

AN
APPRECIATION
... FROM ...

A SATISFIED USER

Parker's Ridge, York Co.
June 30-1915.

TO: PALMER-McLELLAN CO.
Fredericton, N. B.

Gentlemen:-

I bought a pair of your Driving Boots from W. R. McCloskey Limited of Boiestown before the driving season of 1915, and about the middle of April last. I wore them all through river driving, and afterwards I removed the caulks and have worn them every day since with every satisfaction. I find the boots comfortable and waterproof, and they are still in good enough condition for me to wear them this Fall and do my next Springs driving in.

These Boots have had hard wear not only on the drive, but in connection with my farming and woods operation ever since, and I have no hesitation in recommending same to any person requiring a boot for long wear and hard service.

Yours very truly,

Clarence Boies.

PROFESSOR SHORTT A GREAT ECONOMIST

Brilliant Scholar Whose Intellectual
Attainments Brought to Him
Many Honors

Prof. Adam Shortt, of the Civil Service Commission at Ottawa is generally regarded as "Canada's leading political economist."

Prof. Shortt was born in an old Ontario mill village called Kiworth, on the banks of the Thames, near London. His father was a miller. Later the village disappeared altogether, although another hamlet which sprung up some miles distant bears the name Kiworth Bridge. As a boy the coming political economist was a hard worker. He was a good student at the High School at Wakeston, and he "put himself through" Queen's as most university students did in those days, by teaching a school. After graduation at Queen's he went, in 1884, to Scotland and took post graduate work at Glasgow and Edinburgh Universities, repeating his record at Queen's by becoming in each institution a medalist in philosophy. His long vacations he spent tramping through Great Britain and continental Europe picking up firsthand knowledge of Old World social and industrial conditions. His interests steadily concentrated on political economy, and returning to Canada, he was, in 1889, appointed lecturer in political science at Queen's, and three years later he became professor in the same subject.

Prof. Shortt is a well known writer on economic and historical subjects. Some years ago he contributed to the Journal of the Canadian Bankers' Association a series of articles on the development of the Canadian banking and currency systems which represented an immense amount of research and which were much discussed. Perhaps his best known contribution to current problems is his

PROF. ADAM SHORTT

"Imperial Preferential Trade From a Canadian Point of View," a study of the British fiscal situation. It revealed his belief in freedom of trade, coupled with recognition of the fact that wide variations of industrial and social conditions make it impossible to maintain that any one fiscal system is expedient for all times and places, and also his faith in the efficiency of autonomy as the only enduring basis of imperial co-operation and unity.

In his Life of Lord Sydenham in "The Makers of Canada" series, Prof. Shortt describes the course of events in the momentous days of the establishment of responsible government in Canada. In collaboration with Dr. Doughty, the Dominion Archivist, he edited a collection of constitutional documents on the period from 1763 to 1791, many of which are made accessible for the first time. A second volume deals with the period from 1791 to 1841. These works led to the selection of Prof. Shortt and Dr. Doughty as joint editors of a new ten-volume history of Canada.

When the first Labor Commission was formed under the Lemieux Act, Prof. Shortt was appointed chairman, and in 1908 he was appointed one of the Civil Service Commissioners under the new Act.

Of late years Prof. Shortt has done a good deal of speaking at Canadian clubs and other gatherings. They say he never reads a novel. His chief hobbies are gardening and wood carving. In 1911 he was created a companion of St. Michael and St. George in the Coronation favors.

The earliest work on shorthand writing was compiled by Dr. Timothy Bright, of Cambridge, in 1588.
