

## "THE ONE THING THAT DOES ME GOOD"

At 60 Years Of Age, Gin Pills Give Me Perfect Relief"

As one begins to get along in life, the vital organs grow less active and need assistance. Men and women of 50, 60 and 70 should read the following letter very carefully. It points the way to a happy, healthy old age and long life.

E. G. WOODFORD, Consulting Mining Engineer,  
29 BROADWAY, NEW YORK. 50 BROAD STREET HOUSE, LONDON.

"Bought some of your GIN PILLS at Victoria, B. C. last September. I made inquiries in New York on my arrival there but was unable to obtain any information about them. Your remedy, I find at 60 years of age, to give me perfect relief and I regret very much that you have not made arrangements for supplying GIN PILLS to the British Public."

Perhaps you are 60 years of age. Perhaps your kidneys are troubling you. Perhaps you have Pain In The Back or trouble with urinating. Do just as Mr. Woodford did—get GIN PILLS—keep a box always on hand—take them whenever you feel that the kidneys need help. You will find an occasional GIN PILL will keep you in perfect health and free from pain and discomfort. 50c. a box, 6 for \$2.50. Write for free sample and give GIN PILLS a trial before you buy them. Address National Drug and Chemical Co. of Canada Limited, Dept. B.N. Toronto.

P. S. Since receiving the above letter from Mr. Woodford we have completed arrangements for supplying GIN PILLS to the British Public.

MANGA-TONE BLOOD AND NERVE TABLETS build up the system and purify the blood. Ask your druggist. 50c. a box.

## GAME PROTECTION IS COSTLY UNDER FLEMMING GOVERNMENT

Forest, fire and game protection last year, exclusive of forest fires, cost the province the enormous sum of \$26,518.79. The province is divided into four districts, each of which is in charge of a chief warden, who is paid a salary of \$800 and travelling expenses. Not being required to give their whole time to the work, the chief wardens have a pretty soft time of it. The chief warden for District No. 3, which includes the Counties of York, Sunbury, Queens and St. John, is Mr. W. J. Dean of Musquash, a parish politician, who knows about as much about game and game conditions as a grey goose knows about wireless telegraphy. It is not shown by the auditor's report that he drew any travelling expenses last year, so it is to be presumed that he remained at home for fear of getting lost in the woods. For protecting the game of his district, however, he managed to expend on wardens the sum of \$4,421.

In the district comprising the counties of Kent, Albert, Kings and Westmorland, where so much game was alleged to have been killed, the chief warden apparently did some travelling as his bill for expenses amounted to \$372.44. This was more than three times the amount paid to Chief Warden Dennis Doyle, who has charge of the North Shore district, the largest and most important in the province.

As before stated the warden for district No. 3 had no travelling expenses, but the head warden for Charlotte, Carleton, Victoria and Madawaska charged the sum of \$184.85.

The aggregate amounts paid to the wardens in the four districts was as follows:

District No. 1.....\$7692.70  
District No. 2.....3592.17  
District No. 3.....4421.00  
District No. 4.....6926.00

\$22631.87

This is exclusive of the salaries and travelling expenses of the four chief wardens.

The detailed expenditure in the counties of Charlotte, Carleton, Victoria and Madawaska was as follows:

J. H. McGibbon, salary \$800; John McGibbon, travelling expenses, \$184.85; Menoch Martin, 136 days, \$238; Seymour Trafton, 183 days, \$320.25; Hugh Boles, 183 days, \$366; Thomas W. Letson, 33 days, \$57.75; Germain Toubart, 207 days, \$362.25; Berton McGowan, 58 days, \$101.50; G. H. West, 68 days, \$119; W. G. Mahoney, 18 days, \$31.50; John Mcleer, 134 days, \$201; J. E. Rankine, 176 days, \$308; Wm. J. Vasseur, 213 days, \$372.75; Jos. Dominique, 53 days, \$92.75; Thos. M. Lewis, 181 days, \$316.75; W. G. Mawhinny, 32 days, \$56; G. W. Slipp, 202 days, \$353.50; Arsen Demerchant, 84 days, \$147; T. W. Ferguson, 178 days, \$311.50; Michael Parent, 287 days, \$502.25; E. P. Michaud, 177 days, \$309.75; J. H. Lee, Jr., 224 days, \$392; Henry Gilmore, 77 days, \$134.75; George E. Gough, 121 days, \$211.75; Thos. Gleason, 32 days, \$56; George Guthrie, 26 days, \$45.50; Pierre Racine, 98 days, \$171.50; Peter Burgess, services one year, \$75; William Hewitt, services one year, \$25; Alfred Bell, Sr., services one year, \$25; H. C. Trynor, services one year, \$100; Albert Plummer, services one year, \$25; Leslie Kennedy, services one year, \$25; J. E. Shepherd, services (2 years) \$50; John Porter ser-

## FARMERS' PARLIAMENT CONCLUDES ITS WORK

Mr. Louis H. Smith of Albert Co. President for Ensuing Year--Demand Representation in Legislature

The election of officers last night brought the proceedings of the thirty-sixth annual meeting of the New Brunswick Farmers' and Dairymen's Association to a close. Mr. Louis H. Smith of Albert County, was elected president and on taking the chair, relinquished by Col. H. Montgomery Campbell, in a brief speech thanked the members for the honor conferred upon him. The resolutions which were passed contained matter of great importance to the farmer, government assistance being asked for.

