U. S. MUST SHARE PRIVILEGES WITH REST OF WORLD

Washington, July 23—"I do not believe we should give free tolls through the Panama canal to our shipping, either coast-wise or international," said Senator Percy of Mississippi, in a speech today in the senate. He added that he did not believe the Hay-Pauncefote treaty with Great Britain permitted the United States to discriminate against foreign shipping in the interest of American commerce.

Senator Percy said the neutrality of the canal had been guaranteed by the United States in return for Great Britain's surrender of her protest rights against its fortification.

He declared the United States could not claim under the British treaty the right to give favors to its own shippers. If such a provision had been made a part of treaty, he said, it would have been instantly rejected by Great Britain.

"It has been said we cannot get a fair trial at The Hague court," said Senator Percy. "If we were to present to any court the claim that we were entitled to these privileges under the treaty we could not escape on the part of all nations that we were making a disreputable attempt to evade our just obligations."

Senator Percy thought the United States enjoyed practically no privileges under the Hay-Pauncefote treaty which it did not have to share with the world.

SHOULD NOT BREAK CONTRACT

Senator Percy declared the United States undoubtedly had made a "hard bargain" in the Hay-Pauncefote treaty, but that the sense of national responsibility should prevent this country from breaking its contract.

Having reaped the fruits of the

treaty we cannot now escape its obligations with honor, and we will not do it with dishonor," said Mr. Percy.

"What are those fruits we have reaped?" asked Senator Bristow.

Mr. Percy replied that Great Britain had given up certain rights under the Clayton-Bulwer treaty and that without such action the United States would have been unable to build the canal.

Senator Bristow retorted that the Clayton-Bulwer treaty always had been violated by Great Britain and had practically ceased to be operative before the Hay-Pauncefote treaty was made.

Mr. Percy contended there should be no abrogation of the present treaty, even if The Hague court should pass upon it and give a decision against or in favor of the United States.

Senator Cummins asked Senator Percy if he thought the United States should give free tolls to all nations or should pay the expense of operating the canal.

"I am in favor of tolls," replied Senator Percy, "but I can see much merit in our giving the canal as an offering to the world, reaping our benefits in commerce and lower freight rates."

Senator Cummins declared he believed the canal case could never properly be submitted to The Hague. "It would not be possible to get a fair and unbiased court," he said. "I would as soon submit the case to Great Britain alone."

Senator Percy said he believed a clearer trial could be had at The Hague. He added that if a small community of interests among nations made it impossible to secure unbiased international courts, "we may well pause in the development of our international relations."

SALMON ADVANCES IN PRICE

When last week canned salmon reached the unheard of figure of \$9 a case the local dealers gasped for breath. The end is not yet, however, for on Monday evening another jump was recorded and stocks are now held for \$9.25. The price mentioned is for Red Clover salmon, which is the most popular and the finest brand which comes to this market. Inferior grades, however, are also becoming scarce. Cohoes are quoted at from \$8 to \$8.25 and Pinks at from \$5.75 to \$6. Sockeye salmon the highest grade of all is no longer obtainable here and has not been offered for years. In the early days the Sockeye salmon was about the only salmon packed. The flesh is superior in flavor to all other varieties but so intensely red in color as to lead to a suspicion of coloring matter. The Sockeye is canned in large quantities but so great is the foreign demand that the whole pack is annually disposed of on these markets.

SALLOW FACES

Often Caused by Tea and Coffee Drinking

How many persons realize that tea and coffee so disturb digestion that they produce a muddy, yellow complexion?

A ten days' trial of Postum has proven a means in thousands of cases of clearing up a bad complexion.

A Wash. young lady tells her experience:

"All of us—father, mother, sister and brother—had used tea and coffee for many years until finally we all had stomach troubles more or less."

"We all were sallow and troubled with pimples, breath bad, disagreeable taste in the mouth, and all of us simply so many bundles of nerves."

"We didn't realize that tea and coffee caused the trouble until one day we ran out of coffee and went to borrow some from a neighbor. She gave us some Postum and told us to try that."

