A SUFFERER FROM

KIDNEY TROUBLE

FOR TWO YEARS.

When the kidneys get ill the back gives
out. But the back is not to blame.
The ache comes from the kidneys, which
lie under the small of the back.Therefore, dull pain in the back, or
sharp, quick twinges, are warnings of
sick kidneys—warnings of kidney trouble.Plasters and liniments will not cure
the bad back, for they cannot reach the
kidneys which cause it.Doan's Kidney Pills reach the kidneys
themselves. They are a special kidney
and bladder medicine. They heal the
diseased surface of the kidneys and
bladder, and help them to act freely
and naturally.Miss Mary A. Northrop, Cole's Island,
N.B., writes: "I have been a sufferer
from kidney trouble for two years.
I tried quite a number of remedies, but
they did me no good. My mother got
me a box of Doan's Kidney Pills, and
they did me so much good that I got the
second one, and when I had taken that
I was completely cured."Doan's Kidney Pills are the original
kidney pills. See that our trade mark,
"The Maple Leaf," is on every box.
Price, 50c per box, 3 boxes for \$1.25;
at all dealers, or mailed direct on receipt
of price by The T. Milburn Co., Limited,
Toronto, Ont.

When ordering direct specify "Doan's."

The Summer Resort

It seems a pity, says an exchange,
that it is not fashionable to exchange
houses for the summer, instead of
closing them up and going to less com-
fortable quarters. Such a waste of
comforts is involved by shutting up
admirably equipped domestic plants
all over the country and going to
places at which shelter space sells by
the cubic inch, and where the vegeta-
bles seem so much more remotely
connected with agriculture than they
do when they are brought fresh from
the home garden.Men could easily form a co-opera-
tive company of summerers upon a
basis of a swap of homes for the sum-
mer. But their womenfolk would not
countenance such a plan, and as the
men are in the main allowed to stay
at home most of the summering seas-
on they are in no position effectively
to complain against the existing cus-
tom.

Measurements Extraordinary

A marvellous instrument, the com-
pound interferometer, has been inven-
ted by Professor C. W. Chamberlain,
President of Denison University. With
this instrument it is possible to mea-
sure a distance as small as 1-20,000-
900th of an inch. It is practically im-
possible for the human mind to realize
the smallness of the distance measur-
able. This 1-20,000,000th of an inch
is the apparent size of the head of an
ordinary pin viewed at a distance of
227 miles, or the size of a cent piece
viewed at a distance of 3,000 miles.

The Essence of Kindness

"He is the most tender-hearted man
I ever saw."

"Kind to animals?"

"I should say so. Why, when he
found the family cat insisted on sleep-
ing in the coal bin, he immediately
ordered a ton of soft coal."

CRANK INVENTORS BUSY

Would-be inventors of new devices
to wipe out whole armies at a stroke,
sink powerful dreadnoughts, reduce
big Zeppelins to powdered form; guns
that will carry great distances, fade-
away howitzers, etc., are haunting the
offices of London patent agents day
and night. The war has caused in-
ventors' ingenuity to run riot. Here
are a few inventions from the clever
brains of engineers and others:New gun that will bag a Zeppelin
at any height, with an ingenious
range-finder.A gun that can fire a projectile miles
beyond the range of the biggest guns
now used by Germany.Projectiles that carry all kinds of
acids and chemicals that put soldiers
into their death sleep if they take a
sniff. One inventor with long hair and
green eyes would like to finance a
company to make a projectile that
carries tons of snuff. On explosion
regiments are thrown into violent fits
of sneezing and taken prisoners be-
fore they can recover.Aeroplane that can be perforated
with bullets and still navigate.Mines of all shapes and sizes,
guaranteed to annihilate whole cities
and make a fleet of battleships good
material for the scrap heap.

Bees Fought British

In the bush fighting in East Africa
the Germans and their black troops
placed hives of bees, partially sup-
plied by smoke, under lids on each side
of narrow tracks along which our
troops must advance. Wires or cord
lifted the lids when touched by the
advancing troops, and swarms of in-
furiated bees, recovered from their
temporary stupor, were let loose on
the attackers. The failure of the at-
tack at certain points is said to have
been due as much to this onslaught
of the "little people" as to the German
rifles and machine guns, many me-
being so horribly stung on the face
or hands as to be temporarily blind-
ed or rendered incapable of holding their
weapons. Over 100 stings are said to
have been extracted from one of the
men of the Loyal North Lancashires.

Nitrogen in Manure

As the result of experiments the
conclusion has been arrived at that
there is no economy in attempting to
check the loss of nitrogen in farmyard
manure by chemicals, and that the
following simple method remains the
best:—

"Keep it moist, and tend it tight."

And it will well your care re-ult."

Layers of soil thrown over the heap
from time to time are very useful, as
the soil acts as an absorbent for the
ammonia and prevents its evapora-
tion.

An Austrian Ruse

A company of Italian soldiers crept
cautiously towards one of the ene-
my's trenches and executed a brilliant
bayonet charge, only to raise the
amazing discovery that the trench was
occupied by cardboard men, 100 in
number.Dettingen was the last battle in
which an English King commanded a
person.Roman soldiers used to drink wine
gar when on long marches.The Canary is an island in the
Atlantic Ocean.Wood's Phosphodine.
The Great English Remedy.
Tones and invigorates the whole
nervous system, makes new blood
in old veins, cures Nervous
Debility, Mental and Physical Weakness, Depon-
dency, Loss of Energy, Palpitation of the
Heart, Failing Memory. Price \$1 per box, 50c
for 50c. One will please, six will cure. Sold by
druggists or mailed in plain pkg. on receipt
of 50c per packet mailed free. THE WOODSBUILDING MATERIALS
