

Peps What are they?

Peps is the name bestowed upon a new scientific preparation put up into tabloid or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles.

Did it never occur to you as peculiar that when you have a cough or a cold, or any chest trouble, you should apply medicine—not to your lungs, but to your stomach?

Look at it the other way round. Suppose you suffered from some stomach complaint—indigestion or ulceration. How strange you would think it if you were asked to take a medicine which had to be breathed in, and which went—not to your stomach, but to your lungs and breathing passages?

Peps—this newest remedy for coughs, colds, and lung troubles—go to the lungs and breathing tubes, direct. Peps are really pine fumigum and certain highly beneficial medicinal extracts specially prepared by a new scientific process and then condensed into tabloid form. It is like making a breathable solid!

You put a "Pep" on your tongue and let it dissolve. As it does so, the healing essences it contains turn into vapor, and you BREATHE them direct to your lungs and air passages!

Just as the out-door treatment for consumption—the "breathing" treatment—is now admitted to be the only rational treatment, so the "Peps" treatment for colds and lung troubles is the only rational home treatment.

Peps cure catarrh, coughs, bronchitis, sore throat, tightness or aching across the chest, difficulty in breathing, night cough, hoarseness, asthma, laryngitis, smoker's throat, etc. Best for children, because free from opium, morphine, or any poison.

All druggists and stores sell Peps at 50c. a box or 3 for \$1.25.

FREE TRIAL

Cut out this article, write across it the name of this paper, and mail it to Peps Co., Toronto, or 52 Princess Street, Winnipeg, enclosing 1 cent stamp to pay for return postage. A free trial packet of Peps will be mailed you by return. If you have a friend suffering from a cough, cold, or any throat or lung trouble, hand this on.

JEWISH FARMERS' WEEK.

Woodbine, N. J., Feb. 24—The federation of Jewish Farmers which has a considerable membership in New York, New Jersey, Connecticut, Massachusetts and several other States is holding its annual "farmers' week" gathering here. The programme provides for lectures on poultry, dairy, and feed crop topics, as well as extensive laboratory and demonstration work.

NEWS FORECAST FOR COMING WEEK

Washington, D. C., Feb. 22—Public affairs and much private business will be suspended throughout the nation Monday in tribute to the memory of George Washington and in celebration of the anniversary of his birth. In many cities throughout the country the day will be marked by banquets at which eminent speakers will be heard.

The United States Supreme Court when it reconvenes Tuesday after a three weeks' recess, will be the center of interest for the business world, owing to the probability that it will at that time hand down decisions in some of the important cases it has had under consideration and which are of vast importance to the railroads and the industrial interests.

During the week thousands of visitors will gather in New Orleans for the annual Mardi Gras festivities in that city.

An event of interest to the Catholic world will be the consecration of Rev. Henry Althoff as bishop of Belleville, Ill. The ceremony will take place Tuesday in the new cathedral in Belleville.

An annular eclipse of the sun is to take place Tuesday. The phenomenon will not be visible in North America, since the path of the annulus lies wholly in the Antarctic and South Pacific Oceans.

The Britannic, one of the largest vessels ever built, is scheduled to be launched Thursday at Belfast. The ship will enter the transatlantic service of the White Star line.

Under the auspices of the American section of the International Association on Unemployment and the American Association for Labor Legislation a national conference on unemployment is to be held in New York City Friday and Saturday.

Another convention of the week will be annual meeting of the department of superintendence of the National Education Association, which will assemble in Richmond, Va., on Monday for a session of five days.

USES OF ONE TREE

The most marvelous tree in the world is the Carnahuba palm, which grows in Brazil. Its roots produce the same medicinal effect as sassa-parilla. From parts of the tree wine and vinegar are made. Its fruit is used for feeding cattle. Of the straw, hats, baskets, brooms and mats are made. It is also used for thatching houses. The pulp has an agreeable taste, and the nut is sometimes used as a substitute for coffee. Its stems afford strong light fibres, and serve also for joists, rafters and other building materials. It yields a saccharine substance, as well as a starch resembling sago. Of the wood of the stem musical instruments, water tubes and pumps are made. From the stem a white liquid similar to the milk of the coconut may be extracted. Moreover, salt is extracted from the tree, and likewise an alkali used in the manufacture of common soap.

ANTISEPTICS IN AUSTRALIAN BLUE GUM PROVE A CURE FOR BRONCHIAL CATARRH

Bad Cold in the Head, Throat Weakness and Catarrh Cured Quickly

MEDICATED AIR A MARVEL!

Catarrhazone is far superior to any internal medicine.

Its relief is almost instantaneous—just takes long enough to breathe its healing vapor into the lungs to give wonderful soothing relief.

Catarrhazone goes right to the tiniest cells in the lungs, carrying healing, soothing balsams to the places that are tainted with Catarrhal inflammation. A sneezing cold

is cured in ten minutes—a sore throat is healed and restored in an hour or two—chronic bronchitis is soothed away and quickly disappears—catarrh of long standing is invariably cured because Catarrhazone kills the germs that cause the trouble.

