

Those Tinkling Tango Tunes

are simply fascinating when reproduced by The EDISON Phonograph. There's no fun trying to do the new dances — the Fox Trot, Maxixe, One Step, Hesitation, Boston, Three Step — to the jerky drumming of a piano. There's no tempting tempo.

But when the National Promenade Band swings into the seductive "La Bella Argentina" or "Waltz Hesitation", and

The EDISON PHONOGRAPH

(THE INSTRUMENT WITH THE DIAMOND POINT)

reproduces the full, rich melody — the sway and swing of it — the fascinating rhythm of it — then you have something worth dancing to.

There are other special Dance Records available to owners of Edison Phonographs — several hundred other Band and Orchestra records, many of which are suitable for the new dances — and any number of Tango songs like "Underneath the Tango Moon."

The new Edison Phonograph has the diamond reproducing point, unbreakable and long playing records, superior motors and construction, concealed horns, and the Cabinets are made in true Period styles, in perfect harmony with the finest furniture.

Come in and hear the EDISON play all these tinkling tango tunes — play them as they should be played — then you'll appreciate just how much pleasure you can have with an EDISON PHONOGRAPH in your own home.

WHERE THE GRAFTERS

(Continued from page two.)

the railway company had presumably put itself in a position to do the work it found itself to do. It represented itself as prepared to put a large amount of money into the enterprise as proceeds of second mortgage bonds.

No doubt it had grounds for such representation and certainly the government gave credence to it. Perhaps through no fault of the company, such expectation was not realized, but the expenses it incurred in an ineffectual attempt to live up to its promises as evidence by the account of F. J. Lisman are not a proper charge upon the proceeds of this fund, neither are the expenses of solicitors for services rendered to the company prior to the time the contract was entered into.

We think the proceeds of these guaranteed bonds should be drawn upon in payment only of the work embodied in the engineer's certificates.

In view of our opinion thus above expressed we do not think it necessary or desirable to recapitulate or to particularize these accounts for legal expenses, travelling expenses and the like. The principle on which they should be allowed or disallowed is too obvious to need illustration or application and we also think that the premium paid to the National Surety Company should be judged by the same principle.

ONE YEAR'S SALARY TOO MUCH.

As to the salary of \$5,000 a year for three years, which is charged as paid to A. T. Gould, president of the railway company, we think that the agreement entered into between Mr. Gould and the construction company in the month of June, whereby he took over nearly all the capital stock of the said construction company, ought to, and does in the terms, operate as a payment of his salary for the first year. We think a salary for the president is not an improper charge, nor do we think the amount excessive. In our view, however, only two years' salary should be charged. It will be for the government, as holders of 51 per cent. of this company's stock, if and when the legislation of 1914 is carried into effect, to deal with such an item as this hereafter, but in estimating the expenses of construction from month to month we are of the opinion that the engineer is justified in taking into account the president's salary, as well as the salaries of the engineers, accountants and other necessary officials of the company, and we are of like opinion concerning the expenses of L. E. Gould, president of the construction company, and of the amount charged for office rent by the president of the railway company.

CLEANER AND WINE-

LOW PAYMENTS.

As to the amounts paid to The Gleaner newspaper and to Mr. J. N. W. Winslow, being \$1,000 and \$3,000 respectively, and charged to the construction account, no justification nor excuse for these payments upon such account was offered and for the purpose of this branch of the enquiry they should be disallowed.

Now, these items, thus summarized, constitute the full contention made by Mr. Carvell along the line of diversion and in his closing argument before the commission he calculated their sum total at \$197,535.75. It may be fair, however, to say that Mr. Carvell made an attempt to show that \$100,000 remaining unpaid on the \$350,000 loan had been used by the borrowers for improper purposes, which he claimed to be a diversion.

Is 83 Years Old

And Her Heart Does Not Bother Her.

Thanks to MILBURN'S Heart and Nerve Pills.

Mrs. J. McLaren, Commanda, Ont., writes us under date of February 9th, 1914. "Sixteen years ago I took bad with my heart and nerves, and was not able to do anything. I tried a good many doctors, but they did me no good; in fact one doctor gave me up to die. I heard about Milburn's Heart and Nerve Pills, and I thought I would give them a trial, and after using a couple of boxes I saw that I was improving. I kept on using them for quite a long time. I am eighty-three years old and my heart does not bother me at all.

"I am raising a little girl who was never very strong, and the doctor said that she had palpitation of the heart, so I started to give them to her. She is now twelve years old, and they are doing her more good than I can possibly tell you. I would advise anyone who has a weak heart to try Milburn's Heart and Nerve Pills, as they have done wonders for us."

Price, 50 cents per box, 3 boxes for \$1.25; for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A COUTLERY SALUTE.

Discipline aboard men-of-war belonging to tropical countries is not as strict as that obtaining on the vessels of colder countries.

The Defense, a Haitian naval vessel, was lying in the harbor of Port au Prince. One day a mess cook, for some reason, cleaned about a peck of knives and forks on the gun deck and, being suddenly called away, and not wishing to spend time to go to the gallery, he seized the messpot full of knives and forks and stuck it in the muzzle of the ten-inch gun, putting the tampion in after it.

About an hour afterward the admiral came aboard and, as the gun was loaded with a blank cartridge, they used it to fire a salute.

It happened that the gun was aimed toward the town and almost point blank at the Grand Hotel. The guests assembled on the porch to witness the ceremonies, when they were saluted with a rain of knives and forks, which struck against the wooden walls like quills on a porcupine. Fortunately, no one was hurt.

Thirty-five out of every 100 immigrants arriving in this country are women.

Building Young Canadians

to carry on the work of this growing commonwealth is the business of intelligent mothers who are willing to study the needs of the little ones entrusted to their care. You cannot build boys and girls out of school-books alone. The body is built out of nourishing foods and rational outdoor exercise. A daily diet of

SHREDDED WHEAT

combined with proper exercise supplies all the body-building material needed by growing youngsters. The food to study on, to play on, to grow on, to work on.

For breakfast heat the Biscuit in oven to restore crispness and then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Better than mushy porridges that are belted down without chewing. A hot, nourishing breakfast for a chilly day. Deliciously nourishing for any meal with sliced bananas, baked apples or preserved fruits of any kind.
