RUSSIAN SHIP TORPEDOED

Constantinople, by wireless to Berlin, May 27 via London,--The torpedoing of the Russian battleship Panteleimon by a Turkish submarine occurred in the Black Sea, May 22, near the entrance to the Bosphorus.

Amazon Explorer Swears By Grape-Nuts

Alget Lange--Famous tropic explorer--recently made a perilous exploration of the lower Amazon.

The question of food supplies was a big one. Economy of space--food value--keeping qualities--palatability--all had to be considered.

Lange chose for his standby--

Grape-Nuts

Here is the way he refers to this food here and there through his book, "The Lower Amazon"

"I have included in my supplies Grape-Nuts."

"At lunch I eat some Grape-Nuts (an American breakfast cereal) with condensed milk."

"After this egg (turtle) meal comes for me Grape-Nuts from sealed tins."

"I go back to the moloca at noon to eat my lunch of roast turtle, Grape-Nuts and hard-tack."

Everywhere--at home or abroad--wherever big things are accomplished--this famous wheat and barley food is relied upon to build and sustain vigor and energy of body, brain and nerve.

Ready to eat--delicious--economical--nourishing.

PRINCE WILLIAM BOY

(Continued from page one.)

else. Others too feeble to walk were put in wheel-barrows surrounded by by all kinds of packages which they kept from falling off. One kid was in front with a short rope attached to the barrow pulling for all he was worth. The kid that had hold of the handle had one end of a strap tied to one handle while the rest of the strap went over his shoulders. Believe me they were all making good time. This country is full of refugees. Nearly every house had three or more families in it.

The village where I am today is all deserted except for an odd family. When I was on duty here a few days ago everything was going as smoothly as though there was no war going on, but today it looks more like the city of the dead. They are only dropping a few shells in today--just enough to make it interesting. I am now in between the enemy's fire and our own. It is great to hear the shells whistling and screaming overhead. One soon gets to know the different shells by the noise they make. The "Jack Johnsons" make the worst noise of all it sounds like an express train rushing past you at full speed. Talk about a racket when they hit the earth. They make a hole from ten to twenty feet in diameter and when you stand up in a hole your head does not come to the top of the ground. One gets used to being under shell-fire. In fact I always want to see where they light and what damage they do. One landed in a cemetery close to where we were stopping. Talking about a ghastly sight--it happened to land in the place where there had been a lot of soldiers buried and their remains were scattered in all directions.

The first time I was under fire we had to patrol a stretch of country around our trenches. The "Jack Johnsons" and shrapnel shells were bursting all around yet we did not lose a man. One was slightly wounded. In fact we have not had any killed since we came over. It looks as if we bore a charmed life. Don't you think so?

You will see long before this reaches you the part the Canadians have played in this struggle. This last week and I am glad to say we have upheld the honor of Canada and the traditions of the British Empire.

I have not met any of the Fredericton boys over here but have seen a few from Woodstock and Moncton.

WOUNDED IN FLANDERS.

Sergt. Charles Atkinson of St. Mary's, who left Fredericton with the 71st Regt. draft in August, is reported wounded in the head in Flanders. He was with the 14th Battalion.

TORTURED BY CONSTIPATION

"Fruit-a-tives" Cured Paralyzed Bowels and Digestion

ST. BONIFACE DE SHAWINIGAN, QUE. Feb. 3rd, 1914.

"It is a pleasure to me to inform you that after suffering from Chronic Constipation for 2 1/2 years, I have been cured by 'Fruit-a-tives'. While I was a student at Berthier College, I became so ill I was forced to leave the college. Severe pains across the intestines continually tortured me and it came to a point when I could not stoop down at all, and my Digestion became paralyzed. Some one advised me to take 'Fruit-a-tives' and at once I felt a great improvement. After I had taken four or five boxes, I realized that I was completely cured and what made me glad, also, was that they were acting gently, causing no pain whatever to the bowels. All those who suffer with Chronic Constipation should follow my example and take 'Fruit-a-tives' for they are the medicine that cures".

MAGLOIRE PAQUIN

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

SNOW COVERED GROUND EARLY THIS MORNING

The heavy storm of rain which set in yesterday developed into snow early this morning, making weather most unseasonable for the latter part of May. The snow melted quite rapidly after falling but until the weather cleared shortly before noon there was snow lying upon the ground to the depth of half an inch. With a rising temperature the snow disappeared. This snow flurry recalls the fact that on June 5th last year there was a heavy fall of snow in the northern part of the province. Six inches fell at Campbellton, making it possible to use sleighs, while in parts of the Miramichi forests there were two feet of snow with the result that bird-life became practically extinct in that region. Old timers recall that on May 26, 1896, upwards of half a foot of snow fell in Fredericton and the country adjacent.

Dr. C. C. Jones of the U.N.E., reports that the total precipitation yesterday and last night was one inch, with the highest wind velocity recorded this morning as thirty miles per hour. The lowest temperature was thirty-one degrees above zero. The gale played havoc with the wires of the N.B. Telephone Co. in and about the city, many being blown down. The roof of the City Hall suffered severely, a large number of slates being blown off. The intention had been to begin rafting operations at the Douglas Boom this morning but the wind was so high the rafting crews did not go out.

George W. Kilburn this morning received word that the water in the upper Nashwaak had risen a foot as a result of the storm and that there had been heavy snow there. This rise in water will be of great help to the Partington Company's driving crews, who are working there. Ex-Senator N. M. Jones of St. John, manager for the company, arrived here last night from the Upper Nashwaak and went on to St. John. He stated that only 500,000 feet of lumber had been abandoned by the drive near the Narrows. The rest of that drive he expected would be brought out. The head drive last night was at Ryan's Brook and will come out all right. The statement that 17,000,000 feet had been hung by the rear drive is entirely incorrect. The entire cut on the Nashwaak, including bank logs, is little more than that. At the most there is not more than 5,000,000 feet in the rear drive and much of that has gone down to the lower drive.

FRANK J. SHERMAN

(Continued from page eight.)

The other F. J. Sherman, put in his first day in barracks as a full fledged private in the rear rank of the McGill Overseas Contingent.

Some people would probably think this a long step down. Pte. Sherman doesn't think so. He is not worried over leaving his bachelor quarters in the Windsor Hotel, the prestige, the importance, the responsibility and the money that his position, (one of the best any Canadian bank has to offer) gives him to accept \$1.10 a day, the abuse of his sergeant if the sergeant is so minded, and the disagreeable duties that fall to the private soldier when fatigue parties are needed. He is quite happy, and very glad that matters have been arranged so that he can leave the bank and serve his country even in this humble capacity.

Pte. Sherman joined when the corps was first formed. He worked hard and when they went to Niagara he went with them. Then he returned, and today put the bank and all that it meant behind him and walked into the barracks a private.

James F. Clark of St. Stephen is in the city.

John McGibbon of St. Stephen is registered at the Barker House.

THE FAMOUS Ostermoor Mattress

Soft, Substantial, Springy, Sanitary
Built--Not Stuffed

Our Ostermoor Mattress Offer Good Until June 5th.

By paying \$1.00 at time of purchase and agreeing to pay us \$1.00 per week until paid for, we will deliver the Ostermoor to your home at once.
