

FREE OF ALL THREE DISEASES

"Fruit-a-tives" Brought Him Perfect Health

AVON, ONT., May 14th, 1913.
"I am younger since I have been taking 'Fruit-a-tives'. I was troubled very badly with Piles, Constipation and Stomach Disorder, but I found 'Fruit-a-tives' was the panacea for the whole trouble."

Now I am free of all these diseases and enjoying perfect health, and able to work whenever I like. Five years ago, I started taking 'Fruit-a-tives'. I took two every night and they worked wonders for me.

No other medicine I could get was so good and I took lots of different remedies before I found out how good 'Fruit-a-tives' were.

I keep 'Fruit-a-tives' on hand all the time, and am never without them. I even take them with me when I go motoring, so I can have them handy. 'Fruit-a-tives' are worthy of every good word I can say about them. The fact that they cured me of Piles, was something to be everlastingly thankful for."

GEORGE LAUR.

SONNET TO SIR HOWARD DOUGLAS

Sir Howard Douglas, well beloved name,
Our brightest, blackest page is linked with thee,
When raged the fearful fire of the Miramichi
Filling the land with livid, lurid flame,
The good Sir Howard to the rescue came.
In that dark hour of driest misery
Throughout the ravaged region trvel-
ed he
And recognized a stricken people's claim
To all the aid his helping hand could give.
Long shall the record of his kindness live
With those who dwell beside the Miramichi,
Nor should New Brunswick's University
Forget her founder in the old brave days
When men did good for God and not for praise.
Renous River, N. B.

Toronto, Globe.—The momentum grades approved in the Gutelius Staunton report on the National Transcontinental are all to be cut out except the one on which Messrs. Lynch-Staunton and Gutelius are sliding to oblivion.

CONAN DOYLE LIKES THE WEST

(Montreal Herald.)

Mr. H. R. Charlton of the Grand Trunk Railway system, returned to Montreal yesterday after having accompanied Sir Arthur Conan Doyle and Lady Doyle to Western Canada. The party travelled from New York in the Grand Trunk official car "Canada" to Sarnia, where the S.S. Harmonic of the Northern Navigation Company, was taken across Lakes Huron and Superior to Fort Williams thence in the official car "Canada" to Winnipeg and Jasper Park, over the Grand Trunk Pacific. Both Sir Arthur and Lady Doyle were much impressed with the trip and expressed themselves as delighted with the journey. At Sault Ste. Marie a visit was paid to the Algoma Indian School, also to the old Block House, and the locks used by the early voyagers en route to the west two hundred years ago.

On arrival at Fort Williams a trip was made around the Mission terminals of the Grand Trunk Pacific and the harbors of Fort Williams and Port Arthur.

An interesting coincidence happened on arrival at the Grand Trunk Pacific terminals at Fort Williams. While the party was standing on the deck of the steamer, a large bull moose emerged from the forest about a quarter of a mile distant, and remained in plain view for about fifteen minutes, giving the distinguished visitors an opportunity of seeing some of the wild life of our Canadian forests.

At Winnipeg the party stopped at the Fort Garry and Mr. Charlton states that they were very much impressed with this magnificent hotel. Sir Arthur expressed his opinion that it was the finest hotel that he had yet seen in America, not only as to its architectural beauty and interior furnishings, but for its splendid service.

The party are now camping in Jasper Park, and expect to leave for the east on June 20th. Before sailing for home Sir Arthur will speak before the Canadian Club at Ottawa, on July 2nd and will be in Montreal on July 3rd, sailing by S.S. Megantic on July 4th.

On the return journey they will also visit Algonquin Park, Toronto and Niagara Falls.

BIG SURPRISE TO MANY IN FREDERICTON

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the German remedy which became famous by curing appendicitis. Mr. George Y. Diblee states that this simple remedy draws off such a surprising amount of old foul matter from the body that A SINGLE DOSE relieves sour stomach gas on the stomach and constipation INSTANTLY.

