POWERS MAY INTERVENE TO PREVENT WAR

Paris, Oct. 7.—The European powers have decided to intervene at the Balkan capitals and at Constantinople as soon as it is possible to make arrangements to that effect. Great Britain today signified her acceptance of the French proposals so that all the powers are now in accord.

Berlin, Oct. 7.—Germany today accepted the amended draft of the declaration of the powers to Turkey and the Balkan states. It now embodies the Austrian proposal for a clearer definition of the intention of the powers which ask for a larger measure of home rule in European provinces in Turkey.

The action of the powers now depends on the attitude of Great Britain, which is not expected here to be made known before Wednesday.

The German foreign office has expressed its agreement with the views of Sergius Sazonoff, the Russian foreign minister, as to the inacceptability of the Bulgarian demands for foreign governors for Macedonia under the control of the Balkan states.

With Austria and Russia in accord and in view of the fact that they are unable to procure financial support, it is believed that the Balkan nations will soon see the futility of going to war only in the end to be deprived of such territorial benefits as they might have expected to obtain in the event of success.

The persistent reports that Turkey and Italy had arranged peace are also believed to have had some influence on the Serbian, Bulgarian, Montenegrin and Greek allies, who it is assumed are not so anxious to tackle Turkey when she is free from the embarrassment of a war with a great power.

London, Oct. 7.—Sir Edward Grey, after the meeting of the cabinet, was questioned in the House of Commons by Andrew Bonar Law, the leader of the opposition, in regard to the Balkan situation. He replied that the trouble on the one hand was the difficulty of proceeding with reforms in the face of the mobilization of the armies in the Balkans and on the other hand of convincing the Balkan states that the reforms promised would be effectual in serving the welfare of the population of Macedonia. The powers, added Sir Edward, were taking steps to overcome these difficulties by expressing their strong disapproval of any breach of the peace and at the same time pointing out the need of reforms in European Turkey.

The agreement of the powers was, he trusted, a guarantee that if the peace were broken none of the European powers would be involved in the war.

AMERICAN BOARD MEETING

Portland, Me., Oct. 8.—The 103rd annual meeting of the American Board of Commissioners for Foreign Missions was opened in the Williston Congregational Church here this afternoon with an address of welcome by Rev. Jesse Hill of Portland and a response by Dr. Samuel B. Capen of Boston, president of the Board. Upwards of 400 missionaries, Congregational preachers and laymen from all parts of the country were in attendance. Following the exchange of greetings the convention listened to the annual reports of Treasurer Frank H. Higgins and Secretary Cornelious H. Patton and the annual survey of missions presented by Rev. James L. Barton. The reports showed the past year to have been one of activity and prosperity in all departments of the work conducted by the Board. The total cash receipts of the year were \$1,003,025, which just about equalled the figures of the preceding year. The meeting of the board will continue four days. Many noted missionaries recently returned from foreign fields are here to address the gathering.

MAY MODIFY THE HOME RULE BILL

London, Oct. 7.—The Daily Telegraph referring to persistent rumors in political circles that the government is in negotiation with John Redmond in the hope of finding a out of the Ulster situation says that a suggested basis of compromise made has been given to Ulster the right of exemption from some of the provisions of the home rule bill under certain conditions. It is said that some agreement has been reached.

WANTS SOBER JUDGMENT OF PEOPLE.

"These," concluded Sir Wilfrid, "are questions you have to deal with at present. They were presented to the electors at the last campaign. We were defeated, but I have no repining, not a whimper or a lafter. But to those who then honored me with their support and to those who thought they could not support me, I appeal that if they live up to the old principles of the Liberal party and stand to their guns when the signal comes for the next battle, I said I wanted one more tussle with the Tories. Let me correct that, and say that I hope and want once more to get the sober judgment of the Canadian people on these questions."

"It seems to me, unless I am greatly mistaken, that there is not a Liberal in this audience or in Canada who need blush for the policy we pronounced at the last election. It was a policy in line with pure Canadian and pure British patriotic citizenship. We shall have a trial again upon that policy. When that trial shall come I know not. But I say, let us stand firm by our principles—at least I can appeal to the Liberals of the old school to stand by their principles—and then, I venture to say, the nation will be even more prosperous, and the great principles of our Liberal party must triumph."

Sir Wilfrid was accorded a long sustained ovation at the conclusion of his speech.

ROUSING RECEPTION AT COLLEGE.

From the station the distinguished guests were motored to the Woodstock Baptist College, where Sir Wilfrid was given a rousing reception. President McNeill's welcome was of a happy nature, temporarily transferring to him the principalship of the college. This was met with applause by all and Sir Wilfrid in thanking Dr. McNeill and in a few words to the students, exercised his authority by declaring a holiday.

It's often the case that food does not contain the certain elements which Nature requires to meet the demands of the rapidly developing body and brain.

One food which can be depended upon is

Grape-Nuts

It is made of wheat and barley, and contains true tissue-building elements including the Phosphate of Potash especially needed for promoting healthy brain-growth.

A dish of Grape-Nuts and cream each morning for a few weeks, often works a marvelous change in the health of a child, and children like it.

OTTAWA VISITED

BY SERIOUS FIRE

Ottawa, Oct. 7.—Today's estimates fix the loss at nearly sixty thousand dollars for fire, which developed from an unknown cause last evening in the furniture store of A. Beland on Main street, Gatineau Point, Que., which destroyed eleven buildings. Less than half the loss is covered by insurance.

For a time the situation looked very grave and assistance was sent by both Hull and Ottawa fire departments. Gatineau Point is a village about two miles east of Hull, on the Quebec side of the Ottawa River, at the junction of the Gatineau.
