HAD SALT RHEUM ON HANDS. Could Not Do Her Work.

Eczema or salt rheum is one of the most common of all skin diseases. It may centre itself on any part of the body, but there are certain places where it most usually begins, such as the bends of the elbows, the backs of the knees, the groove behind the ears, the scalp, on the palms of the hands, between the fingers, or on the soles of the feet.

It is, as a rule, not dangerous, but is very irritating and annoying to the sufferer on account of the terrible itching and burning sensation it causes.

It is impossible to eradicate this trouble from the system by external applications, as it is caused by the blood being in an impure state. What you need is a good blood cleansing medicine such as Burdock Blood Bitters. A medicine that will drive out all the foulness from the blood and make it pure and rich.

Mrs. Adelard Theriault, Theriault, N.B., writes: "Some time ago I was troubled with salt rheum on my hands, and it was so bad I could not do my work. I tried several medicines, but they all failed to help me. One day a friend told me to try Burdock Blood Bitters, so I got a bottle, and before I had taken it my hands were better. I am not afraid to recommend B.B.B. to anyone."

B.B.B. has been on the market for the past forty years, and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

HAMBURG LINE OFFICERS WERE FOUND GUILTY

New York, Dec. 2.—Three high officials and a subordinate officer of the Hamburg-American Line were found guilty tonight in the federal district court of having violated the laws of the United States in sending coal and other supplies to German cruisers in the South Atlantic in the first few months of the European war. The jury returned a verdict of guilty on each of two indictments.

The specific charge against the defendants was conspiracy to deceive and defraud the United States. The maximum penalty for each indictment is two years' imprisonment and \$10,000 fine. Sentence was not imposed tonight and because of the late hour when the verdict was reached, Judge Howe deferred till tomorrow morning a hearing on the formal motions to set aside the verdict and arrest judgment, which the defence is sure to offer. A date for passing sentence will then be designated.

FRIENDS OF GOVERNMENT MADE BIG CLEAN UP

Winnipeg, Man., Dec. 1.—Rumor is gaining favor in grain circles here as to the object the Dominion Government had in commandeering sixteen million bushels of wheat on Saturday night. It was to fill boats sent over by the British authorities at the request of Canada to move the big crop. All that was hampered into the Border Government and they should get busy and secure transports for the crop at seaboard. They got busy too late and now that the Admiralty has set free a fleet of twenty steamers the Border Government found themselves up against the situation of having no grain to put into them, as the grain trade, having no confidence in the assurances of the government, had gone to work and arranged themselves for Atlantic boat space. The Border Government, not seeing any grain in sight for the belated fleet, decided to take the bull by the horns and seize wheat to fill the space. That is the reason the British Government knew nothing of the transaction.

It is estimated that sixty boats will be required to carry this big consignment. Many grain men in the West have lost heavily through losing this wheat, total losses being estimated at 70,000. Of course, some were wise to the move and certain friends of the Government on the inside cleaned up tidy sums by the market advance.

When will the wheat be paid for? Sir George Foster has not even acknowledged the urgent wire from President Milner of the Winnipeg Grain Exchange, asking for this information. Farmers are wiring from the country and many firms, particularly smaller houses, are much hampered. All wheat seized was "Spot." It was virtually cash in hand and if the Government is not forthcoming with the cash for two or three months, as was the case when it bought oats last year, there will be an awful tie-up and no end of additional loss. The cry of the Winnipeg grain men is till, "Where are we at?"

SERGT-MAJOR NOW.

Friends of A. Tammahill Crilly, of the 64th Battalion at Halifax, are pleased to learn that he has been promoted to the rank of sergeant major, the highest non-commissioned office. The young man holds a Lieutenant's commission and went across with the first contingent in that capacity.