DAUGHTERS OF THE REVOLUTION

Minneapolis, Minn., June 16.—After several days occupied with preliminaries the general society of the Daughters of the Revolution this morning began the regular sessions of its twenty-third annual convention. The proceedings were opened at 11 o'clock with an address of welcome by Mrs. C. M. Woodham, the Minnesota State regent. Response for the visitors was embodied in the address of the president-general, Mrs. Clarence L. Bleakley of New York. Reports of officers and committees and other routine business occupied the remainder of the day. The society will elect its general officers tomorrow.

THE WRONG PLACE

Senator Elihu Root, of New York, smiled the other evening when the conversation in a Washington club turned to summer outings. He was reminded, he said, of the experience in arranging for her vacation. He spent the previous summer in the mountains, stopping at a licensed hotel, but owing to the bar-room she decided that on her next visit she would go to another town close by.

"I am thinking about spending a month or so in your town this summer," she wrote to the proprietor of a hotel that had been recommended to her. "Kindly give me your rates, and also tell me if you have a bat." One week, and then came a letter from the schoolteacher stop, look and listen. "We have no bat," the letter tersely ran. "The place for you is at Murphy's further up the road."

THE GREATER PROBLEM

The conversation at a recent social affair ran to great problems when Congressman Samuel A. Witherspoon, of Mississippi, was reminded of the question of a learned professor.

The professor in question was instructing a class in natural philosophy, and during the lecture he paused and impressively looked at the class.

"If a hole were bored through the centre of the earth from side to side," said he, "and a ball dropped into it, would it come to a state of rest?"

"Pardon me, professor," interposed a young man "will you permit me to ask what I consider a greater question in that connection?"

"Certainly," was the prompt response of the professor. "I am very glad to have you ask any question."

"What I want to know is this," smiling returned the young man, "how are you going to get that hole through?"

John Walker of Newmarket, N.H., has bred Grace Elred, 2:14½ to Barling, 2:12½.

Claude Rossman, left fielder of the Minneapolis American Association baseball team, 33 years old today.

Newsy Paragraphs From British Isles

At a meeting of the Surrey County Council the surveyor said the roads of the county were not intended for and could not endure such traffic as motor lorries and motor buses. For the future he suggested that a thick asphalt bed be laid on the roads. This recommendation was adopted.

Gift of a Lion

The Dundee Free Library Committee decided to accept from Sir Thomas Dewar a black-maned lion and other specimens of the fauna of British East Africa. Sir Thomas shot the lion in the fly country in British East Africa, 200 miles from Nairobi.

Old Man Dies of Grief

Mr. and Mrs. Allen Baynes, who had been married sixty-one years, died on successive days at Wimbish, Essex. Mrs. Baynes died first, and her husband's death was hastened by grief. He was eighty-seven years old, and his wife was a year younger. He had been employed for sixty-two years at a neighboring farm. They were buried together on the same day.

Biting Tongue Death

At an inquest at Surrey on a fifteen-months-old child, John Harding, it was stated that he stumbled while playing and bit his tongue. Bleeding continued intermittently until he died. A verdict was returned that the boy died from exhaustion due to loss of blood after accidentally biting his tongue.

Six Cycles Mystery

At Brighton a man named Edward Hartnapp, who carried on business as a bicycle repairer, was charged with stealing and receiving six bicycles, the property of various people. The machine had, in each case been removed from outside premises, the whole number being traced to the accused's shop, where they had been taken to pieces.

Ramsgate's Loss

The Elder Brethren of Trinity House announce that the Ramsgate depot is shortly to be closed and the duties distributed under a scheme which has already been drawn up. This has caused great surprise in Ramsgate. The decision involves the removal from the town of seventy-five families and about 300 persons, and a trade loss of \$35,000 a year.

Fire Alarm Comedy

Outbreaks of fire at Grimsby Docks are notified by the sounding of a steam siren. When a policeman heard the buzzer he rushed to the telephone and turned out the fire brigade, a couple of motor engines raced to the docks, and the men spent half an hour looking for a fire which did not exist. The officer had mistaken the buzzer for an incoming Hamburg mailboat for the fire-call.

