G. W. HARRISON, MANAGER

FREDERICTON BRANCH

NUPTIAL EVENT

AT TORONTO, ONT.

Mr. W. B. Farris, Son of Hon. L. P. Farris One of the Contracting Parties

Mr. Wendall B. Farris, son of Hon. L. P. Farris of White's Cove, now of Vancouver, was married in Toronto, on Wednesday evening, to Miss Katie Isabel Baird, formerly of Woodstock. The Toronto Globe of Thursday gives the following account of the event:

"The wedding took place last evening of Miss Katie Isabel Baird, daughter of Mr. and Mrs. H. Paxton Baird of 99 Jameson avenue, and Mr. Wendall Burpee Farris of Vancouver, B.C. The ceremony was conducted by Rev. Dr. W. H. Hincks at the residence of Mr. Baird. The bride was given away by her father, and her only attendant was her little nephew, Joseph Hatheway of Detroit, who acted as ring-bearer. The bride wore a gown of white charmeuse, a veil caught with orange blossoms and pearls and carried a shower bouquet of bride roses. Mrs. Baird, the bride's mother, wore a French gown of pink and pearl grey taffeta with overdress of grey net. In the receiving line were Dr. and Mrs. Joseph H. Hatheway of Detroit, Mrs. Hatheway wearing an imported gown of pink taffeta. The entire house was decorated with palms and pink roses, a symphony orchestra hidden by a floral bower furnishing music. Among the guests were Mr. and Mrs. Robert G. Larsen of Boston, Mr. and Mrs. George Mitchell of Cobalt, and Dr. and Mrs. J. H. Elliott of Muskoka. After a brief honeymoon, Mr. and Mrs. Farris will make their home in Vancouver, B.C., where Mr. Farris is a member of a prominent law firm. He is the son of the Hon. L. P. Farris of New Brunswick.

The proportion of gainful workers in the female population of the United States ten years of age and over increased from 14.7 to 23.4 per cent. from 1880 to 1890, according to a report recently made public by the Bureau of Census.

LESS BOWEL TROUBLE IN FREDERICTON

Fredericton people have found out that A SINGLE DOSE of simple buckthorn bark, glycerine, etc., as compounded in Adler-ika, the German bowel and stomach remedy, relieves constipation, sour stomach or gas on the stomach INSTANTLY. This simple mixture became famous by curing appendicitis and it draws off a surprising amount of old foul matter from the body. It is wonderful how QUICKLY it helps. Geo. Y. Diblee.

ASSISTING WOOL-GROWERS

Sheep-raising Industry to be Further Improved and Developed

The live stock branch of the Dominion Department of Agriculture is prepared to offer practical assistance to associations of wool growers in the preparation and display of their wool clips for market. Associations, in order to receive aid, must be organized in accordance with the regulations of the branch, and membership is limited to actual owners of sheep. West of Fort William an association must contain at least 3,000 sheep, or sufficient to comprise one carload of wool; east of there, a relative number. The services of expert wool classifiers, who will take charge of and perform the grading, classification and preparation of the wool, will be provided.

This proposal represents much more than a mere continuation of the work that has already been undertaken. It means the introduction of a definite scheme whereby wool producers may be actually assisted in preparing and presenting their wools upon the market in the most acceptable fashion, and thus be in a position to cater more directly to the requirements of the market. Moreover, it should prove effective in developing and improving the general status of sheep-raising and in creating an impetus to the production and preparation of an improved grade of wool, and indirectly, a better class of mutton.

Business Farming

Farming is always a business, but the average farmer keeps no books. He pays a bill, makes no record of it, loses the receipt, or keeps it in one of a dozen cluttered boxes where it cannot be found.

In order to protect themselves in case of sudden death the wife and children should be made familiar with every detail of the business. There is recorded the case of a rich man who deposited his money in several banks was killed in an accident, and his family are living in absolute want because they cannot ascertain where the money was banked. Another instance is that of a man who placed thirty thousand dollars in a bank for the assistance of his family, died far away, and his folks cannot find where the money is placed. One of my most valued books is a large blank book in which I record every detail of farm work with date of day, month and year. If we begin to plant or sow a piece of ground I put down date how much seed it took, cost, kind of fertilizer used, name of variety, etc. If a debt is paid, down goes the date amount paid, what for, and if I got a receipt.

By making the entries each noon or night the books can be so kept up-to-date that an executor can look over the record, stock, and produce books, etc., and see in a few moments how affairs stand; and the farmer himself knows about his work. C. E. Davis.

Gigantic Aeroplanes

The Russian government has ordered ten aeroplanes of a type to carry eleven persons in addition to the pilot.

Long Navigable River

The Congo river and its tributaries furnish more than 9,000 miles of waterways navigable by flat-bottomed steamers.

A new convenience for travelers is a shoe polishing brush with the back recessed to hold a dauber and can of polish.

DOES INDIA HOARD HER YELLOW GOLD?

Many Millions of Precious Metal is Unaccounted For

From time immemorial India has absorbed gold as a sponge absorbs water. The flow of gold to India has always continued. In the last twelve years she has received \$680,000,000 in gold, partly in sovereigns and partly in bullion, in addition to enormous quantities of silver. It all goes into the country, but very little ever comes out. Lord Rothschild observed some years ago that he had noticed that none of the smooth gold bars sent to India from England ever came back. What happens to this great stream of precious metal, which continuously disappears like those rivers in desert lands which lose themselves underground?

The testimony of experts is most conflicting. Some say it is hoarded while a few are ready to prove by a formidable array of statistics that it cannot be extensively hoarded. Those who believe that India possesses a vast store of hoarded treasure make the wildest guesses at its probable total. The most popular estimate of the hoarded wealth of India puts the total of \$1,500,000,000, which would amount to five dollars per head of the population; but some credible estimates are far higher. The experts quarrel, again, about the probable effect of India's absorption of gold upon the world's money markets and the prices of commodities. Some say that all gold-using countries benefit thereby, while others, such as Sir Edward Holden, appear to hold that "the drain of gold to India" is a potential menace. The commission while declining to endorse either of these mutually destructive contentions has declared in effect that an increased use of gold in India should not in future be encouraged by the Government, but India already seems disposed to resent this recommendation. India has been subjected to repeated invasions and innumerable internal wars, and her people have never completely lost their hereditary sense of insecurity. Banking facilities are still sparse, and it would be surprising if Indians did not hoard.

Hoarding does not necessarily mean burying in the ground or concealment in the roofs of houses, though those practices are doubtless extensive. Mr. J. M. Keynes, a member of the commission tells a story of a Brahmin in Eastern Bengal who even hoarded currency notes in his roof. Once a week he retires privily and spreads them out in the sun to remove the damp. A very large proportion of the hoarded wealth of India is hoarded in the form of gold and silver ornaments. It is into these ornaments that the bulk of the bullion and sovereigns, as well as much of the silver disappears.

The Cubs were certainly in right in having Roger Bresnahan on the job during Jimmy Archer's absence from the lineup on account of injuries. Roger has been doing the bulk of the backstopping for the O'Day outfit and doing it in grand style.

Luxurious accommodation—splendid meals—modern safety equipment have made the R.M.S. Royal Edward R.M.S. Royal George deservedly famous among ocean travelers. For booklets, write
