CHATHAM TAKES LEAD IN N. B. H. L. BEATING CAPITALS

Score Was 7 to 2 Last Night at Chatham---The Game Was Very Fast

N.B.H.L. STANDING

Chatham ...	3	1	.750
Campbellton	4	2	.667
Fredericton	2	3	.400
Marysville ...	1	4	.200

Chatham, N. B. Feb. 12—Chatham one more goes in the lead in the N. B. Hockey League by their victory tonight over the Fredericton team by the score of 7 to 2 in the fastest and most exciting match of the season. Chatham though far lighter was speedy and outclassed the capital outfit of all stages of the game. In fact, at one time, with only five men on the ice they forced Fredericton to defence and when playing six against seven seven they actually scored. The local team never put up better hockey and won on their merits, the visitors getting a shade better treatment from Sandy Staples, who was, however, thoroughly impartial.

The teams lined up as follows:

Fredericton	Chatham
Goal	
Titus	Rogers
Point	
F. Hughes	McLean
Cover	
M. Murphy	Currie
Rover	
J. Murphy	Synott
Centre	
S. Murphy	Jones
Left Wing	
Frechette	Duncan
Right Wing	
Arnold	Veno

INFINITELY SMALL

Billions of Billions of Atoms Make Make up a Pinch of Salt

We know that the big telescopes, aided by the photographic plate, reveal stars to the number of at least one hundred millions lying utterly beyond the confines of unaided vision wrote Dr. Henry Smith Williams. Now it appears that a pinch of salt which one could hold on the point of a penknife, is made up of atoms numbering not hundreds of millions merely, but billions of billions.

The population of atoms in the smallest particle of matter visible under the microscope is greater by far than the total human population of the globe since the race developed. And a little instrument composed of two fragments of gold-leaf makes it possible to perform the miracle of counting these denizens of the realm of infinite littleness.

Within the smallest atom there is a something almost two thousand times smaller than the atom itself—a something that is detachable from the atom, and susceptible of being measured as to its mass, and tested as to its electric charge with the aid of apparatus actually in use in the laboratory. This ultimate particle of matter is called the electric corpuscle of electron. It is the smallest thing in the world, and it is probably the basal substance out of which all matter of whatever character is built.

As regards bulk, the electron is, according to the French physicist, Jean Becquerel, billions of billions of times smaller than the atom. To make the comparison vivid, Becquerel likened the electrops in an atom to a swarm of gnats gravitating about in the dome of a cathedral.

Sawdust Bread

There is a bakery in Germany that turns out 20,000 loaves of sawdust bread daily and finds a ready market for this output. Although this "wooden bread" is intended for consumption for horses only, it is claimed by the manufacturer that in case of famine it would furnish a nutritious and highly satisfactory food for human beings. The sawdust is first subjected to a process of fermentation and various chemical manipulation, and is mixed with one-third part of rye flour. It is then formed into loaves and baked in an oven like any other bread.

Fast Intercollegiate Game Last Night---Ice in Great Shape and Players in Fine Form---Acadia's Forwards Could not Penetrate U. N. B. Defence---Red and Black Forwards Fast---Maimann, McLean, Pugh and Eveleigh Starred

U.N.B. shut Acadia out last night by a score of 4 to 0 on one of the fastest games college teams have put up in recent years

The ice was in splendid condition for fast hockey and the U.N.B. players took advantage of this and showed their followers what they could do, when a win was really needed. The Red and Black team as a whole played good hockey but the good playing of McLean, Pugh and Maimann was responsible for the U.N.B.'s victory.

INTERCOLLEGIATE HOCKEY STANDING.

	Won	Lost	P.C.
Mt. Allison ...	2	0	1.000
U. N. B ...	1	0	1.000
Kings	0	1	.000
Acadia	0	2	.000

INDIVIDUAL WORK

McLean was easily the star of the game stick-handling and skating in fine style. He was always with the play and seemed to be in the best of condition. He scored two tallies, one on a fine wing shot and the other on a pass from Pugh from behind Acadia's net. Pugh the bantam of the team was always there when needed most. He scored a goal on a pass from Lockary and on several occasions made good bids to score. Maimann in goal put up the best game of his career and proved a regular stone wall. On one occasion the Acadia forwards came in on him three abreast and he stopped the shot and took the centre of his feet.

