Chapped Hands AND Cold Sores

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, end the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, rashes, winter eczema, piles, ulcers, festering sores, sore heads and backs, abscesses, pimples, ring-worm, etc., cuts, burns, bruises, scalds, sprains. Of all drugs and stores, or post free from the Zam-Buk Co., Toronto. Price 50c a box.

USE OR ORNAMENT

In these days of up-to-date methods it is surprising how much of the past still remains, more especially in regard to the clothes we wear. On the backs of most gloves will be found three thin strips. These marks correspond to the fourchette pieces between the fingers. In earlier times gloves were not made so neatly as they are to-day, and the stitching of the fingers was carried down part of the way on to the back of the glove, braid being used to conceal the seams. In later days, with the help of the improved means of manufacture, the stitching did not go beyond the fingers, but the embroidery was continued as an ornament, and remains still.

To a practically similar reason does the "clock" on a sock owe its origin. In the days when stockings were made of cloth the seams occurred where the "clocks" are now displayed, the decoration being utilized to hide the seams. Now that stockings are woven or knitted, there is no such need for ornamentation, but far from being allowed to die out, modern stockings often have "clocks" as an improvement to their appearance.

The little bow which will invariably be found in the leather band inside a man's hat is a survival of the time when a hat was made by taking a piece of leather, boring two holes through it, and drawing it together with a piece of string. Sometimes attached to the bow is a piece of ribbon, which is laced in and out of the lining for a short distance on either side of the bow, but generally speaking the ribbon is missing.

HEART SURGERY

Remarkable Operations Are Performed on This Vital Organ

Probably the most daring chapter in modern surgery is that which treats of operations on the heart. "The road to the heart is only two or three inches long, but it has taken surgery nearly 2,600 years to traverse it," was one writer's striking remark. Many shrewd observers in the course of the ages had noted that all heart wounds did not result in instantaneous death. But it was not until 10 or 15 years ago that surgeons began to act upon this knowledge. In exceptional cases death did not result immediately from a heart wound; there were intervals of a few minutes, a few days, or a few weeks. Why not utilize this interval in an attempt to sew up the wound? Medical history of late years reports many successful operations of this kind.

An especially noteworthy one, performed upon an Alabama negro boy in 1902, illustrates the resources of modern heart surgery. This boy had been the victim of an especially nasty stab wound. The knife had penetrated the apex of the heart and passed into the left ventricle, making a wound nearly half an inch long. When the boy was placed on the operating table in a little negro cabin the signs of death had already appeared. His feet were cold, and his face showed signs of the utmost distress.

The surgeons made a little window-like opening just above the heart. Through this they could readily see the injured organ, the blood spurting from the wound at each pulsation. One surgeon put in his hand, pulled the heart upward and held it while another sewed the wound with a catgut. The operation—performed with an anesthetic—lasted 55 minutes, on the sixteenth day the boy was sitting up; in a short time his heart was as good as new.

TOOK SEVERE COLD.

Left A Terrible Hard Cough
And A Nasty Tickling Sensation In The Throat.

A bad cough accompanied by that distressing, tickling sensation in the throat is most aggravating.

Dr. Wood's Norway Pine Syrup is rich in the lung healing virtues of the Norway pine tree, and for this reason it will stop that tickling in the throat which causes that dry hard cough that keeps you awake at night.

Mr. Sanford Roode, Antrim, N.S., writes:—"Last fall I took a severe cold which left me with a terrible, hard cough and a nasty tickling sensation in my throat. I tried many cough medicines, but they did not help me so I got a bottle of Dr. Wood's Norway Pine Syrup, and before I had used half of it the cough had left me, and the next one made a complete cure, and I will recommend it as the best cough medicine on the market."

See that you get "Dr. Wood's" when you ask for it. The genuine is put up in a yellow wrapper, three pine trees the trade mark, price, 25 and 50c., and manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Your Hair Gets
Soft, Fluffy and Luxuriant
At Once

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life and if not overcome it produces a feverishness and itching of the scalp the hair roots famish, loosen and die, then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?