Fever-stricken Families

A serious outbreak of scarlet fever is reported from the Ballymoe district of North Galway. In the case of a family named Fannon, the mother succumbed, and the father and six children were removed to the Glenamaddy Workhouse Hospital. In another case of a family being removed to hospital, a girl of eight years died on the journey. The schools of the district are closed.

Eulogy of First Wife

An objection by a second wife to her husband's "in memoriam" compliments in a local newspaper to her predecessor was mentioned in a case before the Birmingham magistrates, when the second wife applied for an increase in her allowance under a separation order. The magistrates declined to vary the order, but the defendant promised not to insert any more notices.

Foxes Kill Swans

Foxes have apparently been responsible for depredations among the swans in Llanthgoch Loch. Recently the bodies of two of these beautiful birds were found dead, their necks being torn. The Keeper of the Peel had them buried in his own garden, but they were not allowed to lie long. Two nights afterwards the fox, apparently scenting the birds from the spot where they had been laid just before being buried, dug up the carcasses and made a meal of them.

Rescued Sailor's Mean Trick

A Liverpool sailor, Alfred Dale, played a mean trick upon the rev. Harry Morgan, rector of St. Brice's, Pembrokeshire, who had clothed and

fed him. Dale was one of a crew of four of a ketch that foundered in the bay in the gale. The mariners were saved, and were housed by the rector. But after they left he found that a pair of boots were missing. The stolen property was traced to Dale who appeared before the Haverfordwest magistrates. He pleaded guilty, saying he thought the boots were better than his. The chairman said it was a poor return for such kindness, but, as the prisoner had been in custody over Sunday, he would be discharged.

Harry Lord, who recently "blew" the White Sox, is figuring on buying an interest in the Portland club of the New England league. It was while playing with Worcester in the same league that Harry first attracted the attention of big league scouts.

Grinds His Own Flour

An old gentleman, Francis Harrison of the Isle of Wight, wrote a letter to the newspapers (of England) saying that he had ground wheat for thirty years in a little steel mill of his own and that his wife had done the baking. He was in his seventy-fifth year. He said: "And this explains why my wife and I are so hardy."

"Where did you get that mill?" all England roared. "Good Lord!" he told the reporters, "I can't tell where I got it. Think I bought it somewhere in London, but 'twas more than a generation ago. It cost me only two pounds but it has been worth a fortune to me. I was regarded as a frail youth. I had no digestion, my hair was brittle and I was cranky. Whole wheat flour soon put me to rights."

The Bread Reform League has taken the subject in hand and the cry in England is not for meat but for whole wheat bread."—Daily Record.

But you don't have to buy a mill and go to all the trouble of grinding YOUR flour.

In

Grape-Nuts

---ready to eat from the package, and delicious---
you have a far more perfect food than bread.

In Grape-Nuts one has all the nutriment of whole wheat plus entire barley, including all the vital mineral phosphates of these grains, so essential for proper balance of body, brain and nerves.

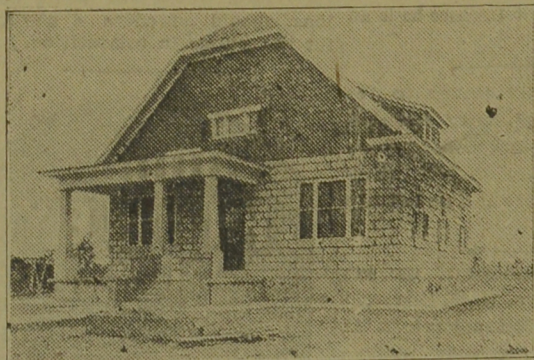

Grape-Nuts, because of long skillful baking, digests easily and quickly—generally in about one hour; white bread requires about 3 1-2 hours.

A ration of Grape-Nuts with regular meals goes a long way toward putting one "to rights."
