a lecture attacking the Catholic priesthood. This will be the third trial of Owen on charges growing out of the alleged kidnapping and attack on the preacher. In each of the two previous trials the jury was unable to agree on a verdict.

CHICAGO ENTERTAINS REAL ESTATE MEN

Chicago, Ill., July 6.—The Chicago Real Estate Board today played host to six hundred real estate men hailing from forty cities in the western part of the United States and Canada. The westerners are on their way to Pittsburg to attend the convention of the National Association of Real Estate Boards.

BIG PLANT REDUCES WORKING HOURS

Newark, O., July 6.—The local plant of the American Bottle Company today voluntarily put into operation a new schedule reducing the workday of its employes from ten to eight hours, without any reduction in pay. The new arrangement will add about \$200,000 a year to the company's payroll and probably will result in the employment of 250 additional men.

READY TO LAUNCH GREAT NORTHERN

Philadelphia, Pa., July 6.—Arrangements have been completed at the Cramp shipyards here for the launching tomorrow of the steamship Great Northern, which is being built for the Great Northern Railway and Steamship Company. The vessel is one of the largest built here in some years. She is 525 feet long and 65 feet wide and will cost \$2,500,000.

Government Should Compel the Attendance Before the Royal Commission of Messrs Berry, Gould, Corbett and Lisman---Promise That the Investigation Would be a Thorough One is not Being Carried Out---Where the Responsibility Rests

Notwithstanding the oft repeated declaration of the local government hack organs that there would be a most thorough investigation into the Dugal charges, several men who are badly wanted to give evidence before the royal commission, have absented themselves from the country. This would not be the case if the government was one-half as anxious to bring out the truth as it pretends to be. So far as the Tory hack organs are concerned they have made themselves so ridiculous since this investigation began that they are no longer taken seriously by an intelligent public. For years past they have been playing on the gullibility of the people, but it is beginning to look as if they have about reached the end of their tether. They are simply whistling now to keep up their courage and some of them are probably nursing the hope that at the close of the enquiry there may be a divy of the enormous boodle fund which Mr. W. H. Berry, now of Boston, has been shown to have collected.

The missing witnesses up to date, include Mr. W. H. Berry, now of Boston, who assisted Premier Flemming in "adjusting" the timberland bonuses, and afterwards collected \$66,000 from the big lumber operators for an alleged campaign fund. He crossed the boundary line on the very day the royal commission held its initial meeting at St. John. On the previous day he met Premier Flemming by appointment at McAdam Junction and accompanied him to St. Stephen, where the premier was billed to address a Sunday School gathering or dedicate a public hall, we have forgotten which. After bidding adieu to the premier, Mr. Berry packed his trunk and hiked across the border to the land of the free. The Hon. J. Kidd then journeyed off to St. John, girded up his loins and gave out an interview to a representative of The Montreal Star, in which he denied the allegations in toto.

AEOTHER MISSING.

Another witness who has not yet come to the scratch is Mr. James H. Corbett Sr., who is alleged to have paid Hon. Mr. Flemming \$10,000 in cash for his contract on the Valley Railway. Mr. Corbett is now in Pennsylvania and will likely stay there unless he should happen to get a telegram from the premier directing him to "send along another \$10,000."

WHERE IS GOULD?

Mr. A. R. Gould, president of the St. John and Quebec Railway Company, who has been a frequent visitor to Fredericton for several years past, appears to have ignored the polite invitation sent him by the commission to attend its sittings and give evidence. Mr. Gould is wanted to unravel the mystery surrounding a little loan of \$350,000 secured from the Prudential Trust Company, and he is believed to be the right man to throw light on other phases of the case. There is no particular reason why he should remain away unless he has got it into his head that Fredericton is a "hot place" at this season of the year. We feel confident that if Mr. Gould would turn up his scrap book and read the eulogy pronounced upon him by Col. McLeod, M.P., at the memorable Presque Isle banquet two years ago, he would pack his grip and board the first train for Fredericton. In case he should do this we would suggest that he invite his son, Mr. L. E. Gould, president of the Quebec and St. John Construction Company, to come along with him.

Another important witness whom the counsel for Mr. Dugal had counted upon to assist in the noble work of enlightening the public on Valley Railway matters was Mr. J. E. Lisman of New York. Mr. Lisman is supposed to have been Mr. Gould's chief financial bulwark, although according to the evidence, he has fig-

ured in the game in the capacity of a "borrower of the second part." Mr. Lisman is the representative of a concern which had agreed to finance the second mortgage bonds of the St. John and Quebec Railway Company, but fell down on the job at the last minute. He assisted Mr. Gould in negotiating a loan of \$350,000 from the Prudential Trust Company just prior to the local elections of 1912, and the public would very much like to get some first-hand information from him in regard to the matter. Mr. Lisman, however, has taken the precaution to put the Atlantic Ocean between himself and the royal commission and it is doubtful if the public gets the benefit of his story. Probably he is endeavoring to interest the financial men of the Old Country in the second mortgage bonds of the company.

The absence of material witnesses goes to show that the Flemming government and its counsel are doing their level best to thwart the work of the royal commission. They are working on the principle that the people like to be humbugged and will condone the base deception now being practised upon them. The game, however, is too transparent to deceive anybody. If the attorney general of New Brunswick wants Mr. Berry, Mr. Gould, Mr. Corbett and Mr. Lisman to attend and give evidence before the royal commission, he has only to say the word and they will appear. If they do not put in an appearance the people of New Brunswick will know exactly where to place the blame.

TEACHERS GET DOWN TO BUSINESS

St. Paul, Minn., July 6.—After two days of preliminaries the annual convention of the National Educational Association, which has attracted thousands of teachers to this city from every part of the country, got under way in earnest today with two general sessions and a score or more of departmental conferences. Meeting in conjunction with the main body are the National League of Teachers Association and a number of other organizations devoted to the promotion and development of various branches of educational work.

TENNESSEE LAWN TENNIS CHAMPION

Knoxville, Tenn., July 6.—The annual lawn tennis tournament for the championship of Tennessee began here today and will continue throughout the week. All indications point to one of the most successful events of its kind ever pulled off here. The entry list includes more than two-score of well-known players exclusive of those from the Knoxville Tennis Club, on whose courts and under whose auspices the meet is being held.

C. N. R. SEEKS BIG LOAN IN N.Y.

New York, July 6.—In financial circles negotiations are under way for the Canadian National Railway to advance \$1,000,000 to the advance of the Canadian National Railway to go ahead with the construction of the new line without waiting for the bonds. The money would be repaid as soon as it is not stated would be issued as an ordinary bond.
