

Take It Regularly
—It Is A Great Builder

It not only builds up the body, but gives strength and energy for the day's work. By its use the nerve system is properly nourished, the brain becomes normal and every function of the body is carried on to better advantage.

Wilson's INVALIDS' PORT
(à la Quina du Pérou)

with which is combined Peruvian Cinchona Bark, is effective, agreeable and reliable. It should be taken—three glasses daily—by all persons of sedentary pursuits.

Dr. J. F. ELLIS,
Speaker of the Nova Scotia Legislative Assembly, says:
"I have found Wilson's Invalids' Port to be of very high quality and especially suited for invalids. I have used it in my practice since first becoming acquainted with its merits."

GERMANY'S COMMERCE WILL BE SHUT OUT

London, March 3.—Following is the full text of the British note, with which that presented by the French ambassador is practically identical:

Germany has declared that the English Channel, the north and west coasts of France and the waters around the British Isles are a war area and has officially notified that all enemy ships found in that area will be destroyed and that neutral vessels may be exposed to danger. This is an effect a claim to torpedo at sight, without regard to the safety of the crew or passengers, any merchant

vessel under any flag. As it is now in the power of the German Admiralty to maintain any surface craft in these waters this attack can only be delivered by a submarine agency.

The law and custom of nations in regard to attacks on commerce have always presumed that the first duty of the captor of a merchant vessel is to bring it before a prize court, where it may be tried, where the regularity of the capture may be challenged and where neutrals may recover their cargoes. The sinking of prizes is in itself a questionable act, to be resorted to only in extraordinary circumstances and after provision has been made for the safety of all the crew or passengers. If there are passengers on board, the responsibility for discriminating between neutral and enemy vessels, and between neutral and enemy cargo, obviously rests with the attacking ship, whose duty it is to certify the status and the character of the vessel and cargo and to preserve all papers before sinking or even capturing it. So also is the humane duty of providing for the safety of the crews of merchant vessels, whether neutral or enemy, an obligation upon every belligerent.

It is upon this basis that all previous discussions of the law for regulating warfare at sea have proceeded. A German submarine, however, fulfils none of these obligations; she enjoys no local command of the waters in which she operates; she does not take her captures within the jurisdiction

MOUNT ALLISON GAVE KING'S BAD BEATING SCORE WAS 6 TO 1

Sackville, N.B. March 2.—Mount Allison tonight defeated Kings in the scheduled game in the Intercollegiate League, thus trying Acadia for the championship and the Brown trophy. The score was six to one.

The first period was very much one sided and Brundage and Eaton in their clever combination plays were able to score almost at will. Kings showed very weak in the initial period, which ended 4 to 0.

The game opened with a rush by Kings and play remained in Mt. Allison territory for the first few minutes. Mt. Allison scored first and were soon followed by Kings, who notched one against the wearers of garnet and gold. Play zigzagged from one end to the other throughout the remainder of the period and Mt. Allison found the visitors' nets for another. This period ended with a score of six to one.

The third period saw play zigzag from one end to the other with Kings mostly on the defensive. Much rough work was in evidence and Referee Ross handed out many penalties. Kings receiving the greater number. Neither team was able to find the net during this period, which ended the game. The line-up:

Mt. Allison	Goal	Kings
Heartz	Point	O'Brien
Gray	Coverpoint	Harris
Crowe	Rover	Yrast
Poole	Centre	Hutchinson
Eaton	Right Wing	Helbert
Pendrih	Left Wing	Scarfe
Brundage		Smith

Billie Ross of Halifax handled the whistle. It is likely that a play off between Mt. Allison and Acadia will take place shortly, but where is not yet known, as some Nova Scotia towns will likely be the choice of the teams concerned.

Man wants but little here below—and it's his privilege to keep right on wanting.

When a woman build an air castle she always uses a man's heart as the foundation.

Scientific Notes

French dairymen are experimenting with cocoa shells as fodder for their cattle.

