IN THE FIELD.

Ex-Ald. Peter Duffie has announced that he will be an independent candidate for civic honors in Wellington Ward. Mr. Duffie has had experience as an alderman, serving on the City Council some years ago, before removing from the city to Halifax.

THREE FAMOUS SCIENTISTS

Dr. Andrew Wilson, Dr. Gordon Stables and Dr. Lascelles Scott, the famous English analysts, have all personally tried Zam-Buk and expressed themselves convinced of its great healing value.

Mrs. St. Denis, of Thompson St., Weston, Winnipeg, suffered long with eczema; and finally her doctor said only Zam-Buk could cure her—another fine tribute of a scientific man to this great healing value.

Mrs. St. Denis says: "The eczema broke out on my nose and one side of my face. I could get no sleep because of the irritation and pain, and my face was in such a shocking condition that for two months I did not go out of the house. I applied remedies and my doctor treated me, but without effect, until one day he said that the only thing which would be likely to cure me was Zam-Buk. I procured a supply and to cut a long story short, in a few weeks Zam-Buk cured me completely, leaving no scars."

Zam-Buk is a sure cure for cuts, scalds, burns, eczema, scalp sores, ulcerations, inflammation, piles, etc.; also as an embrocation for rheumatism, sprains and scalds. All druggists and stores at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes.

LONGEVITY OF ANIMALS

Is Laziness of Tortoises Responsible For the Age it Attains?

Quite erroneous is the popular belief that a toad can live for hundreds of years, even when buried in rock or earth. According to scientists the toad cannot live without food and air for more than two years, its span of life being usually limited to about forty years.

The average person is apt to confuse the toad with the tortoises and turtles, which live for hundreds of years. There are tortoises at the Zoo so old that no one knows their exact age, which may be anything between two and three hundred years. A few years ago one of the tortoises which died must have been well over 300 years old.

In the animal world the elephant holds the record for longevity. An elephant is not full grown till it is about thirty, and it will live for 120 to 150 years, but the average age is eighty. Camels live for thirty to forty years, but lions in captivity will live sixty or seventy years, although in their wild state they die at the age of fifteen to twenty-five.

It has been humorously suggested that the extraordinary age which tortoises attain is really due to their amazing laziness. It is pointed out by an authority at the Zoo that in order to arouse a tortoise from its extreme lethargy it is necessary at times to beat it heartily on the back with a hammer.

Talking of laziness, however, the Zoo championship seems to be held by the boatbill, which has been described as the laziest bird in the world. Timed for half an hour, its only movement consisted of the lifting of an eyelid. It was even too lazy to move out of the rain, and perched motionless in its cage during a storm, and head sunk on its chest, letting the raindrops run down its beak.

The whale-headed heron, too, might almost share the honors with the boatbill. This bird will stand motionless for hours, although it should, in fairness to the birds, be mentioned that their laziness is really the outcome of natural habits, for in their usual haunts they stand in streams on the look-out for fish, and the least movement would frighten these away. Mention might also be made of the ant-eater porcupine, from New South Wales, which is almost too lazy to breathe. It hates the bore of breathing, and holds its breath as long as it can and then breathes in a great gasp and returns to somnolence.

SURGICAL MARVELS

Some Results of Study and Experiments by Enthusiasts

Modern surgeons perform operations which seem little less than miraculous. Portions of the intestines have been removed. A piece of bone has been taken from the leg of a patient and used to mend a diseased spine. Split arm bones that could not knit have been pinned together by silver nails and screws. The entire lung of a dog has been removed and replaced as a hint of what may be the future treatment of tuberculosis. The calloused skin of the eyes of a child thus blinded from birth has been pierced. By brain operations upon prisoners the surgical cure for criminals has been demonstrated. Patients under a new anesthetic method have actually watched an operation performed upon themselves.

A generation ago many of these operations which have come into actual and assured practice would have been deemed chimerical and impossible of achievement.

TAKES OFF DANDRUFF HAIR STOPS FALLING

Gr! Try This! Makes Your Hair Thick, Glossy, Fluffy and Beautiful

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance. Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lot of it if you will just try a little Danderine.

SCIENCE CAN'T EXPLAIN

How sunlight turns grapes into sugar.

Why the sap of trees is not frozen in winter.

Why it is that many microbes can be boiled and still live.

By what sense a pigeon finds its way home from a great distance.

How the pain of a prick is carried by the nerves from the finger tip to the brain.

How seeds grown in the fall resist the frosts of winter and germinate as soon as spring comes.

How a chicken ten seconds after coming out of its egg knows how to balance itself on its feet, run about, and peck food.

How it is that, if the earth is as old as we have every reason to believe, the radium in it has not yet given off all its energy, but seems to be discharging just as much as it ever gave.

NEARLY IN CONVULSIONS

With Acute Indigestion.
 "Fruit-a-tives" Cured Me.

NEWBURY, ONT., MAY 29th, 1913

"I am not an astute user of medicines or patent medicines, but I have taken nearly everything recommended for Indigestion and Constipation.

I have been so bad with Acute Indigestion that I was nearly in convulsions and had to be held. I have used "Fruit-a-tives" and I have not had another attack nor suffered at all with Indigestion since taking them.

"Fruit-a-tives" is the only remedy I ever used that did me any good, and I am grateful to "Fruit-a-tives" for making me as well as I am today, and everyone agrees that I look in first-class health.

My husband likes "Fruit-a-tives" very much and takes them whenever he has occasion to use a remedy for Constipation."

Mrs. D. McRAE

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c, or will be sent to any address on receipt of price by Fruit-a-tives Limited, Ottawa.

The Drain on Scotland

Nearly 200,000 Scottish persons emigrated from Scotland during the past four years. This number is equal to two-thirds of the population of Edinburgh, or nearly to the combined population of Grimsby, Ipswich and Reading.

Looking Both Ways

A new motor cycle rear light, to be mounted on a handle bar, can be covered with a mirror in the day time so a rider can watch the road behind him.

Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to
