 Allies Buying Footwear in Fredericton

Palmer McLellan Concern Have Sent One Shipment and Booked More.

Fredericton, April 11.—(Special)—Fredericton is now supplying footwear for the allied armies in Europe. A large consignment of oil-tanned footwear manufactured by the Palmer-McLellan Shoe Company at its factory in this city, was shipped last week from St. John by steamer Metagama. Other shipments are to follow. The Canadian militia department has repeatedly been urged to adopt footwear of this type but so far has not consented.—Daily Telegraph.

The Oldest and Largest Manufacturers of Oil Tanned Footwear in Canada

UNSTRUNG, UNSTEADY SHAKY NERVES MAY BE TONED UP BY USING MILBURN'S HEART and NERVE PILLS.

Mrs. John Harper, Toronto, Ont., writes: "I have used Milburn's Heart and Nerve Pills for the heart and nervous system. I was confined to a grocery store for twelve years, and had to give up business, as I became terribly run down and nervous, and had heart trouble, and I am sure I am gaining very fast now. I feel that nothing did me any good until I tried your Heart and Nerve Pills, and I am positive they will cure me. The nerves of one hand would tremble and then seem to numb so that I could not write or sew. Now my hand is quite steady, as you can see by my handwriting. This is a big change which delights me so much for I thought all was done that could be done. I was about to give up in despair when I tried this last remedy, and even after I had only taken half a box the change started to come."

Milburn's Heart and Nerve Pills will restore the enfeebled, enervated, exhausted, overworked system to full constitutional power.

Price, 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

7 p.m., Preaching. All cordially invited. Seats free.

ALARMING INCREASE IN PUBLIC DEBT OF PROVINCE

Commodore Stewart Tells the House That It is About Time To Call a Halt—Liabilities of the Province Now Twenty Million Dollars and Interest Charges About Nearly One Quarter of the Revenue

In the Legislature on Thursday Mr. J. L. Stewart of Northumberland gave the government and its following a very uncomfortable half hour. He called attention to the alarming increase in the public debt and interest charges and then suggested to the "dash" away and spend the money" brigade that it was about time to call a halt.

On motion to go into supply Mr. Stewart said that the debt had come when this House should consider more carefully the amounts asked for the various purposes for the fiscal year.

Hon. Mr. Clarke asked if the gentleman was aware that under the rule there could be no discussion of Public Accounts until the committee to whom the accounts were referred had submitted their report to the House. He did not wish to interfere with the hon. gentleman's intentions to make a speech, but he only wished to call his attention to the rules of the House so that he could govern himself accordingly.

Mr. Stewart (Northumberland) said he was aware of the rules which the hon. leader of the government had referred to, and said it was not his intention to discuss anything other than the estimates. He said that for almost every service during the past year the estimates had proven insufficient, and it had been necessary to get additional grants passed during the year.

In Legislative Committee the first supplementary estimate passed on May 7th and a further grant of \$422 was necessary later on. For the Board of Works \$30,000, had to be passed subsequently, and for Provincial Secretary, Provincial Hospital, etc., which the province would have to pay this year, and \$350,000 would even the Brown Tail Moth, Immigration, Jordan Memorial Sanatorium, 000. He did not think that any of Roads and Bridges \$10,000, as early as September 2nd, and \$20,000 later on. Fish, Forest and Game \$2,000, odd and so forth until a total of \$57,251 was reached, showing that the estimates were short of the requirements of the departments by that much. Then there was also two special warrants of \$75,000 each, which of course, as everybody knew could not be foreseen. These items, however, led hon. gentlemen and the country to doubt if there was sufficient provision made for the various departments this year. If the \$57,000 which he referred to had been put in, there would not have been the estimated surplus which the House was sold it was expected there would be.

THE BOND ISSUES

He had asked the Hon. Provincial Secretary for a statement as to the various bond issues, and he had thought he would have been given them today as he wished to use them in this connection. His purpose was to show that the debt was growing faster than the hon. members of the House and the people realized, interest was being paid on, and no and that the financial affairs of the province were not so well conducted as the budget speech of the Hon. Provincial Secretary would lead one to believe. In 1914 legislative authority had been taken to allow bonds which were authorized to be sold at

AN ALARMING INCREASE

It was well known that the province is borrowing \$500,000 every year for permanent bridges, and this \$500,000, as well as various other amounts, are being added to the debt. But there was no information why there should be an increase this year of from \$270,000, which was the amount paid last year for interest, to \$350,000 this year.

This meant increasing the interest charges by the amount of 5 per cent. on \$1,600,000. It showed that the province had gone that much further into debt in a year. The interest account showed the amount of interest paid and it was easy to figure out from that how much of a debt of the House and the people realized, interest was being paid on, and no and that the financial affairs of the province were not so well conducted as the budget speech of the Hon. Provincial Secretary would lead one to believe. In 1914 legislative authority had been taken to allow bonds which were authorized to be sold at

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and New Strength at This Season.

Spring ailments are not imaginary. Even the most robust find the winter most trying to their health. Confinement indoors, often in over-heated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—takes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions; while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give your health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves.

And the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These pills not only banish spring weakness but guard you against the more serious ailments that follow such as angemia, nervous debility, indigestion, rheumatism and other diseases due to bad blood. In proof of this Mrs. T. E. Hughes, Hazenmore, Sask., says: "About a year ago I was badly run down, my nerves were all unstrung, and I could not go upstairs without stopping to rest. As I was a long ways from a doctor I decided to take Dr. Williams' Pink Pills and in a course of a few weeks I felt like a new person. As an all round restorative I can heartily recommend this medicine."

If you are ailing this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co.,

HIGHWAY ACT

Mr. Swim said the County Council had recently passed a resolution asking the government to repeal the present highway act and enact legislation that would restore to the Municipal Councils the right to appoint the road commissioners and that the best features of the Hazen Act, 1903, be made the basis of the new act. He said there was a strong feeling in his county in opposition to the present highway law. The Municipal Council, of which he had the honor to be the warden, was pretty evenly divided in politics and they had discussed the matter very fully and they felt the best interest of the roads would be served by the passing of the new act. As however, he understood that a bill dealing with the highways would be brought in later in the session, he would defer any more remarks until that bill was under consideration.

Referring to bridges he could not say what was doing on in the other counties but he did know what was not being done in Northumberland. Some time ago a lot of money was voted for permanent bridges, which everyone would say was a very good policy.

A LARCENOUS SUGGESTION.

Jenkins—Let's drop in at this restaurant.

Jenkins—We haven't got money enough to go in there.

Jenkins—Yes, I know. But I need a new overcoat.—Michigan Gargoyle.

MADE IN CANADA

Nature's laxative is cellulose—the woody fibre that is found in many vegetables and in the bran coat of the whole wheat grain. It serves the useful function of promoting "bowel exercise." You find it in

SHREDDED WHEAT

in a form that does not irritate the intestines. It is combined with carbohydrates and mineral salts that build the perfect human body—all prepared in a digestible form—more nourishing than meat and costs much less.

Shredded Wheat is made in two forms, BISCUIT and TRISCUIT—the Biscuit for breakfast with milk or cream, or with fruits; Triscuit, the wafer-toast, delicious for luncheon with butter or soft cheese, or for any meal as a substitute for white flour bread.
