extension of any cemetery should be allowed within one mile of the city limits.

## LIQUOR LICENSE BILL

The house again went into committee with Mr. Munro in the chair, and took up further consideration of the liquor license bill.

Hon. Mr. Clarke said a small committee had gone over non-contentious sections of the bill, and it would not be necessary therefore to have them read.

Mr. Carter, on the section allowing the lieutenant-governor-in-council to cancel any licenses where it appeared that public sentiment was against the liquor traffic, declared that such section was not a proper one to be included in this act. Such a provision destroyed the whole intention of the act, which was to leave the power entirely in the hands of the people, therefore, he did not see why it was necessary to have this provision permitting the lieutenant-governor-in-council to rob the people of the privilege of judging for themselves. It was utterly subversive of the principal of responsible government for which not a century ago the people of this and other provinces fought so hard before they gained their end. He trusted the committee would see its way to cut the section out.

Mr. Tilley agreed that it was matter the people themselves should left to decide. There was, however, just one event in which it was possible such a provision might be beneficial, and that was when a large body of soldiers were to be encamped in any district which was under license, it might then be well for the lieutenant-governor-in-council to have power, on request of the inhabitants, to revoke the license law for the time being while soldiers were encamped. As war provision only, he approved of it.

Hon. Mr. Clarke said that contingency would be met by a section to be added for the purpose.

The committee then divided on the question of retaining the section and a motion so eliminate it was carried.

Progress was then reported with leave to sit again.

Hon. Mr. Murray introduced a bill to amend the agriculture act, which he said, was merely to give power to agriculture societies to make temporary loans.

Hon. Dr. Landry presented the return of the bonded indebtedness of the town of St. George for 1914, also a return of the public hospital of St. John for 1914.

Hon. Mr. Clarke introduced a bill to amend the general mining act.

The house adjourned at 6.10 p.m.

Hon. Mr. Clarke said there was a good deal in what the hon. member for Victoria had said, and there could be no question that the British constitution intended that the supreme power should be in people, as expressed at the polls. Speaking for himself, as a member of the government, he could unhesitatingly say that if any such question came up he should insist that it be referred to a vote of the people in the district affected. The section was not in the original license act but was added later, and there must have been reason for it. However, he would leave the matter in hands of the committee to decide whether the section should remain or not.

## NOTED RAILWAY BUILDER VISITS THE CITY

Mr. Thomas Malcolm of Campbellton, who is easily New Brunswick's foremost railway builder, is spending a few days in the city and is being heartily greeted by many old friends. Mr. Malcolm built the Temiscouata Railway from Edmundston to River du Loup and he was also the builder of the International Railway from Campbellton to St. Leonards. This splendid road was recently taken over by the dominion government and is now being operated as part of the I.C.R. system. It has developed a large traffic and hundreds of settlers have already established homes along the line. The lumber output of the Restigouche country before the International was built did not exceed forty million feet a year. Now it will run well up to two hundred million ft. The completion of the International Railway, which provides an easy outlet to the American market for lumber, is responsible for a good portion of the increased revenue which the government now receives from crown lands.

Mr. Malcolm offered to construct the St. John Valley Railway, but it having been represented to the provincial government that he was the owner of but "one steam shovel" his offer was rejected by the provincial government which preferred to do business with a smooth Yankee.

PLEASED WITH 55TH.

Woodstock Sentinel—Lieut. Col. Kirkpatrick was in town Tuesday and expressed himself as being well pleased with the men enlisted here for the 55th Battalion. He left for St. John that evening.

## MANITOBA WITNESSES

## EMULATE BILL BERRY

Winnipeg, April 22—Now that the royal commission to investigate the Liberals' charge, into the construction of the new parliament buildings, that \$200,000 had been wasted or stolen in building the foundation and in the steel work, has been appointed, the commissioners find that several important witnesses have disappeared.

V. H. Horwood, provincial architect, whose evidence is of local importance, departed last night for Rochester, Minn., to undergo a serious operation for enlargement of the face and neck.

F. Fearnley, acting provincial auditor, left for the United States after the public accounts committee closed and is not expected to return until the beginning of next month. Fearnley gave evidence before the public accounts committee as to issuing payments for the caissons on order-in-council, having no other alternative, although there was no contract or other data as to why payments should be made.

No sign comes from William Salts, who disappeared when the public accounts committee needed him. He is a member of the provincial architect's office. The data prepared by him is the only record of the caisson work, and even this data is not complete. When heard of he was in Minneapolis.

Leonard Easton, who was given dominion work in Northern Manitoba, can be brought back by the commission if still in the province. Easton is the man who made the false notation "all prime costs omitted" in the copy of the specifications tabled in the House. The commission will want to know whether the notation was actually copied from the original or if Easton was ordered to insert it by a government official.

Another badly needed witness is W. Syncox, the man who made the original borings for the parliament buildings. According to government witnesses, these borings were all wrong. Syncox is in the wilds of Ontario.

Sittings will begin on Monday and A. B. Hudson, Liberal member for South Winnipeg, states that it does not matter whether all witnesses disappear, the Liberals have the "goods" on the Roblin government.

## MR BAXTERS HENCHMEN

## MUCH IN EVIDENCE

Those mental and moral supporters of Hon. Attorney General Baxter, G. Earle Logan and John A. Barry of St. John, are much in evidence in the capital these days. Which is the mental and which the moral support of the legal bulwark of the government the public is left to judge. Mr. Logan having been styled an "educated" attachment of the attorney, may place him in the "mental" scale but since he has been also styled a "convenience," he can hardly claim the precedence he is fairly entitled to on the ground of his mental achievement. To restore himself in the favor of his chief is now the main aim in life of the versatile Tory organizer for St. John County. Mr. Barry has another ambition—to direct the destinies of the petty criminals in St. John City from the magistrate's bench. That path to preferment is strewn with thorns and thistles and he must indeed walk carefully to reach the goal.

## CAREFUL DOCTOR

CAREFUL DOCTOR. Prescribed Change of Food Instead of Drugs.

It takes considerable courage for a doctor to deliberately prescribe only food for a despairing patient, instead of resorting to the usual list of medicines.

Some truly scientific physicians recognize and treat conditions as they are and should be treated. Here's an instance:

"Four years ago I was taken with severe gastritis, and nothing would stay on my stomach, so that I was on the verge of starvation.

"I heard of a doctor who had a summer cottage near me—a specialist—and as a last hope sent for him.

"After he examined me carefully he advised me to try a small quantity of Grape-Nuts at first, then as my stomach became stronger to eat more.

"I kept at it and gradually began to have color in my face, memory became clear, where before everything seemed a blank. My limbs got stronger and I could walk. So I steadily recovered.

"Now after a year on Grape-Nuts I weigh 153 lbs. My people were surprised at the way I grew fleshy and strong on this food."

Name given by Canadian Postum Co., Windsor, Ont. Read, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Mr. A. T. LeBlanc, barrister of Campbellton, is a guest at the Queen Sir Thomas Tait of Montreal is at the Queen.

Mr. J. W. Hoyt, collector of customs, McAdam is at the Queen.
