

Peace Hath Her Victories

no less renowned than War—and chief among the victories of a peaceful and well ordered civilization is

SHREDDED WHEAT

the cleanest, choicest product of the highest of all human pursuits—the tilling of the soil—a food that supplies all the body-building elements in the whole wheat grain. Shredded Wheat is an evangel of peace and health—a builder of sturdy, robust men and women fit for the day's work. Always the same price, always the same quality.

Two Shredded Wheat Biscuits, heated in the oven to restore crispness and eaten with milk or cream, will supply all the nutriment needed for a half day's work at a cost of not over four cents. Deliciously nourishing and satisfying for any meal with fruits or creamed vegetables.

WOULD RATHER DIE THAN DENY FLAG

British newspapers contain a description of the trying experience of a Canadian lady, who showed a noble and patriotic spirit in most trying circumstances. She and two other ladies were travelling together. After having succeeded with difficulty in getting from Innsbruck they got passports from the British Consul there. "We then started out for Switzerland," she said, "but at Lindau, on the Lake of Constance, close

to the Swiss frontier, we were ordered to get out and were detained in the railway station refreshment-room. That was last Friday, August 14. We were detained in the refreshment room for eight hours. Seven other British subjects were with us. There was plenty to eat for those who had the money to pay for it, and, on the whole, we were kindly treated, although we were much alarmed when a Bavarian colonel came in in a great state of excitement and informed us that the French and Russians were behaving to the countrymen like wild beasts. After we had been detained for eight hours we were told that the women could go but that the men of military age would have to remain in Lindau. I and my companions got away, but two English ladies who were with their husbands declined to leave them. The party were not imprisoned; they were simply told to go to a hotel and remain there. What will become of them when their money is all gone I do not know. Our journey through Switzerland and France was a most unpleasant experience. We were six days on the journey, and all the time we had to stand in the gangways of the trains or sit on the luggage that was piled up in them. I have lost all my luggage, but I am thankful to have got back alive. I am only sorry now for those who were left behind. While I was in suspense I was strongly advised by friends to represent that I was a citizen of the United States, but I would rather die than deny my flag."

The Supreme Court of the United States has rendered a decision upholding the constitutionality of the Ohio law regulating the working hours of women.

BILLETED SOLDIERS GOING TO THE WAR

One aspect of the movement of the British Army to France was the renewal of the custom of billeting the troops upon householders. In the early history of the Army soldiers were quartered upon inn-keepers, and the inconveniences arising from this custom led to the building of barracks. In Europe troops on campaign seldom carry tents, the inhabitants of the districts traversed being obliged to give them lodging. This economical method of housing soldiers on passage has been adopted in England, apparently with pleasant results in making the people acquainted with their defenders. During the week of the embarkation of officers asked private residents in London suburbs to billet soldiers on the march for a night or two. In most cases the application was willingly, even joyously acceded to. Everyone was ready to accommodate Tommy Atkins or an officer, and there was no difficulty in obtaining the lodgings required for the men during the passage through the district. The householder, however, often was puzzled as to what billeting involved, what bedrooms the soldiers would want, how he should be fed, how he should be treated, as one of the family or as a distinguished guest. Sometimes, according to a correspondent of one English newspaper, a kind-hearted woman would ask in a confidential tone whether she would have to provide sleeping garments and pocket money for the soldiers. In many cases they were almost pampered by the housewife, who regarded it as an honor to be asked to entertain a soldier "going to the war."

WORDS OF CAUTION

(Continued from page six.)

existing forces, the Royal Navy and the Regular Army, have proved ready and are in position. But a new army has to be created and the Navy has to be strengthened.

If the first great conflicts, for nothing that has yet happened has been more than a prelude, are favorable, to the allies of England, great exertions will be needed to follow up and reap the benefits of a first success. If fortune should be less favorable a gigantic struggle will be needed to make good the ground lost. The first decisions cannot be many weeks distant; but the war will hardly be short. The issues are so great that neither side will yield so long as the possibility of further efforts remain.