Beef Production in the Maritime Provinces, was the subject of discussion at the evening session. It was generally recognized that as far as beef is concerned the eastern provinces are not so well situated as they were some years ago. Deterioration of cattle was assigned as the reason, and improvement of breed by the importation of Shorthorn bulls was strongly urged.

The "scrub" bull was strongly condemned. T. W. Butler of Newcastle, advocating that the province empower game wardens to impound such animals if found at large and to fine the owners, or in extreme cases, to sell the animals.

Raising and breeding of cattle of one breed in any one section was advocated. Fall calving was held to be superior to spring calving, and improved stable accommodation for cattle urged.

To aid the beef raisers of the province to compete with the upper Canadian packing houses, the establishment by the government of abattoirs with cold storage plants in connection, was advocated.

The speakers were Prof. E. S. Archibald, of the Nova Scotia Agricultural College, Truro, and Ashley Green and Chipman Harper, of Sackville. At the close of the discussion a number of important resolutions were passed. Tomorrow morning and afternoon seed judging, under the direction of Prof. Cutler and B. J. Moore, will continue.

E. S. ARCHIBALD.

Prof. E. S. Archibald, discussing the question of "Beef Production in the Maritime Provinces," advised the purchase of half-finished stock and finishing it rather than taking less finished stock.

Taking up the question of stabling Prof. Archibald advised large amounts of glass in the sides of barns, light being the greatest disinfectant. There was more tuberculosis in the eastern provinces than was thought. Light was the great prevention of that disease. He also emphasized the necessity of good ventilation. A dry, cold stable well ventilated was healthful. He advised further the running of steers in a loose box. Exercise would not hurt cattle except in the finishing stages. If steers running loose hooked one another, dehorning should be adopted although personally the speaker did not believe in dehorning. If it were practised spring, winter or fall were all favorable seasons. Dehorning should not be done in the fly season.

Speaking of feeding, the speaker said that cattle must be well fed during the winter to produce favorable results. Straw and coarse hay without lots of turnips were useless. With turnips steers would probably winter without losing weight but there was no reason why steers should not gain during the winter. Clover hay could well be used as feed and it would also pay to feed grain. Cattle should not be allowed to go back for one day as it took four to make up the loss.

Dealing with finishing, Prof. Archibald said that with grain at present price, it would not pay to feed more than five or six pounds of grain a day.

The speaker said that if power or labor was available, it would pay to chop straw and rough hay and to pulp turnips as such operations saved the animals work. He advised turning off the steers at three years on the average. Two-year-old beef-heifers were equally profitable as steers, although it was usual to keep them for breeding purposes. He would advise strongly having cows calve in the fall, particularly from the view of the dairyman. A fall-calving calf was usually twenty-five per cent. cheaper to raise than the spring-calving calf.

CHIPMAN HARPER

Mr. Chipman Harper of Sackville

vices (18 months) \$37.50.

The scale of wages for wardens seems to vary according to the locality. The rate in District 4 ranges from \$1.75 per day to \$25 a year, while in York the maximum is \$2 and the minimum \$1.50. It is presumed that the men who work for \$25 a year are given exclusive jurisdiction over the game which frequent apple orchards.

## DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy will Bring Back the Natural Color

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be restored to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

For Sale and Recommended by GEORGE Y. DIBBLEE, Druggist, Opposite City Hall. Special Agent.

ROD AND GUN FOR MARCH

"An Experience Off the Coast of Newfoundland: Hunting the Hair Seal" opens the March issue of Rod and Gun in Canada, published by W. J. Taylor Limited, Woodstock, Ont., and the interest of this article is a criterion of the interest of those that follow, which include articles descriptive of outdoor life from the Atlantic to the Pacific. Among these is the first of a series of articles on the Culture of Black and Silver Foxes, which should prove of value to the many seeking practical information on this subject. A new feature this month in the creation of a Game Conservation Department edited by Mr. Frank Hyde, wherein matters pertaining to the subject of game conservation will be freely discussed. As this subject is a live one at the present time and is likely to be for some time to come, or until the improved laws for which good sportsmen are agitating have been enacted, this department should prove of exceptional interest.

Miss Pearl Mitchell who has been undergoing an operation for appendicitis at Victoria Hospital will return to her home this week.

Mr. Frank Johnston returned on Saturday from St. John where he has been spending a week.

Mr. T. W. Butler of Newcastle, depreciated the jumping from one breed of cattle to another. The "scrub" bull also constituted a problem which must be grappled with sooner or later. The power to deal with the problem should be made provincial. Game wardens should be empowered to impound the "scrub" bull, the owner of which should be fined and failing that the animal sold and the proceeds given to the nearest agricultural society. When the means of dealing with the problem was provided the "scrub" bull would disappear.

T. W. BUTLER.

Secretary W. W. Hubbard spoke strongly against mixing breeds in any one locality. Agricultural societies should attempt to harmonize interests and pursue some consistent course.

RESOLUTIONS.

Resolutions were then considered. A resolution calling upon the provincial government to import Short-

(Continued on page three.)

The Weak, Lame, Aching Back Comes From The Kidneys.

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

On the first sign of backache Doan's Kidney Pills should be taken immediately so as to avoid years of suffering from kidney trouble.

They go right to the seat of the trouble, heal the delicate membranes of the kidneys and make their action regular and natural.

Mrs. Joseph Throop, Upper Point de Bute, N.B., writes:—"I cannot speak too well of Doan's Kidney Pills. For two years I was so tired life was a burden, and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I don't know what it is to be tired, and my lame back is all gone. I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
