## SATURDAY

Opening of annual regatta of Inland Lake Yachting Association, on White Bear Lake, Minn.

Opening of seven-day meeting of Windsor Jockey Club, at Windsor, Ont.

## WORLD'S DRUG MARKETS ARE DEMORALIZED

(Journal of Commerce.)

Drug and chemical markets the world over are in a state of upheaval, due to the tensify of the European situation and the consequent stoppage of all imports to the American continent from European drug producing countries. Local dealers are refusing to deal in the articles and all quotations have been withdrawn and nominally all prices have advanced from twenty-five per cent. to fifty per cent. from last week's levels.

## RELIABLE CAMP FOOD

Raw materials which have been brought by great labor at the paddle and under the pack to a country where fresh supplies are unobtainable are far too valuable to be wasted in unsuccessful cooking experiments.

Cornmeal wild rice, beans, flour, bacon, sugar, tea and salt, with a bit of soda and pepper to enliven the same, and some prunes and tobacco to aid digestion, have been from the beginning and will be until the end of time all that man requires to keep him alive and working.

But man, particularly city broke man, needs more to make him really happy—his palate and his health demand something more of variety.

So, when one reads in the catalogues of dehydrated vegetables reduced that a single pound is the equivalent of a dozen pounds of the fresh garden product; of a pound of porterhouse stewed down to a thinful of goo, and of a quart of turtle soup dried into an inch cube, his mouth begins to water.

But between the patent food in the sporting goods store and your grub sack in the wilderness should intervene the cool, dispassionate third degree of your experience, because some of 'em are good and some of 'em are not, and all of 'em must be handled right to give the best results.

levels.

## GENERAL ADVANCE IN NEW YORK.

Reports from New York indicate that prices for drugs have advanced there, opium scoring the greatest advance, of twenty-five cents, for gum and powdered alike. Morphine is also very strong there. In the local market quotations on these two staples were unobtainable.

Imports from all points in Europe are contraband. Russian goods such as ergot, aniseed and lycopodium will be practically unobtainable. German goods will also suffer considerably in this market. Many of the firms doing an extensive import business in German goods, especially in crude roots and herbs, report that these will advance very considerably above what they already are, as stocks on hand are none too heavy to fill a protracted scarcity of imports from the producing country.

## REFUSED TO STATE VIEWS.

No one in the trade would com-

## THE PEOPLE WANT THE INFORMATION

(Hartland Observer.)

All over the Province the people want to know the facts with regard to the Crown Land scandal and the alleged Valley Railway graft. Much light has been thrown upon these matters by the evidence brought out before the Royal Commission, but there are yet matters that are not clear to the people. Premier Fleming is the man who can give the desired information and these are the questions each voter, whether Liberal or Conservative, would like to put to him:

1. Where is Berry?
2. Where did you see him last?
3. Why did you refuse to send a telegram to him to come before the Commission?
4. How much did you pay him to go away?
5. Are you still paying him to stay away?
6. Why don't you allow him to tell the story?
7. How much of the boodle did he pay you?
8. Where is James H. Corbett?
9. Did he pay you \$10,000 at the Brunswick House, Moncton on May 18, 1912?
10. Did not you try to get more money from John Kennedy a year after you got the \$2,000?
11. Whom do you claim the boodle fund belongs to now, the way matters stand?
12. Are you willing to hand it over to the province?
13. How many miles of bad road would this fund repair?

forward with an opinion regarding the future of the market, all stating that in view of the baffling conditions and the uncertainties as to what will be the next move of a warlike character, by or against, an opinion would be superfluous and would be discredited in any event. They were unanimous in declaring that they were up against an unknown quantity and many of them stated that they would not touch the market until they were sure that the situation was on the mend once more.

Prices, they stated, would continue to move upward with the darkening of the war cloud and all they could hope for was the possibility of an amicable solution to the problem before too much damage had been done. The heavier chemicals were also affected in the above manner and quotations for these lines were also withdrawn.

