Children's Shoes

GROWN-UPS may often wear shoes of unperfect quality and not discover it. Not so with the strenuous children, they romp and play all day and even when "dressed up" aren't still for five minutes at a time. They get every bit of wear out of a shoe that's put in it.

Our Fall showing of Childrens Shoes is a complete line of shoes to meet every requirement of Dress or Play.

To THINK clearly you must SEE clearly.

Even the printed page, seen indistinctly, cannot convey a clear cut thought.

To you, clear thinking is a necessity.

Clear thinking breeds quick, strong decisions.

And quick, strong decisions make the impression and get the results you want.

Your vision may be clear. You may not feel the need of glasses yet or those you wear may give you perfect sight.

But if the time comes when you do feel the need of a change, consult an Optometrist who has the skill and the will to produce the results you demand.