THE GAME

The first period was very even neither team having much the better of territory and it was eighteen minutes before McLean notched U. N. B.'s first goal.

The second period was the U.N.B's from the start. Melanson scoring in four minutes of play on a long shot. Pugh followed his example and scored in nine minutes. Acadia changed men during this period Moore replacing Stackhouse at rover. The rest of the period was featured by the spectacular rushes of McLean who carried the puck from end to end at will.

THIRD PERIOD

In the third period U.N.B. played mostly a defensive game having a comfortable lead of three goal. McLean scored after he had rained shot after shot at Leaman who was always on the alert.

The game ended 4 to 0 in favor of U.N.B. Mr. Frank Brown a former player of the Moncton Victories refereed.

CHANCE FOR THE MUG

U.N.B.'s victory gives them a good chance for the trophy as Mount A. only defeated Acadia by a score of 6 to 2. U.N.B. plays Kings here next next Thursday and a win for the Red and Black will put them on even footing with Mount A. and the game at Sackvillr will be the deciding game of the league. On the other hand if U. N.B. loses to Kings and wins at Sackville Kings will have a chance to tie Mount A. providing they defeat Acadia

The line up last night was as follows:—

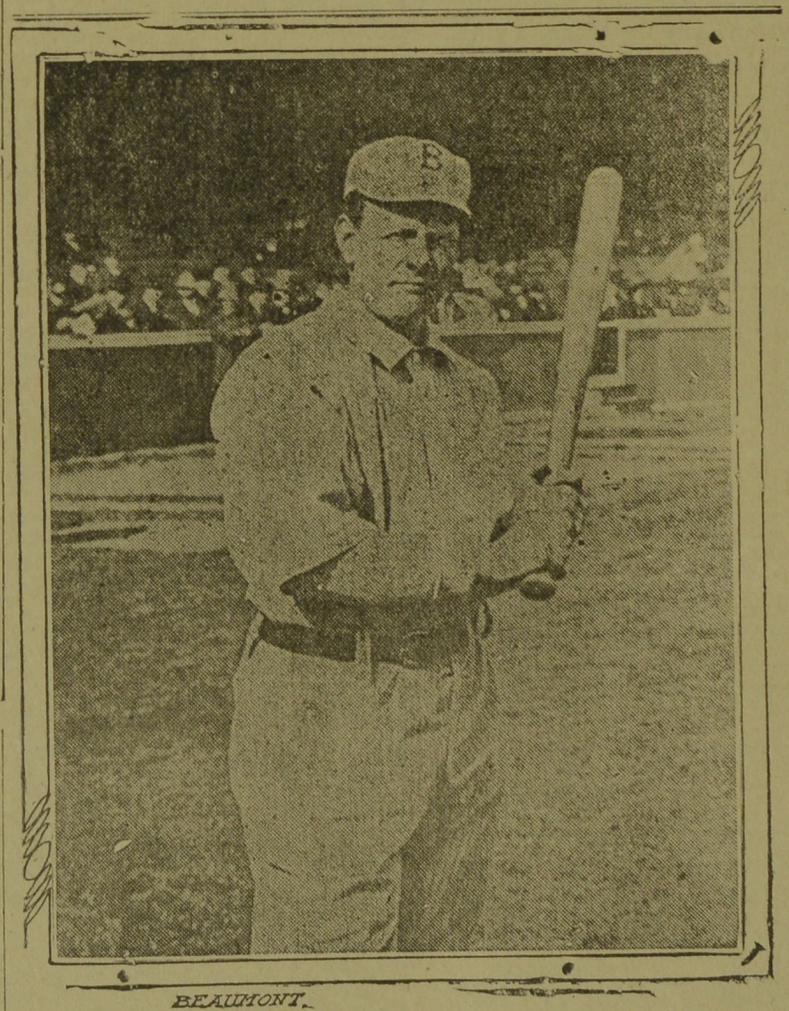

U.N.B.	Acadia
Goal	
Maimann	Leaman
Point	
Asker	Eveleigh
Cover	
Melanson	Allen
Rover	
McLean	Stackhouse
Centre	
Lockary	Rogers
Right Wing	
Pugh	Archibald
Left Wing	
Mooney	McNeil