"Although we started to make it, we all felt sure we would be sick if we missed our strong coffee, but we tried Postum and were surprised to find it delicious."

"We read the statements on the pkg., got more and in a month and a half you wouldn't have known us. We all were able to digest our food without any trouble, each one's skin became clear, tongues cleaned off, and nerves in fine condition. We never use anything now but Postum. There is nothing like it." Name given by Canadian Postum Co., Windsor, Ont.

"There's a reason," and it is explained in this little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MAY FORCE ROSE TO CONFESS

William Shapiro, driver of the murder-car, and Louis Libby, one of the cars owners will probably be permitted to turn states evidence, counsel for the pair having informed the public prosecutor that Shapiro knows all who were in the car and that if he does not know all the men who were in the car and that if he does not know their names he will be able to identify them. Deputy Police Commissioner Dougherty made it clear that he was questioning every one connected in the case as to their relations with Lieut. Becker.

"So far," said Dougherty, "I have discovered nothing in this case either for or against Lieut. Becker."

There were reports today that "Bridgie" Webster, now in custody of the police had determined to tell all he knew. It was in Webster's poker rooms that the gunmen gathered before they went out to kill Rosenthal.

A large fund is said to have been raised by gamblers in the city to defend the prisoners under arrest in connection with the case. Meanwhile the investigation by the Grand Jury into the gambling situation and revelations made by Rosenthal was continued today and there were reports that important indictments would be found.

SUFFRAGETTES' ATTACKS WORRYING MINISTERS

London, July 23—Completely terrorized by the suffragettes, Britain's public men are guarded as at a time of nihilistic activity in Russia. They are no longer worried by the risk of mere annoyance. They fear for their lives and the safety of their families.

King George's advisors have warned him strongly against any public appearances for the present. Scotland Yard's ingenuity and resources are taxed to the utmost to protect the Cabinet, their wives and children and their homes.

The police are convinced that the votes for women militants have entered upon a campaign of arson and homicide. There is no question that an attempt was made to burn the home of one member of the Cabinet. The hangings of the Dublin Theatre, where Premier Asquith spoke last week were set on fire. That the gunpowder found in the rooms of the party of suffragettes demonstrators was intended to blow up the theatre the suffragettes themselves do not deny. It is agreed that the hatchet thrown by a suffragette at the Premier in Dublin on Friday narrowly missed him.

MILITANT METHODS DENOUNCED

The Woman's Social and Political Union issued a statement commending all these demonstrations. It is feared that this will inspire further violence.

Premier Asquith Chancellor of the Exchequer Lloyd George, Home Secretary McKenna, Winston Churchill, the First Lord of the Admiralty, and other Cabinet Ministers have received the most ferocious threats anonymously of what will happen to them unless they declare for equal rights at the polls. Not only are they assured that they are in danger of being killed, but that the burning of their homes and the kidnapping of their children are planned.

The bitterness and determination of the suffragette campaign were again evidenced when Premier Asquith was attacked at the Chester Railway Station on his return journey from Dublin. Another attack was attempted upon his arrival here.

At Chester Dr. Jessé Murray and Mary Gray, two suffragettes, rushed the Premier and shouted: "Be warned in time." Other women who resented the attack on Mr. Asquith, turned on the suffragettes and were handling them roughly when a clergyman, who was standing nearby, rescued them. The two women were detained by the police.

On the arrival of the Prime Minister's train at Euston Station tonight another woman attempted to attack Mr. Asquith, but was prevented.

TELLING ON MINISTERS

Premier Asquith's iron nerve is said to be shaken and the result upon his health is beginning to give his friends some anxiety. Even Mr. Lloyd George, who has faced many disquieting situations nonchalantly enough in showing signs of nervousness.

One Cabinet Minister, who is said to be an excellent authority to be suffering seriously from the shock of a suffragette attack, is Austine Birrell. Since the Chief Secretary for Ireland was assaulted in Hyde Park by a woman, who proclaimed herself to be a suffragette, he has aged perceptibly.
