

WILSON'S INVALIDS' PORT
à la Quina du Pérou

WEAK LUNGS

During the Cold and Winter months many persons show a marked predisposition to inflammatory conditions of the respiratory organs, these people, at all other seasons of the year enjoy good health, their constitutions may in all respects apparently be sound, yet when cold weather arrives respiratory congestion occurs with almost absolute certainty. By using

WILSON'S INVALIDS' PORT 219

(à la Quina du Pérou) the patient will be spared the injurious effects of repeated respiratory congestions and lung stricture which pave the way for tuberculosis.

OPTIMISM PREVAILED AT BOARD OF TRADE DINNER

Upwards of One Hundred Present at Y. M. C. A. Hall Last Night--New Industries, More Population, Expanding Trade Foretold for Fredericton--Enjoyable Function Last Night

New industries, expansion of the residential portion of Fredericton, increase in population and development of railway traffic were a few of the forecasts made at the annual dinner of the Board of Trade last night. The dinner was held in the Y.M.C.A. Hall and was attended by upwards of one hundred men. A spirit of optimism prevailed and everything showed that in the Board of Trade Fredericton possesses a very live organization.

Grace was said by Ald. J. J. Weddall and the excellent repast served by the Ladies' Aid of St. Paul's Church was partaken of. After sufficient time had been devoted to that portion of the affair, those present were called to order by the president of the board, J. D. Palmer, and the toast list was begun.

PRESIDENT'S ADDRESS.

Mr. Palmer complimented the board upon the large attendance which was very commendable in view of the fact that the thermometer was hovering near twenty below zero. He also complimented the Ladies' Aid of St. Paul's Church upon the excellence of the dinner.

President Palmer reviewed the work of the Board of Trade, which began its existence in 1892. He paid a high tribute to those veteran members whose interest in its activities continued since that date.

Mr. Palmer mentioned the importance of Industrial Education. He had no desire to criticize the School Board but he thought that its members might well seek information before deciding upon the type of school building to be erected in the summer. The suggested that the opinion of Dr. J. W. Robertson should be sought was excellent.

Fredericton expected industrial expansion—industrial expansion and industrial educational go hand in hand. Mr. Palmer gave several examples of benefits obtained by different communities.

"The King" was received with the National Anthem.

George W. Brown was then heard in a solo.

MAYOR HOOPER.

Ex-President J. T. Jennings proposed "The City of Fredericton," coupling with the toast the name of Mayor Hooper. In proposing the toast Mr. Jennings forecasted a brilliant future for the city.

Mayor Hooper responded with an address in his usual vim. The next decade was to be the period of Fred-

erickton's expansion. No "grouchers" (laughter) were wanted. He forecasted the time when Fredericton would be the railway centre of New Brunswick. He also forecasted a city assessment of \$100,000 in 1914. The city was getting improvements and had to pay for them. Mayor Hooper prophesied a valuation of \$5,000,000 for the real estate of the city under the next valuation. His civic political career was nearing its close and he would finish it feeling he always had done his duty by the city.

Prof. Stiles was heard in some of his excellent humorous stories. C. H. Holder followed with a banjo solo.

VICE-PRESIDENT RANDOLPH.

"The Transportation Committee of the Board of Trade" was proposed by Ald. Farrell. The proposer, in an excellent address, referred to the popularity of President Palmer and expressed the hope that he, along with ex-President J. T. Jennings, would soon be occupying high positions in Fredericton's civic life.

Vice-President R. FitzRandolph responded with an address which showed a magnificent grasp of the transportation problems and advantages of Fredericton. He forecasted a bright future for this city as a jobbing centre, largely on account of more favorable freight-rates obtained through the efforts of the Board of Trade and through the railroad expansion that is taking place in this part of New Brunswick.

F. L. Cooper was then heard in a solo which was much enjoyed by the gathering.

FRED B. EDGECOMBE.

Ald. Moses Mitchell proposed "The Tourist Committee of the Board of Trade." That body, he said, was one of the most important of the subdivisions of the board. Ald. Mitchell referred to the housing problem which now confronts Fredericton. This problem, he thought, would soon be solved. The School Board already had made provision for expansion. A period of growth was ahead of the city. With the toast was coupled the name of Fred B. Edgcombe.

Replying, Mr. Edgcombe gave some interesting reminiscences of the organization of a Tourist Committee and of its work since. He mentioned the growth in tourist traffic in this district and the number of big game hunters since 1892, the date of the

WHAT'S INDIGESTION? WHO CARES? LISTEN!

Pape's "Diapepsin" makes sour, gassy stomachs feel fine at once.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gas, tritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

organization. In the past sixteen years visiting sportsmen had spent more than \$3,000,000 in New Brunswick.

C. F. CHESTNUT.

"The Publicity Committee" was proposed by City Clerk J. W. McCready, who spoke at some length. He claimed to be one of the fathers of the Board of Trade. The Publicity Committee, he characterized as one of the most important of the subdivisions of the board.

