ALL THE LATEST GOODS TO PICK FROM
CLOTHES CLEANED, PRESSED, REPAIRED

Was Troubled With Eczema.

Would Nearly Yell With Pain.

**BURDOCK BLOOD BITTERS
CURED HIM.**

Mr. R. J. Swales, Harriston, Ont., writes: "I have been a great sufferer with eczema. I tried all kinds of salves, but they did me no good. Sometimes I would nearly yell with the pain, and would pass little white worms. I was told to get at the blood, so I used four bottles of Burdock Blood Bitters, and it has made a complete cure."

All skin diseases such as eczema or salt rheum, itching or burning rashes, boils, pimples, eruptions, ulcers, etc., are all caused by the blood becoming impoverished, and while not usually attended with any fatal results, may sooner or later develop into some serious blood trouble, and the entire system become affected.

Burdock Blood Bitters will cleanse the blood of all its impurities and by this means cure all skin and blood troubles.

This valuable preparation has been on the market for the last forty years, so you do not make any experiment when you give it a trial.

STOCKS OF GRAIN IN FARMERS HANDS

A press bulletin issued today by the Census and Statistics Office gives the results of the usual annual inquiry as to the stocks of grain and other crops remaining in the hands of farmers on March 31st, and the proportion of the crops harvested in the previous year which turned out to be of merchantable quality. The returns received from crop-reporting correspondents show that of the total estimated yield of wheat in 1914, 12 1/2 per cent., or 20,247,000 bushels remained in farmers' hands at the end of March. At the rate of 1 1/2 bushel per acre this quantity should allow of the sowing this spring of about 11,570,000 acres, or 1,522,000 acres more than were sown in the spring of 1914, independently of quantities of wheat stored in elevators which may be returned to farmers for seeding purposes. The quantity of wheat remaining this year in the hands of farmers is, however, smaller than in any previous year on record, the light crop and the high price being together responsible for this result. In 1914 the quantity of wheat estimated to be in farmers' hands at March 31st was 38,353,000 bushels, or 16 1/2 per cent. of the large harvest of 1913; in 1913 at March 31st the proportion was 22 per cent., or 50,234,000 bushels and at March 31st 1912, it was 27 per cent., or 62,188,000 bushels.

Of the remaining grain crops the proportions of the previous year's production estimated to be in farmers' hands on March 31st are also smaller than in any former year on record. Oats show a balance of 85,843,000 bushels, or 27 per cent.; barley 7,439,000 bushels, or 20 1/2 per cent.; rye, 343,700 bushels, or 17 per cent.; buckwheat, 1,792,500 bushels, or 21 per cent.; corn for husking, 2,928,000 bushels, or 21 per cent., and flax seed 740,700 bushels, or 10 per cent. Of potatoes, which gave the excellent yield last year of 86,672,000 bushels, 37.7 per cent., or 32,310,000 bushels were in farmers' hands on March 31st, this proportion being larger than in any of the last five years, excepting 1913, when 43 per cent., of 36,619,000 bushels remained over from the harvest of 1912. Of turnips and other roots 10,267,000 bushels or 15 per cent. remained over, and of hay and clover the quantity in farmers' hands is placed 2,173,000 tons or 21 per cent. of the total crop of 10,259,000 tons.

Out of the total wheat crop of 161,280,000 bushels, all but 6 1/2 per cent., or 150,793,000 bushels, proved to be of merchantable quality. This percentage, although the exceptional record of 1914, when the proportion non-merchantable was less than 3 per cent., is about equal to the average of the last six years, during which the lowest proportion of merchantable grain was in 1910-11 after the poor season of 1910, when 12.8 per cent. was estimated to be of non-merchantable quality. The proportions of other crops in 1914 which proved to be of merchantable quality are as follows:—oats, 91 per cent., 285,988,000 bushels; barley, 83 per cent., 32,022,000 bushels; rye, 90 per cent., 1,815 bushels; buckwheat, 81 per cent., 7,279,000 bushels; corn for husking, 80 per cent., 11,100,000 bushels; flax seed, 88 per cent., 6,370,200 bushels; potatoes, 87 per cent., 74,165,000 bushels; turnips, 87 per cent., 60,218,000 bushels, and hay and clover 88 per cent., 9,094,000 tons.

