

Gabardine is again a leading fabric. It proved its durability as well as its style last winter and the preceding summer, and it has every reason to remain in favor.

Now that high collars are established it is natural to find them occasionally used on evening frocks. An entire separate velvet and fur collar is worn with an evening frock by Doucet.

Hats with narrow, tall crowns and narrow curling brims, suggestive of men's hats of the empire period, are among the smartest walking hats of the autumn.

Pockets form a striking feature on many of the new frocks. They are often applied over fullness or tucks and are trimmed with buttons or braid.

To bake potatoes quickly boil them in salted water for ten minutes, then put in the oven. The boiling water will heat them through so they cook in a short time.

For a custard or gelatin preparation eggs should be strained to remove the tough white membrane which does not beat up or dissolve, but cooks into a hard thread.

They expect to bring out about twenty hundred pounds this trip which will be shipped direct to England. It is considered very valuable so it will amount to quite a thing. It is the only mine of its kind known in the Dominion of Canada.

AN
APPRECIATION
... FROM

A SATISFIED USER

Parker's Ridge, York Co.
June 30-1915.

TO: PALMER-McLELLAN CO.
Fredericton, N. B.

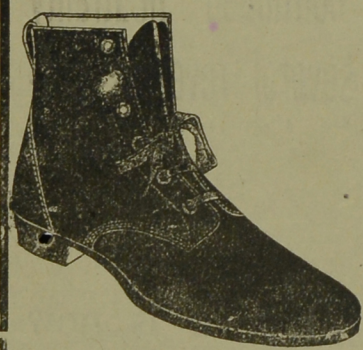

Gentlemen:-

I bought a pair of your Driving Boots from W. R. McCloskey Limited of Boiestown before the driving season of 1915, and about the middle of April last. I wore them all through river driving, and afterwards I removed the caulk and have worn them every day since with every satisfaction. I find the boots comfortable and waterproof, and they are still in good enough condition for me to wear them this Fall and do my next Spring driving in.

These Boots have had hard wear not only on the drive, but in connection with my farming and woods operation ever since, and I have no hesitation in recommending same to any person requiring a boot for long wear and hard service.

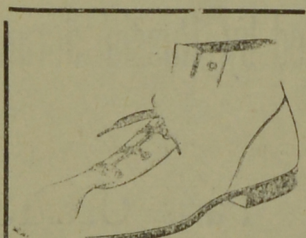

Yours very truly,

Clarence Boies.

BULGARIA'S HOSTILE PLANS KNOWN TO RUSSIA

(New York World)

The fact that Bulgaria long ago planned to join the central empires was fully known to official Russia, according to a statement made tonight to The World by a well informed Russian here.

He declared that Gen. Dmitrieff, the Bulgarian hero of the First Balkan War, knew his country would turn on the Allies, and not only resigned his place at Special Bulgarian attaché in Petrograd during the early days of the conflict, but renounced his nationality and became a Russian subject. He was then given a high command in the Russian army, which he has maintained uninterruptedly since.

It is also known that fully 6000 Bulgarian officers have joined the Serbian army during recent months, knowing that King Ferdinand would throw his country into the war on behalf of the central powers.

In a letter received today by this Russian from a high source in Pet-

rograd, the Russian attitude toward the Bulgarians is made plain. The letter said:

"We know Bulgaria will join our enemies, but it doesn't worry us. Russia has nothing but sympathy for the poor Bulgarian swineherds but that long-nosed King will be dealt with severely in time."

"We will have to send an army into Bulgaria, and when we do they will have much to regret."

German money has corrupted Bulgaria, according to The World's correspondent's informant, and promises of empire for Czar Ferdinand did the rest.