As a cure for Asthma and a preventive of Grippe, every doctor is delighted with Catarrhazone. One eminent throat specialist says: "If Catarrhazone is used two or three times each day you will never suffer from any disease of the head, throat, nose or lungs. This is good news to many of our require a safe, sure and permanent cure for their colds and winter ills. Every good druggist sells Catarrhazone, large outfit, \$1.00; small size 50c; trial size, 25c.

HOW LLOYD GEORGE HAS GIVEN HOPE TO ENGLAND'S WORKERS

(Continued from page two.)

cents) is made up as follows:

From the worker between the ages of twenty to sixty-five years, fourpence per week; from the employer: threepence and from the state twopence. In the case of women, the total contribution is one penny (two cents) less per week than the male, her proportion of the above amounts being only threepence.

ADVANTAGES NOT LIMITED.

Nor is the advantage to the worker limited to receiving ninepence worth of insurance for a fourpenny contribution. For the state is at the back of all the benefits and will never fail. Surely the working classes should have gone wild with delight.

The opposition that grew between the introduction of the act and its coming into operation was so powerful that no minister, save David Lloyd George, could have withstood it.

For today there are nearly fifteen millions secured against the disabilities of those who may succumb through lack of proper medical care in sickness, or sink for lack of food during unemployment or wither from lack of means in old age.

THE BENEFITS RECEIVED.

Health Insurance—Every insured person upon requiring it, receives medical benefit, sickness benefit, disablement benefit, maternity benefit, and what may be called additional varying benefits. The medical benefit includes free medical treatment and medicine and certain kinds of surgical appliances. The insured person has the choice of his own doctor from the panel of the doctors in his district.

The Sickness Benefit is a payment

of \$2.50 per week to men and \$1.90 to women up to twenty-six weeks in which the person is disabled by sickness.

If at the end of twenty-six weeks the beneficiary has not recovered, he or she draws \$1.25 per week during the rest of life, under the Insurance Act, up to seventy years of age; after that it is paid through the post office as an old-age pension.

The Maternity Benefit is a payment of \$7.50 to a woman toward the cost of her confinement, if she is either an insured worker herself or the wife of an insured worker. If she is both she gets \$15 maternity benefit.

UNEMPLOYMENT INSURANCE.

The insurance against unemployment is as follows:

All persons are guaranteed by the state payment of \$1.90 per week for fifteen weeks in the year in case they are genuinely unemployed for lack of work in their trades. (The highly organized labor exchanges enable the insurance commissioners to keep good track of this.) The greatest care has to be taken to guard this benefit from abuse.

Tuberculosis—There is no enemy more rightly dreaded by the working classes than the great white plague.

Under the Insurance Act provision has been made for the building of sanitariums in all parts of the country, adequate to treat properly all cases of consumption among those who come within its scope.

While the insured person is receiving treatment at the sanitarium, the sick benefits are paid in cash to those at home, so that not merely is the patient given a chance to fight his enemy in a proper environment and not merely is the danger of infection removed, but the home can be kept together. The results of this method will tell mightily in the next ten or twenty years.

Over 300,000 women have applied for and received the maternity benefit during the last twelve months and what that has meant in ease and comfort to those who above all others should have them at such a time can be imagined.

The act has proved an astounding success. The opposition to it is heard no more and if the government were turned out of office tomorrow that act will remain on the statute books.

AMERICANS IN BERLIN CELEBRATE

Berlin, Feb. 23—The American colony in Berlin joined today in holding the customary celebration in honor of Washington's birthday anniversary. The feature of the day was a dinner at which Ambassador Gerard presided. In addition to the ambassador the speakers at the function included Prof. Paul Shorey of the University of Chicago, and Consul General Robert P. Skinner.

There's a Reason For Aches and Pains

Often some unsuspected habit, such as tea or coffee drinking, is the root of the trouble.

The average tea or coffee drinker who suffers from sleeplessness, headache, indigestion, nervousness or heart trouble usually says, "Tea and coffee don't hurt me" until some day Nature hauls him up with a jerk.

It's poor business to trade health and a clear brain for a few cups of tea or coffee.

The pure food-drink

POSTUM

in place of tea or coffee, has put many a man and woman on the road to Wellville

Postum is made of prime wheat and a small portion of molasses. It has a delicious, snappy flavour, but none of the drugs, "caffeine" and "tannin" which make tea and coffee health destroyers.

If your own judgement leads to a trial of Postum, for, say 10 days, and you begin to sleep soundly, digest food better, and your nerves get steady, these signs of returning health will show

"There's a Reason" for Postum

Postum now comes in two forms.

Regular Postum—must be well boiled. 15c. and 25c. packages.

Instant Postum—a soluble powder. A teaspoonful, stirred in a cup of hot water, makes a delicious beverage instantly. 30c. and 50c. tins.

The cost per cup of both kinds is about the same.
