IT GOT AWAY

EXECUTIVE MEETING

A meeting of the executive of the once grand old Conservative Party of York was held this afternoon on the sidewalk in front of James S. Neill & Sons hardware store. Those present were Messrs. J. H. Crockett, A. C. Fleming and A. Limerick. Matters relating to patronage were discussed at some length and a resolution passed recommending that prunes be eliminated from the regular bill of fare at the barracks.

ANOTHER CHANGE.

When the Board of Health gets the houses in the vicinity of the Charlotte Street School connected up with the sewerage system, it should give some attention to the Campbell premises on Regent street. The owner of this property was ordered to connect with the sewerage system in July last, but up to the present time she has not done so. A number of colored people are living in part of the house. They take in washing and throw the slops into the yard. Neighbors complain and not without reason of the laxity of the Board of Health in this case.

CONDITION WAS SERIOUS.

Globe—Friends of William Murray, son of Mrs. E. S. R. Murray, 256 Douglas avenue, will be pleased to know that the young man is rapidly recovering from the effects of his mishap of Wednesday afternoon and that he will soon be all right again. Mr. Murray, who is seventeen years of age, had been testing his motor-car in the garage in the rear of his home when he was overcome by carbon fumes, which collected in the building. He was alone at the time. Just how long he was unconscious is not known, but when he was found at six o'clock in the evening he was in a serious condition. He responded to medical treatment, however, and was reported to be almost in normal health this afternoon.

LEFT AN ESTATE OF MORE THAN HALF A MILLION

Will of Late W. Atlee Burpee, Philadelphia Seedman, Has Been Admitted to Probate—Two Cousins Remembered.

The late Mr. W. Atlee Burpee, the noted seedman of Philadelphia, and a native of Sheffield, who died recently, left an estate valued at from \$300,000 to \$700,000. A recent number of The Philadelphia Bulletin gives the following particulars concerning the estate: "By the will of W. Atlee Burpee, the noted seedman, who died at his home, 'Fordhook,' probated by Deputy Register A. Harry Clayton, today, an estate estimated at from \$500,000 to \$700,000 is bequeathed. The will is dated May 27, 1913, and names as executors the widow, Mrs. Blanche Burpee, a son, David Burpee, Judge Hamman Yerkes and Alexander Buchanan Scott.

"Eventually, nearly the whole estate goes to the two sons, David Burpee and W. Atlee Burpee Jr. One-third of the personal estate and a life interest in the Bucks county and the Philadelphia properties goes to the widow. The sons receive the seed business, subject to the one-third interest of the widow, a share to a sister, Sarah Coburn Burpee Scott, and one-sixth interest to the manager of the seed business, Howard M. Earl. "To allow for an advantageous disposal of the seed business, with the sons given power to incorporate it, the testator provides that the time for the settlement of the estate shall be extended for five years from his death. CHARLOTTE STREET SCHOOL PLUMBING IS BEING TESTED

Board of Health Will Not Permit Building to be Opened Until Plumbing is Satisfactory—School Board Meeting Today.

The School Board will meet today to consider the report of the expert, Mr. F. L. Heans of St. John, upon the sanitary appliances at the Charlotte Street School. This report, which was prepared by Mr. Heans after thorough examination of the plumbing of the school building mentioned, it is understood recommends the installation of tanks to supply an extra quantity of water to flush the closets, Mr. Heans believing that under present conditions there is not a sufficient flow. His opinion is also that the system is a good one but that it is not extensive enough for the school. The result will be that temporary arrangements will be made under which the school can be reopened and conducted until the summer vacation, when steps will be taken to instal a complete new sanitary system in a wing to be erected for the purpose.

Today Plumbing Inspector George Edney is conducting a test of the