## JOE RUSSELL'S JOKE

(The Canadian Courier)

Joe Russell, the newly elected M. P. for a Toronto constituency, is a brick man. At the dinner of the Clay Products Association, Joe got up to speak.

"I suppose you people think there's only one thing that's all cracked up to be?" said he.

There was a general chorus of "Clay, clay!"

"No," said Joe, "it's ice."

## THE MAGNETIC GIRL

## How She Compels Others to Obey Her Will

100,000 COPIES OF REMARKABLE BOOK DESCRIBING PECULIAR PSYCHIC POWERS TO BE DISTRIBUTED POST FREE TO READERS OF 'THE FREDERICTON MAIL.'

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, call it what you will, can surely be acquired by everyone no matter how unattractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of the new book entitled: "The Key to the Development of the Inner Forces."

The book lays bare many astounding facts concerning the practices of the Eastern Yogis, and describes a simple though effective system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to quickly and accurately judge the character and disposition of an individual; how to cure the most obstinate diseases and habits without drugs or medicines; even the complex subject of projecting thoughts (telepathy) is explained.

Miss Josephine Davis, the popular stage favourite, whose portrait appears herewith, declares that Prof. Knowles' book opens the door to success, health and happiness to every mortal, no matter what his or her position in life. She believes that Prof. Knowles has discovered principles which, if universally adopted, will revolutionize the mental status of the human race.

The book, which is being distributed broadcast free of charge, is full of photographic reproductions showing how these unseen forces are being used all over the world, and how thousands upon thousands have developed powers which they little dreamed they possessed. The free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to do so may enclose 5 cents (stamps of your own country) to cover postage etc. All requests for the free book should be addressed to: National Institute of Sciences, Free Distribution Dept., 1532 B., No. 258 Westminster Bridge Road, London, S. E., England. Simply say you would like a copy of "The Key to the Development of the Inner Forces," and mention The Fredericton Mail.

## TO HONOR A SUBMARINE INVENTOR

Paterson, N. J., Aug. 10.—The Chamber of Commerce of this city has endorsed a project to raise the first submarine boat from beneath the river bed here, where it has lain for nearly fifteen years and to place it on exhibition as a permanent memorial to the inventor, the late John Holland. While teaching school here in 1897 Holland tested his first submarine boat, sinking it in the Passaic River just above the Passaic Falls. The test was successful, but the original boat was left at the bottom of the river. Holland completed his invention at Elizabethport, N. J., and lived to see it adopted by the United States navy.

## "Let's Make It Unanimous!"

Says Mrs. Bradley, the bride:

"Frank wonders where ever I learned to make such white, tasty bread. He wouldn't wonder if he could see how superior my Rainbow Flour is to others."

Says Chef Dupree:

"It is not alone that my rolls and bread are better—you should see how flaky pastry is when Rainbow Flour is used for it."

Says Grandmother Brown:

"I've never seen a grandchild so stubborn that it wouldn't run an errand for a slice of my bread and butter and sugar. But then—I use Rainbow Flour."

Says Grocer Mills:

"Why do I like to sell Rainbow Flour? That's an easy one. Rainbow is ground finer and more uniform than any other flour I know of. It's also whiter. And while plenty of millers use 75% of each grain of wheat for flour, only about 40% is eligible for Rainbow."

In using Rainbow Flour for pastry, use less flour and more water (added slowly).

## RAINBOW FLOUR

MAKES GOOD BREAD

## PERSISTENCY IN ADVERTISING

One stroke of a bell in a thick fog does not give a lasting impression of its location, but when followed by repeated strokes at regular strokes at regular intervals the densest fog, the darkest night can not long conceal its whereabouts. Likewise a single insertion of an advertisement—as compared with regular and systematic ADVERTISING—is in its effect not unlike a sound which, heard but faintly once is lost in space and soon forgot.