SCORING SUMMARY

First Period.
1. U.N.B., McLean, 18 min.
Second Period
2. U.N.B., Melanson, 4 min.
3. U.N.B., Pugh, 9 min.
Third Period
4. U.N.B., McLean, 16 min.

PENALTIES

U.N.B., McLean 5, Melanson 5, Lockary 3 min. Total 13 minutes.
Acadia, McNeil 3 min.
Referee: Frank Brown.

Only Sardine Fishery in Canada

The province of New Brunswick has this distinction: it possesses the only sardine fishery in Canada. The fishing is carried on in the waters of Passamaquoddy Bay and the waters around the Islands of Grand Manan and Campobello, and the West Isles, in the Bay of Fundy. Of such importance is this fishery, and in such masses do the fish appear that the fishermen who prosecute their calling amongst those islands depend largely upon it for their livelihood. last maiden signature.

Large Tobacco Crop

A crop of nearly 5,000 pounds of tobacco was harvested on a West estate. It was cured with peat fi which introduce the desired flavo.

MOTHER THE CHILD! IS COSTIVE, BILIOUS

If tongue is coated breath bad, stomachs our, don't hesitate!

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for childsen's ills; give a teaspoonful and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50 cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company." Counterfeits are being sold here. Don't be fooled!

MEET FOR WOMEN ATHLETES

for women students, similar to the meets given at some of the big eastern colleges, will be held at the University of California tomorrow. The program will be made up of the regulation track and field events. Representatives of each of the four classes at the university will participate.

To the Electors Of the County of York

GENTLEMEN:

At the request of a large number of electors, I, James M. Scott, offer myself as a candidate for the vacant seat in the Legislative Assembly for the County of York. I present myself as an Independent Liberal Conservative, strongly opposed to the methods of the machine, which has sought to control both Federal and Provincial affairs in this constituency over the heads of the representatives of the county, and without reference to the wishes of the people.

The recent, so-called convention, for the selection of a candidate, was irregularly called for a certain date by the secretary without the authority of the president and against his protest—an example of usurpation of authority and of deception such as the party here has never known. To bring a large number of electors together under such circumstances is a piece of deception which, I am sure, this constituency will not tolerate and will vigorously resent.

The treatment accorded the County in the recent reconstruction of the government is such as to call forth our strongest protest. A portfolio was vacated in York—the county which was largely responsible for placing the present administration in power—it is not restored to us, we are not even given a voice in the government. A portfolio was vacated in Charlotte; it is immediately filled by a representative of that constituency. Shall we calmly suffer such a rebuff and lie down under such a humiliation? Who are the men who are responsible for this? They are the men who, through the exercise of patronage, control the machine and who boast that they have kept York from being represented in the government. They are the men who for personal reasons, seek to foist upon us by an irregularly called convention, by an impossible method of voting and by an abuse of patronage, without regard to consequences a candidate who was opposed by two of the elected representatives of the county and who is known to be unacceptable to leading men of the party and to a large and important body of the electorate.

These matters will be dealt with more fully as the campaign proceeds. In the meantime, I feel assured that the better judgment of the county will reverse an act which dishonors our record and stains our name, and the metropolitan constituency of York be freed from the influence which seeks to enthrall us. I am much mistaken if there is not a spirit of independence in this county which will not submit to be oppressed and a fund of good sense among us which will not be deceived.

I have the honor to be, gentlemen,
Your obedient servant,
JAMES M. SCOTT.