Replying to the toast, C. Fred Chestnut ably described the work of the committee, also its aims and history. If the work of publicity was carried on as it should be, population and industries would increase. Many inquiries re opportunities in Fredericton for industries had been received as a result of the publicity campaign. Results were about to come. Faith in the city was all that was required. At present a motor-manufacturing concern, a pork-packing factory and a furniture factory were all possibilities through the publicity campaign, on which one thousand dollars had been spent during the past year.

CHANCELLOR JONES.

"The Canadian Club" was proposed by Ald. Osborne, who coupled with it the name of Dr. C. C. Jones.

Dr. Jones responded in his usual happy manner. He referred to the fact that the Canadian Club was an organization within an organization, being a subdivision of the Board of Trade. Speaking of Fredericton's future, Dr. Jones said that if he were not an educationalist he would like to be a real-estate man. In that event he would have subdivisions on the hills south of the city for that was where Fredericton's growth was to be.

"The health of President Palmer" was proposed by ex-President Jennings and was responded to with "He's a Jolly Good Fellow."

The dinner was closed with the National Anthem.

DOAN'S KIDNEY PILLS

Are The Original Pill For The Cure Of Backache, Lame Back, Weak Back Or Any Other Kidney Trouble.

The fact that Doan's Kidney Pills are the original Kidney Pills has not prevented the placing of other preparations in pill form upon the market under the name Kidney Pills. It is necessary, therefore, that all wishing to secure the curative effects which have made Doan's Kidney Pills so popular everywhere, should see that the trade mark, the Maple Leaf, appears on the wrapper. Without this trade mark you are not getting the genuine Kidney Pills as originally placed before the people by Mr. James Doan, as shown by the following declaration.

DOMINION OF CANADA, PROVINCE OF ONTARIO,

To Wit:

In the matter of Doan's Kidney Pills, I, James Doan, of Kingsville, in the County of Essex, Druggist, do solemnly declare that Doan's Kidney Pills were first manufactured and sold by me on the 14th day of February, A.D., 1885.

And I make this solemn declaration conscientiously believing the same to be true, and knowing it is of the same force and effect as if made under oath and by virtue of "The Canada Evidence Act, 1893."

Declared before me at Kingsville, in the County of Essex, this 27th day of July, A.D., 1896.

W. A. Smith, A Commissioner, etc. Price, 50c. a box, or 3 for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE HEIGHT OF MAN

Measurements Show That Average Stature Remains the Same

It appeared from the results of scientific measurements made in France that the average stature of man is neither increasing nor decreasing. The skeletons of the men who inhabited France at a period when Europe was the home of lions, elephants, rhinoceros, hyenas, and reindeer, are of nearly the same size as those of the French people to-day. Yet the surroundings amid which these early men lived were remarkably different from those enjoyed by their successors. The best abodes were caves, and to hold possession of them they had to wage warfare upon such fierce beasts as the saber-toothed tiger and the cave bear. Without our modern weapons it would seem that they should have possessed superior bodily powers, but there is, it is said, no evidence that they did. They had human cunning, however, which always prevails over brute strength.

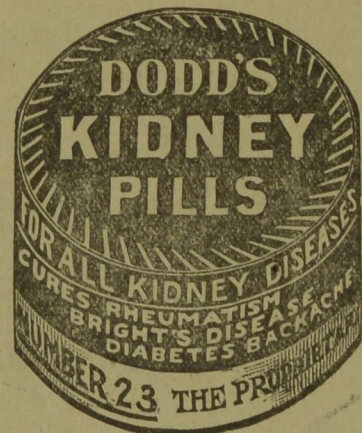

Later came the ancestors of the Gauls and Franks, and they seemed to have slightly exceeded the cave men in stature, and also to have been a trifle taller than their modern descendants.

One interesting fact shown by the measurements is that there has been a perceptible gain in the stature of women as compared with that of men since the days of the tiger fighters in France.

EATEN BY A BEAR

A Half-starved Polar Bear Invades an Eskimo Village

Dillon Wallace, an Arctic explorer went to Labrador to place a bronze tablet at the head waters of the Susan River, where his companion, Leonidas Hubbard, died of starvation in 1903. He succeeded in finding the camp, but could not erect the tablet as it had fallen out of his canoe to the bottom of the Peaver River. No

Halibut in the Pacific

The halibut of British Columbia have an enviable reputation, for they are less overgrown and of finer texture than the Icelandic and North Sea fish; a length of five to six feet and weight of 250 pounds is exceptional for the British Columbia halibut. The waters between Queen Charlotte Island and the mainland, especially of Rhode Spit, and off west shore of Banks Island, were at one time verily overcrowded with halibut. Very large fish were often taken then some weighing 150 pounds, but the general weight now is only from 40 to 60 pounds.

What Rulers are Paid

The King of England, including the Queen's portion, gets \$2,500,000 a year salary.
The King of Italy \$3,000,000.
The German Emperor nearly \$4,000,000.
The King of Spain nearly \$2,000,000.
The Sultan of Turkey, \$7,500,000.
The Czar of Russia from \$5,000,000 to \$12,000,000, according to the value of private estates.
The President of the United States gets \$75,000.
The Emperor of Austria gets \$4,500,000.