A recently patented screw has a slot along its length to prevent it working loose in wood.

Peat farms about one-third of the fuel in the central industrial districts of Russia.

The United States is now producing about 60 per cent. of the world's supply of crude petroleum.

A German paper manufacturing plant to utilize rice straw is being erected in China by Japanese.

Sweet spirits of nitre, wiped off with cotton when it turns white, will remove ink spots from wood.

So rich is Argentine tobacco in nicotine that much of it is used in the manufacture of insecticides.

Although the eggs of different species of birds vary greatly in shape the yolks always are spherical.

A windmill in England furnishes electric light for a church and rectory and power to blow a church organ.

To intensify the sound there has been invented a small celluloid disk to be attached to a phonograph needle.

tion of a prize court; she carries no prize crew which she can put on board a prize; she uses no effective means of discriminating between a neutral and an enemy vessel; she does not receive on board for safety the crew and passengers of the vessel she sinks; her methods of warfare are therefore, entirely outside the scope of any of the international instruments regulating operations against commerce in time of war. The German declaration substitutes indiscriminate destruction for regulated capture. Germany is adopting these methods against peaceful traders and noncombatant crews, with the avowed object of preventing commodities of all kinds, including food for the civil population, from reaching or leaving the British Isles or Northern France.

Her opponents are therefore driven to frame retaliatory measures in order in their turn to prevent commodities of any kind from reaching or leaving Germany. These measures will, however, be enforced by the British and French governments without risk to neutral ships or to neutral or noncombatant life and in strict observance of the dictates of humanity. The British and French governments will therefore hold themselves free to detain and take into port ships carrying goods of presumed enemy destination, ownership or origin. It is not intended to confiscate such vessels or cargoes unless they would otherwise be liable to condemnation. The treatment of vessels and cargoes which have sailed before this date will not be affected.

MARYSVILLE NOTES

March 1.—The recent rain has caused the ice to break up here a considerable distance above the Marysville mills and reports from up river districts are to the effect that the ice is gradually wasting away and every thing points to an early break up.

The lumbering operation on the Nashwaak are drawing to a close. Mr. Cameron's crew arrived last week and report the others to finish soon.

A large number of young people met at the home of Mr. and Mrs. Ludlow Allen last Thursday evening and treated them to a real surprise party. The evening was spent in music and dancing and other games of amusement.

Mr. Clarence Peterson has recently moved into the house made vacant by Mr. Rowly Manzer.

Mr. George R. Sloat is reported to be gaining slowly from his recent illness.

Mrs. Eugene Savage who was calling on friends at this place returned to her home at Newcastle Saturday.

The members of Main Street Baptist Sunday School held a social in Oddfellows Hall Friday evening. A very good program was rendered and the sum of \$18.00 realized.

JOB PRINTING.

Look over your stock of stationery and see if there is anything you are in need of. If so ring up Telephone 67 and a representative of The Mail Printery will call for your order. We have all the facilities for turning out first class work. Give us a trial order.

Is 83 Years Old

And Her Heart Does
Not Bother Her.

Thanks to MILBURN'S
Heart and Nerve Pills.

Mrs. J. McLaren, Commanda, Ont., writes us under date of February 9th, 1914. "Sixteen years ago I took bad with my heart and nerves, and was not able to do anything. I tried a good many doctors, but they did me no good; in fact one doctor gave me up to die. I heard about Milburn's Heart and Nerve Pills, and I thought I would give them a trial, and after using a couple of boxes I saw that I was improving. I kept on using them for quite a long time. I am eighty-three years old and my heart does not bother me at all.

"I am raising a little girl who was never very strong, and the doctor said that she had palpitation of the heart, so I started to give them to her. She is now twelve years old, and they are doing her more good than I can possibly tell you. I would advise anyone who has a weak heart to try Milburn's Heart and Nerve Pills, as they have done wonders for us."

Price, 50 cents per box, 3 boxes for \$1.25; for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
