City Notice

BY-LAW NO. 27

Be it enacted by the Mayor, Ald-
ermen and Commonality of the City
of Fredericton, as follows:

1. In this by-law the word "side-
walk" shall mean that portion of a
street lying between the gutter and
the outer margin of the street, re-
served for the use of pedestrians.

2. The owner, occupier, agent or
person in charge of any property on
any street within the City shall:

(1) Within ten hours after the
City snowplow shall have plowed
out the sidewalk opposite his prop-
erty, remove and level or cause to
be removed and levelled, the snow ridge
left by the snow-plow opposite his
property.

(2) At all times keep any snow
or ice on any sidewalk opposite his
property level and even at the sur-
face and allow no accumulation of
ice or snow thereon to a depth great-
er than six inches.

(3) Promptly remove or cause to
be removed any ice or snow falling
from any building on the sidewalk
opposite his property.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make it
Soft, Fluffy and Luxur-
iant!

Try as you will, after an applica-
tion of Danderine, you cannot find a
trace of dandruff or falling hair and
your scalp will not itch, but what
will please you most will be after
a few weeks' use, when you see the
new hair, fine and downy at first—
yes—but really new hair—growing all
over the scalp.

A Little Danderine immediately dou-
bles the beauty of your hair. No
difference how dull, faded, brittle or
scrappy. Just moisten a cloth with
Danderine and carefully draw it
through your hair, taking one small
strand at a time. The effect is im-
mediate and amazing—your hair will
be light, fluffy and wavy, and have
an appearance of abundance; an in-
comparable lustre, softness and luxu-
riance, the beauty and shimmer of
true hair health.

Get a 25 cent bottle of Knowltons
Danderine from any drug store or
toilet counter, and prove that your
hair is as pretty and soft as any—
that it has been neglected or injur-
ed by careless treatment—that's all.

POINTED PARAGRAPHS

When a woman loses her temper
she shows her age.

Man comes to grief by meeting
trouble halfway.

Vanity makes a cheap croon look
like an oil painting.

Girls that make fools of en gener-
ally make impressions that last.

So called friends are plentiful—as
long as our money holds out.

Perhaps it is true that all the world
may love a lover, but the proof is
missing.

Every old woman knows a lot of
sensible things that are not to be
found in books.

When a girl breaks off an engage-
ment she is awfully disappointed if
the young man in the case doesn't
make a fuss about it.

Notice of Sale

Thomas A. Goodine, of the Parish
of Kingsclear in the County of York
and Province of New Brunswick,
Farmer, and Matilda his wife, and
to all others whom it may in any
wise concern.

Notice is hereby given that by virtue
of a Power of Sale contained in a cer-
tain Indenture of Mortgage bearing
date the Eighteenth day of August in
the year of our Lord one thousand nine
hundred and eleven, recorded in York
County Records in Book P.6, pages
367 and 369, and made between the
said Thomas A. Goodine and Matilda
his wife, of the First Part, and Annie
G. Whittaker, of the City of Frederic-
ton in the County of York aforesaid
Widow, of the Second Part, there will
in pursuance of the Power of Sale,
contained in said Mortgage and for
the purpose of satisfying the money
secured by the said Mortgage, default
having been made in the payment there-
of, be sold at Public Auction on WED-
NESDAY the Seventeenth day of
FEBRUARY next at the hour of
TWELVE o'clock noon, in front of the
Post Office in the City of Fredericton
in the County of York, the lands and
premises described in the said Indenture
of Mortgage as follows:—

ALL that certain piece or parcel of
land lying and being in the Parish of
Kingsclear in the said County of
York, known as being the lower or
Southernly part of Lot Number Seventy
Six as described in the Grant under
the Great Seal of the Province to
Stephen Davis and others, bounded as
follows:—On the front by the River
"Saint John; on the lower side of
lands owned by Nelson Cliff and
"George Strange on the upper side by
land now owned by Captain Judah
"Hammond, and on the rear by the
"base line of said Lots, containing by
"estimation two hundred and fifty
"acres more or less." Saving and ex-
cepting thereout a parcel of land com-
prising twenty acres, more or less,
situate in the South Eastern corner of
the said Lot decided by one Thomas
Goodine and wife to Clarence Kelley
Deed bearing date the Eighteenth day
of April A.D. 1892, which last men-
tioned Deed is duly recorded in York
County Records in Book R-4 page 51.
And also excepting that part of the
said property decided to the Saint
John and Quebec Railway Company
for a Right of Way.

TOGETHER with all and singular
the buildings and improvements there-
on and the privileges and appurtenan-
ces to said premises belonging, or in
any wise appertaining.

Dated this Twelfth day of January,
A.D. 1915.

