TIGHT? not a break in the joints

Rain and wind play queer tricks with shingles. If there are openings where the joints lap, trust the wind to find them and drive in water and snow.

You cannot force water through a PRESTON roof, even with a fire hose.

Be sure to see how the joints of the Preston Safe Lock Shingles hook together. They are continuous wind-and-water-proof joints, solid at the corners and solid along the top and sides. All joints—four sides—are lock joints; no lapping but solid tight locks that water cannot penetrate—that sagging, or wind storms cannot pull apart.

ACID Tests Protect You

The British Government taught us how to buy iron. We borrowed their method of testing with acid to make sure of the galvanizing. We know that Preston Safe Lock Shingles will continue to make good friends for us among the farmers.

GRAFT CHARGES IN MANITOBA HOUSE

Winnipeg, Man., April 1—The twenty-one Liberal members of the legislature last night presented a memorial to Lieutenant Governor Cameron, praying him not to prorogue the legislature until provision had been made for a royal committee of three judges to inquire into all matters pertaining to the construction of the parliament buildings and until such commission has reported to the legislature.

The memorial sets forth the Liberal contention as "that as a result of the 'limited inquiry' held by the Public Accounts Committee, it had been demonstrated that the province had been defrauded of more than \$800,000. It was expected the legislature would prorogue yesterday but at two o'clock this morning, when the House adjourned until ten a.m., T. H. Johnson, Liberal, was speaking.

How to Care for Your Complexion

There is no truer saying than that "beauty is only skin deep." Good features lose their charm under a sallow or blotchy skin and poor features are glorified by a beautiful complexion.

A very useful toilet booklet entitled "Your Complexion" has just been issued by Nyl's and contains many helpful health and beauty hints, including proper methods of massage. It can be had for the asking at the Nyl Agency Drug Store and you should call or telephone for it. Among other things it points out that diet, sleep, ventilation, and a thousand other things we cannot escape are continually warring against our complexion. Get a 25c or 50c jar of Nyl's Face Cream and convince yourself of its cleansing and refreshing and beautifying qualities. It is greaseless, oxygenated and quickly absorbed by the skin, leaves no shine, and gives a pleasant, smooth, cool sensation, quickly removing the irritation produced by wind and weather.

All Nyl preparations are justly famous and none more so than Nyl's Face Cream which we unhesitatingly recommend. Call or telephone us for your copy of this book which contains most valuable information.

JITNEYS EARN GOOD MONEY

Providence, R. I. March 30—Scarcely has the competition of the trolley corporations in Northern Rhode Island and six hundred "jitney" buses that the railroad centring here are losing at least \$1,500 a day, and the end is not in sight.

Before the summer is in full swing it is estimated that there will be more than 1,000 buses transporting passengers, especially to the shore resorts and that the trolley lines will be losing twice as much.

For many years the electric lines were controlled by interests which refused the service demanded and the people could get no relief. The Legislature in 1912 bound the State hand and foot to the Rhode Island company which controls most of the trolley lines in this section. Extension of service was refused to rapidly growing sections; strap-hangers were multiplied in the rush hours, shelters were refused at points where almost interminable waits for cars were necessary and the people were exasperated.

Now comes the "jitney" vogue, and though the trolley lines are now under a more efficient and competent local management popular dissatisfaction with old conditions has caused the people to take the "jitney" to their bosoms and the trolley lines, with their exclusive city and State franchises are suffering.

They are forced to bear a large share of the cost of widening, rebuilding and repairing the streets through which they are running cars, while the "jitney" pays only a nominal licence and uses the same streets without popular protest. Regulations are being considered, however by city and State legislators.

MOTHER'S PRAISE BABY'S OWN TABLETS

Mrs. S. E. Laurie, Grafton, Ont., writes: "I have used Baby's Own Tablets ever since my baby was two weeks old and would not be without them as I consider them the best medicine in the world for little ones." What Mrs. Laurie says thousands of other mothers say. Simply because they have found the Tablets safe and sure and pleasant for the little ones to take. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Look over your stock of stationery and see if there is anything you are in need of. If so ring up Telephone 67 and a representative of The Mail Printery will call for your order. We have all the facilities to give us a trial order.

GERMAN PIRATES GET MORE VICTIMS

London, April 1—While the German submarines continue their activities around the coasts of Great Britain, the naval wing of the Royal Flying Squadron keeps up its attacks on the German submarines which are being built at Holboken and on the submarine base at Zeebrugge.

The Germans have added two more steamers to the long list of merchantmen sunk off Beachy Head. The victims this time were the French steamer Emma, which was torpedoed yesterday without, nineteen of her crew going down with their ship, and the British steamer Seven Seas, sent to the bottom this afternoon without warning, eleven of her crew being drowned.

The British losses already reported for the week ending March 31st were five steamers; a sixth vessel was torpedoed, but reached port. During the week, however, 1,559 vessels entered and sailed from British ports. So, except for the deplorable loss of life, the damage done was not considered excessive.

On the other hand, the British have no means of ascertaining the nature of the damage done by the bombs dropped on Hoboken and Zeebrugge, although it is believed that two of the under-water craft lying at Zeebrugge were damaged.

Beyond these attacks, the official reports contain little news today and that which they do give relates only to operations of minor importance.

Mine warfare has been at progress at many points in the west and at other points there have been artillery duels and occasional infantry attacks but nothing that has in any way approached the proportions of a battle.

In the east the armies stand about as they were. The fighting in Northern Poland has been of a desultory character, both sides apparently having given up any idea of advancing for the present. In Central Poland, however, the Russians are showing a certain liveliness.

The German official reports for the last two days have noted attempts of the Russian troops to resume the offensive on the Rawka River, while Vienna tonight reports a severe attack by the Russians in the vicinity of the Pilica River, which they claim to have repulsed.

These movements doubtless have been undertaken to prevent the Austrians and Germans from sending reinforcements from this front to reinforce the armies which are trying to hold the Carpathian passes against the onslaught of the Russians, who daily report the capture of a large number of prisoners, but who apparently are making very slow headway in the operations against Lupkow and Uzok Passes. The Russians also are slowly pushing the Turks back in the Caucasus.

Belgrade has been again bombarded by Austrian guns, while Austrian airmen have dropped bombs on Cetinje, the Montenegrin capital.

The operations of the allied warships in the Dardanelles are still in a state of abeyance.

MADE IN CANADA

Do you know Triscuit? It is the Shredded Whole Wheat Wafer. Try this whole wheat toast a few days instead of white flour bread toast and see how much better you feel.

TRISCUIT

heated in the oven to restore crispness and then served with butter is a delicious snack for luncheon or for hungry "kiddies." It is in a class by itself. It has everything in it that growing youngsters need and they like to chew it because of its crispness and tastiness.

GERMANS KILLED

FIGHT FOR LIFE

London, March 29—Captain Wright of the trawler Eileen Emma confirms the story of the survivors of the Falala that the submarine crew made no attempt to rescue the men struggling in the water. He declared emphatically that the Germans laughed and jeered at them in their fight for life. The skipper states that he labored for two and one-half hours rescuing those swimming about, and altogether was able to pick up 116. The submarine, he said stood by while the liner sank and then headed southward.
