A NEGLECTED COLD
WILL VERY OFTEN TURN TO
CONSUMPTION.

Never neglect what at first seems to be only a slight cold. Perhaps you start to cough, a little irritation in the throat ensues, then it gets lower down, settles on the lungs and bronchitis sets in, and you start to raise phlegm of a greenish, yellowish color, and you cough persistently.

If you let the simple cold run it will surely develop into something very serious, and perhaps consumption.

On the first sign of a cold or cough go to your dealer and procure a bottle of

**DR. WOOD'S
NORWAY PINE SYRUP.**

A few doses will convince you that it is just the remedy you require.

Mrs. J. W. Parsons, Amherst, N.S., writes: "Some time ago my daughter had a very bad cough which settled on her chest. She had no rest day or night. I gave her everything I could think of, but without doing her the least bit of good. At last I thought of Dr. Wood's Norway Pine Syrup, so I got a bottle for her. She had not taken half of it before she got relief, and with the remainder she was completely cured. Now when any of the family have a cough we always know what to get for it."

Dr. Wood's is 25c and 50c.
Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ELECTION TALK

(Continued from Page One.)

he said, "and that our Canadian boys will march in triumph through the streets of Berlin, and Canadian statesmen will sit with the statesmen of Great Britain, France, and other countries to make a peace that will be permanent."

W. F. Cockshutt, M.P. for Brantford, and head of the Cockshutt Plow Company, whose product was further protected on Thursday last by coming under the seven and a half per cent. increase in the general tariff, and who has a bill on the order paper for the control of the export and price of wheat and other food-stuffs by the government, made a highly patriotic speech. The Journal reports him as having said: "That he was not an ardent admirer of the Asquith Government but that all honor must be given to Mr. Winston Churchill who had the navy ready when it was required."

Continuing, the speaker said: "That a sort of political truce had been declared in parliament, but in spite of this the Liberals had tried to explode several mines, and shoot off several torpedoes but those had all gone off prematurely and hit the enemy 'hem-selves.'"

"He urged the Conservatives," the report concludes, "to be ready for the day of battle, for it was near at hand."

W. F. Garland, M.P. for Carlton, who has figured prominently in the supply of medical goods and chloroform for the Canadian contingents, advanced a new incentive for "Patriotism and Production." In The Journal report he is quoted as having said "that fourteen vacant lots near the city were available for good Conservatives who desired to cultivate them this year."

Dr. J. L. Cabot, M.P. for Ottawa, "made a spirited address on the war. So he is only given a line in the report."

BATTERIES LEAVE

(Continued from page eight.)

Hon. George J. Clarke, Premier of New Brunswick, and other members of the provincial executive will also deliver addresses. This portion of the program will be at the Exhibition Grounds. After that the soldiers will march to the I.R.C. station via Smythe and Queen Streets.

FOR SOLDIERS' COMFORT

The railway authorities have furnished a special train of one pullman and six colonist cars for the batteries and the train is expected to go out half an hour ahead of the regular express. About three hundred officers and men will be aboard. The Central Committee of the Daughters of the Empire have prepared lunches for the troops to take with them. Socks, wristlets, etc., have also been provided.

THE LYNCH PROPERTY
UP IN PARLIAMENT

Mr. Carvell Calls Attention to a
Matter of Local
Interest

In the House of Commons on Monday Mr. Carvell moved for papers relating the turning over by the Minister of Railways of a portion of the residential property of Mrs. Margaret Lynch of Fredericton. He said that this was one of the finest pieces of property in the capital of New Brunswick. The house had been occupied by the late Governor Wilnot. The St. John and Quebec railway wanted a portion of it, but instead of commencing the usual court procedure, got the Department of Railways to take possession for them. The destruction of beautiful trees and shrubbery had been more ruthless than anything the Germans had done in Belgium. A few acres were taken as long ago as 1913, and more in 1914, but up to the present time Mrs. Lynch had not received a cent, and the department had declined to put the matter in the hands of the Exchequer Court. It looked as though Mrs. Lynch would have to appeal to the Minister of Justice for a fiat authorizing her to institute proceedings against the government.

Hon. Frank Cochrane, in reply, said that the first piece of land taken had been for the I.C.R. and not for the St. John and Quebec Railway. He explained that up to six months ago a rule in regard to expropriations had been followed, which had so filled him with disgust that he had abolished it. The practice was to get to or three experts to value property required. The usual result was that expropriated property often cost much more than the owners wanted for it. He had decided to appoint an official valuator for the department who would not be subject to outside influences. In this case he understood that an offer of \$13,500 had been made for the property.

Mr. Carvell denied this. An offer had been made but it was withdrawn. Mr. Cochrane accepted Mr. Carvell's statement, and promised that he would take immediate steps to have the matter submitted to the Exchequer Court. The motion for the papers was adopted.

HOPES GOOD WILL
COME FROM THE WAR

London, Feb. 17—Presiding at a scientific banquet in London recently Viscount Bryce, former British ambassador to the United States, said that if there was a chance of getting rid of the worst evil of the human race, that chance ought to come now.

"If this does not cure us," said Viscount Bryce, "nothing will." The speaker ventured the hope that there would be stronger feeling for peace after this war than ever before, and a stronger sense of the detestable consequences to which the worship of war may bring a great people. If so, he added, the sacrifices would not be made in vain.

CRUISER LANDS
MORE REFUGEES

London, Feb. 17, A despatch to Reuter's Telegraph Company from Alexandria, Egypt, says:

"The United States cruiser Tennessee, brought here today 600 additional refugees from Syria, but this trip probably will be her last, as the authorities at Jaffa are now raising obstacles to the removal of people."

"At first they declined to allow any of the 1,400 persons awaiting transportation to Alexandria to embark on the Tennessee, but ultimately consented to the departure of approximately 600."

ARGUMENT IN WALKER CASE

(Continued from page eight.)

upon money on deposit in the Halifax branch of the Royal Bank.

The Attorney General argued that the language of the New Brunswick Succession Duties Act was wide enough to include all property included in the present case and that such duties can be rendered payable in New Brunswick whenever the person who takes benefit under a will take the same under the laws of the province.

The Appeal Court adjourned until tomorrow morning when judgments will be given.

FOR THE SOLDIER BOYS

Many merchants along Queen street have the exterior of their stores decorated today in honor of the men of the batteries who are leaving for the front. Several of the stores will close at five o'clock.
