#### WUULD COUGH SO HARD Would Turn Black

In The Face.

A cough cold is one of the most danger-ous kind. It leaves the throat or lungs, and sometimes both, affected if not taken care of immediately.

Obstinate coughs and colds yield to the grateful soothing action of Dr. Wood's Norway Pine Syrup, containing as it does all the lung healing virtues of the Norway pine tree.

Mrs. C. J. Selig, Dartmouth, N.S., writes:—"My little boy, six years old, had a dreadful, hard cough. At night time he would cough so hard he would turn black in the face, and at times he would cough nearly an hour before he would stop. I tried different cough syrups, but they did him no good. The little fellow was wasting away, as he could not eat or sleep, the cough troubled him so. I got a bottle of Dr. Wood's Norway Pine Syrup, and it did him so much good I got another. Now I am only too glad to be able to write this to tell how thankful I am, and to tell every mother to use nothing else."