In short, there is every reason to avoid showing an excited, feverish temper, unreasonably exhilarated if the day's news seems favorable, unnecessarily depressed if it seems discouraging. Steady, cool-headed persistence is needed.

If weather should
prove unfavorable
it will be held following fine day

MANY MORTGAGED FARMS

Nearly Half Ontario's Agricultural Land Encumbered But Not Unduly

About 15 per cent. of the total value of the farm property in Ontario is mortgaged, according to a statement appearing in the report of the provincial Minister of Agriculture. The conclusion was arrived at as a result of a canvass undertaken by the district representatives of the Department, who found that 45 per cent. of the farms were mortgaged, and one third would be a fair estimate of the amount of the mortgages.

This financial survey of farm conditions, as it might be called, was ascertained under the following heads: (1) The percentage of farms mortgaged, per cent. of mortgages in value of farms, and whether increasing or decreasing; (2) the extent of deposits by farmers in saving banks; (3) the extent of the demand on the part of farmers for loans; (4) rate of interest paid on both long and short-dated loans; (5) whether the loans were on the purchasing of land only or for financing farm operations.

Bankers, business men, lawyer, registry office officials and prominent farmers were relied on for the information gathered, and the answers are considered reasonably reliable.

There seems to be a unanimous view that mortgages are decreasing in number. A proportion of the mortgages, it was ascertained, were taken to enable speculation in western real estate.

With regard to deposits, it was stated that these have materially increased in recent years. One county estimated a 20 to 30 per cent. increase; another 70 to 90 per cent. another 75 per cent. No accurate figures could be given of the total amount of farmers' deposits, but from estimates furnished from the different counties, it is assumed that the farmers of Ontario have one hundred million dollars at their credit and that the farm wealth of the Province is valued at \$1,405,950,940.

Eliminating Scale in Boilers

It is needless to state that the accumulation of scale on boiler heating surfaces resists the transfer of heat, and therefore acts to reduce the efficiency of steam production. Water contains two kinds of scale-forming "hardness"—temporary and permanent. The temporary hardness consists principally of the carbonate of lime and magnesia, and can be largely eliminated by raising the water to a temperature of about 190 degrees in an open vessel to allow the escape of carbonic acid gas. An open type of feed-water heater with ample depositing and filtering arrangements is often the simplest solution. For neutralization of the permanent hardness, implying the presence of sulphates in the water, it is usual to resort to chemical purification. Special apparatus are available which are capable of combining the two operations for both kinds of hardness. Permanent hardness may also be reduced by duplicating a part of the action of the boiler itself, by the use of a closed purifier in which the feed water is subjected to a high temperature under pressure. These are questions involving chemical determination together with the best advice obtainable.—Engineering Magazine.

A Democratic Statesman
M. Giolitti, former Prime Minister of Italy, is a statesman who follows the simple life. He has lived for twenty years in the same modest house, and neither he nor Mme. Giolitti ever goes into society. When Mme. Giolitti needs a change of air she takes a room in an unpretentious country "pension" which charges only \$1.70 a day; and when M. Giolitti joins her for the week-end he never fails to invite the local doctor and the local schoolmaster to join him in a rubber of whist.

Modern Life-saver

Of European invention is a new life-boat for ocean going vessels that will right itself if capsized and carry 100 persons and which is equipped with a gasoline motor and wireless apparatus.

Fast Time on One Wheel

A speed of nearly 75 miles an hour was attained by a unicycle built by a St. Louis inventor, the machine consisting chiefly of a single wheel almost seven feet in diameter, drawn by an aerial propeller.

Wealth In Frozen South

One small strip of the coal fields discovered in the antarctic continent contains as much fuel as the unworked fields of Great Britain.

Unbreakable Tumbler

A projecting ring mould around a new type of tumbler a short distance below the top prevents the edge chipping if the tumbler is upset.

