(To be Continued Tomorrow)

HOOVER POTATO DIGGERS

Note the improvements for 1914

Steel Sides—making machine lighter and stronger
Steel Sprockets—smaller sprockets and agitators are steel.

Steel Pitmans with wood bushings
--better than old style wood.

Dust Proof Roller Bearings in nearly
all gears and agitators, making a wonderful difference in draft.

Rod or Riddle Elevator.

For years the Hoover has been "The Potato Digger" and the wonderful demand this year proves that it still holds foremost place.

When you buy a Hoover you are not taking chances. It will do the work under all conditions.

Remember, we make a specialty of furnishing repair parts promptly.

J. Clark & Son Ltd.

Select your clothing from the standpoint of its
Wearing Quality

It is the only thing worth while in clothing and it is the one point which makes MacKINNON'S CLOTHING such a favorite with every man who has once worn it.

PERSISTENCY IN ADVERTISING

One stroke of a bell in a thick fog does not give a lasting impression of its location, but when followed by repeated strokes at regular intervals the densest fog, the darkest night can not long conceal its whereabouts. Likewise a single insertion of an advertisement—as compared with regular and systematic ADVERTISING—is in its effect not unlike a sound which, heard but faintly once is lost in space and soon forgot—*Printing Art.*