Correspondents throughout Canada report that the past winter has been exceptionally mild. In most of the provinces live stock have in consequence come well through and are in good condition. In some parts, notably in Saskatchewan, the light crops of last year rendered feeding difficult, and animals at the close of the winter were thin. In these cases, however, matters would have been much worse had the winter been of normal severity. An early spring was anticipated and the prospects for the coming season were hopeful. Farmers were preparing for a big increase in the acreage to be seeded, their efforts being facilitated by the large amount of fall ploughing completed last year.

ABSENT MINDED JACKIES.

In times before Lord Fisher, admiral of the British fleet, became superintendent of the Portsmouth dockyard, the dockyard was regarded as a snug harbor for sailors. In fact, so little work was done there that the place became synonymous with inefficiency, aptly described in the following:

"Bill don't do no work now, he's got a job in the dockyard."

"On the day of his arrival as superintendent, Fisher, strolling over the place, met several jackies leisurely sauntering along.

"What are you men doing?" he asked.

"We're making way for some others who are bringing along an oar," the spokesman answered.

"Soon five or six lazy going sailors appeared.

"What are you doing?" asked Fisher.

"We're carryin' an oar," was the answer.

"But I see no oar," answered the admiral.

"Well, I'll be blasted," answered the spokesman, "if we hain't forgot the oar!"—The World's Work.

HIS OPPORTUNITY.

The Missouri pastor looked over his glasses and shook his untutored locks.

"Carrying out my original declaration," he said, "I am about to call the names of those persons who are now asleep in this congregation. John Stackpole."

There was no response.

"John Stackpole."

The stout man in the second pew stirred reluctantly.

"John Stackpole."

The stout man stirred again.

"Be down in a minute," he drowsily called. "Keep thing hot for me."

The pastor's voice rang out.

"You're going down all right, John Stackpole," he roared, "and things will be kept very, very hot for you! Let us now sing the 98th hymn."—Cleveland Plain Dealer.

ONEY LABELS.

Now is the time to order your honey labels. We can supply you with colored stock for \$1.75 a thousand or \$1.25 for five hundred. Send in your orders at once.

Gin Pills FOR THE KIDNEYS

**Sell Well In The United States
As Well As Throughout Canada**

These wonderful pills—doing their work so well and helping to cure so many people—form a bond of union with our good friends to the South. Here are three letters from various parts of the United States, showing the demand for Gin Pills, a truly Canadian product which has helped and is helping thousands of Canadians to get well.

**Letters from Massachusetts,
New York and Indiana.**

543 East Street, Holyoke, Mass.
I received two boxes of your excellent Gin Pills and they relieved me so much that I am quite pleased with the results. I gave an order to my druggist for some more but they have not come and in the meantime, I borrowed a box from a lady friend who is also using them. I am sending for 3 boxes which I would ask you to send at once.

100 Bleeker Street, New York.
Being troubled with my Kidneys and Stomach, I was recommended to try Gin Pills. I purchased a box at a nearby drug store and I can sincerely and truthfully say that they have been wonderfully effective, and I am now feeling splendid, having nearly finished the box. I'll continue their use for a time longer so that they get at the seat of my trouble.

64 N. Y. Ave., Whiting, Ind.
Will you please send me a box of Gin Pills? When I sent for the last box, I was all crippled up with Rheumatism and my face was so badly swollen that I could hardly see out of my eyes, but after taking about six pills, I felt better, and after taking them a few days, I had no more pain. I never intend to be without them as I have tried so many other pills and got no results.

Mrs. ED. DEANS

If you have any Kidney or Bladder Trouble, Take Gin Pills

If your back aches or your hands and feet are swollen—if you suffer with Incontinence or Suppression of Urine—if there is a burning pain in the bladder—if the urine is hot and scalding, or contains mucus or brick dust deposits—or if you are subject to attacks of Rheumatism, Sciatica or Lumbago—Gin Pills will relieve you—help you—cure you. 50c. a box, 6 boxes for \$2.50. Sold in U.S. as "GINO" Pills.

Write us direct and we will send you a trial treatment free.