CLASSIFIED

Girl Wanted

Girl Wanted for general house work Apply to
MRS. F. L. CREED,
428 King St., Fredericton.
Telephone 549-22.

wanted

A first class female teacher for school district No. 4, Parish of Dumfries, York County. Apply to GEO. F. BURDEN, Pelsok.
d-tt

To House Keepers

If you have furniture in need of repairs or upholstery to be done, can attend to it for you promptly and satisfactorily. I also lay carpets and linoleums. Orders for tents and awnings promptly attended to. If you require anything in my line give me a trial. Tents to hire.
Telephone No. 139-21.

JOSEPH DESAULNIERS

186 Queen Street

Prepare for Winter

Don't forget that I will fix your cellar walls, top out your chimneys patch your ceilings or attend to any masonry work that you may wish done, at reasonable prices. Have the work done before the cold weather sets in. Lowest estimates given on application. Call or write.
G. W. HOLMES,
192 Northumberland Street
Orders from the country promptly attended to.

Board of Trade

The regular monthly meeting of the Fredericton Board of Trade will be held in the rooms on Queen Street, on Monday evening September 14th, at eight o'clock.

H. S. CAMPBELL,
Secretary

Fredericton, Sept. 9, 1914—3 ins.

For Sale

One 6 h.p. Gasoline Engine, one 20 in. Dimension Planer, one Saw Table, with saws on emery wheel, one Sand Drum, all in first class condition, complete with shafting, hangers, pulleys and belts, for \$250. May be seen working at B. S. Moore's Campbell street.
1 w., d. & s-m.

Wanted

Young men earning less than \$70 monthly to take a Course in Railroad Telegraphy, Freight, Ticket and Baggage Instruction, which will enable us to secure you a steady position as Telegrapher or Agent on Canadian Pacific, Grand Trunk Pacific or St. John Valley Railways, with an increase in salary and splendid opportunities for advancement. Our equipment, 275 feet of miniature Railway Track, Trains, Stations and Signals, etc, which cost us over \$400. We will give you a \$75.00 Course in Freight, Ticket and Baggage Instruction FREE, providing you enter Fall Term Sept. 1st to 15. Write for Calendar, explaining full particulars.

GREAT TRANS-PACIFIC SCHOOL OF TELEGRAPHY AND RAIL-ROADING

W. T. Little,
Cor. King and York Sts,
FREDERICTON, N. B.

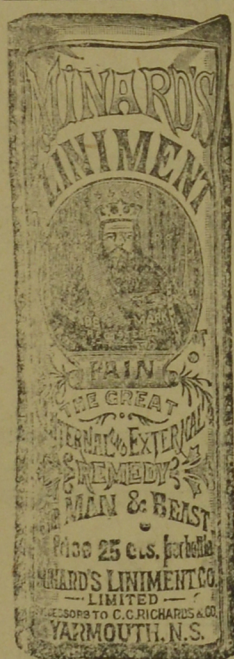

For Home Defence

Men wanted to enlist in "E" Company, 71st Regiment for home defence. Also for foreign service.
F. A. Good, Captain.

OVER 25 YEARS' EXPERIENCE PATENTS

TRADE MARKS DESIGNS COPYRIGHTS & C.

Anyone sending a sketch and description will quickly ascertain our opinion free of charge. Invention is promptly patented. Communications strictly confidential. HUNN & Co. Patent Agents, 363 Broadway, New York.
Branch Office, 615 St. St. W., Fredericton, N. B.

The Original and Only Genuine

Beware of Imitations Sold on the Merits of Minard's Liniment

Taxidermist and Tanner

Take Notice that I am still in the Taxidermist Business in Fredericton and am better equipped to handle your work than ever. Having my office and work-shop combined at Campbell St., all work is done under my own personal supervision and I can guarantee the very best work in all branches of the trade.

All duty paid on all American work.