Signed

ANNIE G. WHITTAKER (L.S.)

Mortgagee.

Solicitors for Mortgagee.

FERTILIZED EGGS

Chief Cause of Inferior Stock For
Food Purposes

Eggs which have been fertilized
constitute the greatest proportion of
the inferior stock which, when exam-
ined, proves unfit for food. It is not
necessary that these shall have re-
mained for a time under a broody hen,
a temperature of seventy degrees be-
ing, in itself, sufficient to cause the
germ to commence to grow. If the
heat is constant the development of
the chick will continue, but if it
ceases or is intermittent, putrefaction
at once sets in and the egg becomes
bad. On the other hand infertile eggs
which are free from the active germ
cell, under ordinary conditions de-
teriorate seriously. Farmers and
others selling eggs for market are
recommended in a circular issued by
the livestock branch of the Dominion
Department of Agriculture, to kill or
dispose of the male birds after the
breeding season. As a result of
their remaining with the flock after
the breeding season Canadian farm-
ers lose each year at least a million
dollars, through the presence of par-
tially incubated eggs in the produce
which is marketed. The fact that
the best trade in many cities in Can-
ada now offers the premium of from
one to five cents per dozen, for non-
fertilized eggs, suggests an additional
financial consideration which but few
can afford to overlook.

Motor Car Window Opener

The cumbersome method of raising
or lowering the windows of motor car-
and other carriages by means of a
strap will soon be superseded by a
German invention. By the new de-
vice the inmate of the carriage presses
upwards or downwards a handle, and
the window rises or falls accordingly.
Moreover, the window can be raised or
lowered to any required height, and
will automatically stay where it is
placed. This ingenious device has
been brought before the notice of
motor car body builders and its prac-
tical use demonstrated by means of a
working model.

Two Goslings From One Egg

Two goslings were hatched from a
single egg on one of the farms of
Messrs. Chivers and Sons at Histon,
Cambridge. Such an event is almost
unprecedented, the birds from double-
yolked eggs usually being deformed,
if they hatch out at all, which is
rarely the case. These twins are well
shaped and healthily developed, and
there is every indication that they are
going to grow into fine vigorous birds.
The egg that produced the twin birds
was hatched out by a hen, who is
devoted to her foster children.

Dead Cats as Scarecrows

A novel method of scaring away
birds was adopted by a Kentish far-
mer. He had killed a number of cats
had them stuffed, and placed them in
various attitudes among the branches
of the fruit trees in his orchard.

Scientific Notes

French dairymen are experimenting
with cocoa shells as feed for their
cattle.

A recently patented screw has a slot
along its length to prevent it working
loose in wood.

Peat forms about one-third of the
fuel in the central industrial districts
of Russia.

The United States is now produc-
ing about 60 per cent. of the world's
supply of crude petroleum.

A German paper manufacturing
plant to utilize rice straw is being
erected in China by Japanese.

Sweet spirits of nitre, wiped off with
cotton when it turns white, will re-
move ink spots from wood.

So rich is Argentine tobacco in nicot-
ine that much of it is used in the
manufacture of insecticides.

Although the eggs of different
species of birds vary greatly in shape
the yolks always are spherical.

A windmill in England furnishes
electric light for a church and rectory
and power to blow a church organ.

To intensify the sound there has
been invented a small celluloid disk
to be attached to a phonograph needle

Setting Bulldog on Crowd

A extraordinary case was heard in
Glasgow, when Robert Hill was charg-
ed with urging a bulldog to attack
a number of persons. His dog had
been fighting, and had been beaten
off by the crowd with sticks. Hill
then urged the dog to "go" for the
people, and eight persons were bitten,
including a policeman. One sufferer
was in the infirmary for a fortnight.
Accused was fined \$10.

I. H. C. Combination Engines

Burn Gasoline or Kerosene equally well

In the official test at the Canadian Industrial Exhibition
last fall, these engines made the best score under all tests,
Total 451.5 points out of a possible 500. Nearest Com-
petitor 411.9 points.

Every engine now equipped with Webster Magneto, doing
away with batteries and 90 per cent of engine troubles.

We are able to offer these engines now at very consider-
able Reduction in Prices.

If you are wise, you will not buy any engine until you have
thoroughly investigated the I. H. C. Combination and got
our prices.

Made of British Steel

The Tweed Sanitary Closet is made of heavy, best
sheet steel fitted throughout.

It has a double seeded steel top on the cabinet (un-
derneath wooden seat) which makes it much superior
to anything on the market. This improvement is a
very great advantage. The upper lid of the seat is
fitted with wooden section that fits into hole exactly,
leaving no dead air space and nothing to get out of order.

To see a "Tweed" is to want one. You will wonder how you managed
without one so long.
